THE SUPERIOR PARLOR IS TRULY WONDERFUL

Beautiful Spot in a Beautiful City—Fittings and Accommodation Unsurpassed.

"I would call this a beautiful spot in a beautiful city," said a traveller who happened to drop into the Superior ice cream parlor yesterday on his way up Princess street.

The traveller was right. The enlarged and renovated parlor far surpasses the most beautiful descriptions given when the work started. The beauty of it caused many customers who dropped in yesterday and last night to pause and gasp and to-day it is the talk of the town. The popular question downtown this morning, especially among the younger set was: "Have you seen the Superior?"

The interior of the parlor, spacious before, has been made larger, the extension going twelve or fifteen feet towards the rear. A new tiled floor has been put in, the ceilings redecorated, and over six dozen beautiful electric fixtures installed.

Down the sides are charming little booths with backs about four feet high, which form little separate alcoves for different parties. The seats are upholstered in black and finished in silver, each alcove has a beautiful mirror and artistic silver electric candle, shaded to give a restful effect. Dainty porcelain-topped tables complete the fittings of the booths.

Down the centre are two rows of porcelain-topped tables to accommodate patrons in rush hours, and overhead the indirect lighting system combines in harmony with the lavish floral decorations suspended in art baskets.

A set-in alcove at the extreme rear holds flowers and a beautiful Edison Re-creation at present and will be fitted with a new piano in a few days for use when an orchestra holds sway. For summer use, electric fans have been installed and a convenient time-piece is placed in a handy but not too prominent place.

Every candy and confection in the place is under cover. Even the display windows have been enclosed, in order that patrons may be assured of having everything clean and fresh. Speaking of the candy, the Superior management call attention to their new and exclusive line of "Temptation" chocolates, made by them on the premises, which they will shortly be putting on the market in boxed form.

The dispensing counter, marble throughout, and of the most modern style obtainable anywhere, has had several new features added.

On the first floor at the rear one finds the manufacturing plant for ice cream. This is unique in that no ice is used. A compact machine containing brine and "just machinery" takes in the cream and turns out the delicious confection.

On the second floor a large new candy kitchen has been fitted out, with two dipping tables, a pair of new marble-topped candy tables and a forty-foot counter for the cutting and hardening operations. This kitchen is bright, airy and clean. In the centre a pot sings merrily on the candy stove and a new stove will shortly sit beside the present one. Here all the delicious candies sold at the Superior are made.

In another room opening off the candy kitchen the walls are lined with shelves of preserved fruits, all put up by the Superior from the choicest of fruits. Everything that they sell is made on the premises, with the exception of one of two lines of standard chocolates, and bottled soft drinks.

The outside of the store has also received considerable attention, and to judge from their motto: "We Are Pleased When You Are," the owners of the Superior should soon be wearing broad smiles.

Kingston Police Notified About Murrell Brothers

According to information received by the Kingston police department on Thursday, the reward for the capture of the notorious Murrell brothers, who escaped from the London jail on Sept. 2nd, and who are wanted for attempted bank robbery and murder, has been increased to \$4,000. The county of Middlesex has put up \$3,000 and the Ontario legislature has given a similar amount. The men wanted are Sidney E. Murrell and William G. Murrell.

MR. RALPH SALSBERG.

New-Comer to Kingston Medical Profession—City Boy. Another physician was added to Kingston's list today when Dr. Ralph H. Salsberg opened his office at 331 Barris street, between Colborne and Ordnance streets, for the practice of medicine and surgery.

Dr. Salsberg has lived in Kingston all his life-time. He attended Kingston Collegiate, passing from that institution with high honors and entering Queen's whence he graduated in the spring of 1913 with degrees of M. D., C. M.

From the spring of 1913 to the autumn of 1915 he was with the department of S.C.R. at St. John, N.B., treating tuberculous returned men. From the fall of 1915 until July, 1921, he put in at further study, taking a post-graduate course at Newark City hospital, Newark, N.J. During August and September he has been carrying on the practice of a fellow physician in Magrath, Alberta.

He is a licentiate of the medical council of Canada, member of the Alberta Royal College of Physicians and Surgeons and of the same body for the province of Ontario.

THE MOTOR BY-LAW AGAIN.

The city council has decided to submit to the people a by-law authorizing the expenditure of \$16,500 for motor apparatus for the fire department. When this question came before the fire and light committee some weeks ago the Whig opposed the suggestion, and gave a number of cogent reasons for the position it assumed. Ald. Chown has advanced no arguments to the contra. The committee merely wants to buy the motors irrespective of what conditions in this city may be. Despite the fact that Mayor, Nickle and a number of the aldermen are opposed to the expenditure, the question will go to the people, where it will likely be defeated five or six to one. With a city debt of over \$2,000,000 and a tax rate that next year will no doubt reach forty mills, surely this is no time to embark on such a costly and uncertain enterprise. We are all anxious to see the fire department placed on the most efficient basis, but few will agree that the expenditure—not merely of \$16,500 but a great deal more than before the re-organization by this method is complete—is a wise or necessary procedure. The people will be well advised to know this by-law under.

ST. MARK'S ANNUAL BAZAAR

Held in the Township Hall at Barriefield on Wednesday Afternoon.

In spite of the wintry weather on Wednesday, the annual bazaar held by the Women's Guild of St. Mark's Church in the Barriefield township hall, was a huge success. The hall was beautifully decorated with flags and presented a gay appearance to those coming in from the storm outside. Mrs. George Brooks, the president, and Miss Cooke received the guests, who had given their admission fee to the ladies at the door, Mrs. E. Murray, Mrs. J. Merchant and Miss Frances Cartwright.

Lady Macdonell and Mrs. Vokes poured tea at the pretty tea table, assisted by Mrs. John Baxter, Mrs. James Baxter, Mrs. Jack Sibbit, Mrs. Shepherd, Miss Cooke, Miss B. Merchant, Mrs. Collamer Folger and Miss Isabel Baxter, Mrs. W. Norman and some small girls sold dolls. Mrs. W. Knight was in charge of the ice cream booth. The well patronized fish pond was looked after by Miss Agnes Stanton and Miss R. Knapp. At the home-made table Mrs. J. J. Wilmot, Mrs. R. J. Moore, Mrs. J. Gillespie, Mrs. R. Gray, Mrs. Crossfield, Mrs. J. Milton and Miss Medley R. Sibbott sold the fine vegetable and fruit, always a feature of St. Mark's sales. The work table was presided over by Mrs. H. J. Dawson, assisted by Mrs. W. Milton, Miss Hul-ton and Miss Gwendolen Dawson, Mrs. W. Rutan, Mrs. H. Chambers and Miss Emma Paul sold the candy. A handsome comforter, an elderdown quilt and a fine Christmas cake were donated to the bazaar, which was a complete success from a financial standpoint as well as a pleasant social event.

Lecture in Cooke's Church.

Monday, at 8 p.m., Dr. Patterson's popular lecture in Cooke's Church on "Ireland, Past Present and Future." Silver collection.
