Clothes Should Beautify Body

of women to wear dresses exposing too much of their person, "largely because humanity realizes the need of beau-And here is the first purpose of the corset. The other butstanding purpose, that of attaining and retaining health. overshadows it in the minds of those who consider the wel-

The art of corsetry is threefold—to enhance the natural beauty of a woman, to subdue and veil her disharmonies, and finally to create by a blended whole the reality of beauty. When a corset does less than this, it has missed its purpose

and reason for existence.

And there is one thing more—the element of mystery that always has been and always will be one of woman's most alturing charms. "Toroughout the ages men's goddesses have been velled." So the mystery of our form must remain unanswered and our corsets must be self-effacing to a degree never dreamed of by the hour-glass' beauty who hasn't touched the floor in ten years.

Nobody should be conscious of your corset-not even yourself! No-not even if you are very stout. It can be done; and right here let me emphasize that I am talking to women with every figure problem, not a few favored. There is, nowever, a tendency to overlook the value of the individual solution of the problem of dress. I have seen a woman of all-toorample proportions wear a draped frock that made her seem too wide to enter the ordinary dearway with comfort. I have seen a woman of small features acquire positive insignificance with a too-large hat. I have seen a thoughtless mire ruin a pretty foot with a shoe whose vamp cut her instep in that unfortunate way that puffs the flesh so hideously.

I have seen all this, and a moment's reflection will remind you that you have seen it too. And why? Just a lack of the appreciation of true lines and proportions: just because these women were wearing a generally accepted style, regardless of its becomingness. Style, when accepted without a careful-regard for suitability, becomes a jade who macks and makes ridiculous be: Ex-Soldier Problems

### Gas, Indigestion, Stomach Misery -"Diapepsin"

"Pape's Diapepsin" "really does" put bad stomachs in order-"really does" overcome indigestion, dyspepsia, gas, hearthurn and sourness in five minutes — that — just that makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost mar-velous—and the joy is its harmlessness. A large sixty-cent case of Pape's Diapepsin is worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home-should ways be kept handy in case of a sick, scur, upset stomach during the day or at night. It's the most efficient antacid and stomach regulator in the

# Don't Neglect

Persistent coughs lead to chronic bronchitis, asthma and permanent chest weakness. Swallowing druggy mixtures into the stomach is useless in bronchial trouble. It needs Peps the breatheable remedy which goes direct to the root of your cough.

As Peps tablets dissolve in the mouth, they give off powerful medicinal fumes which soothe and heat the inflamed breathing tubes, and destroy all disease germs. Peps speedily end chest soreness, clear the bronchials of phlegm and mucus, stop the wheeziness and coughing, and make breathing easy.

Remember, it is far better to prevent pleurisy, pneumonia and other lung diseases arising from neglected coughs and colds, than to cure them. Therefore take Peps at the first sign of a cough, cold or chill 50c. box all druggists and stores, or post-paid from The Peps Co., Dupont St., Toronto.

### Absolute Evidence in Favor of Ground Cylinders

All high grade automobile engines manufactured in this country as well as in Europe have their cylinder bores finished by grinding. Some of the American cars that might be

mentioned are: Apperson Hudson Brewster Kissel Cadillac LaFayette Cunningham Dorris Locomobile Franklin Marmon Haynes Mercer

Peerless Pierce Arrow Rolls Royce Standard Stevens Duryea Templar Winton

GARAGES

Packard In fact, 84% of all the manufacturers of pleasure cars use engines with ground cylinder bores, and 91% of the commercial motors are ground. Heald Machines are used ex-

Automobile owners we have one of these Heald Cylinder Grinding Machines, and can guarantee first class work. Ground Cylinders is a selling point with many cars.
