**Montreal, Nov. 22.**—(To the Editor): I note in the issue of the Standard of yesterday a report of your meeting at Trudell's Hall, Bath Road, held last Saturday evening. At which meeting you are reported as saying that the farmers would be taxed upon their land not improved, or in other words broken land, upon their farms. That is not a fact. The fact is that the Progressive party intends to tax unimproved land, meaning land held for speculative purposes.  
There are 358 millions of land in the Dominion, 53 of which is improved land leaving 305 unimproved, upon which it is intended to place a land tax. I submit it is most unfair that speculators should get their land values increased at the expense of the farmer or homesteader. Speak facts, doctor. Do not mislead.  
Thanking you, Mr. Editor,  
I remain,  
Yours respectfully,

**Was a Great Success.**  
The annual thanksgiving supper, held in the basement of St. Mark's, Deseronto, on Nov. 16th, was a great success all round. The menu was good. Six long tables fairly groined with everything that could tempt the appetite of the most fastidious person. A large number of ladies, young girls and young boys waited on a record crowd of people who went away thoroughly satisfied. The programme after the supper was excellent, a credit to all taking part in it. The reciter, Rev. C. E. S. Radcliffe, B.C.L., tendered to the ladies of St. Mark's, assisted by the men of the congregation the best thanks and the highest praise of the large audience for the splendid supper and concert at the close of the evening.

Age may bring wisdom, but some men we know will have to outlive Methuselah if they ever make good.

Money, although a commodity, likes to work, and the harder it works the better it likes it.

**Physicians to the Motor Vehicle**  
THE SUCCESSFUL PHYSICIAN OR SURGEON IS A SKILLED AND HIGHLY TRAINED MECHANIC.  
Medicine cannot, of itself, cure disease, nor can surgery alone heal a wound, yet no sane person, unless his religious beliefs prohibit him, would willingly do without the services of a competent physician or surgeon when ill, or forego the benefit of their advice and experience if he expected to enjoy continuous good health.  
Automobile mechanics are the physicians and surgeons of motordom. Motor vehicles have no power of self-healing; therefore, while it might be advisable, under certain circumstances, to put off a surgical operation, it is never, under any condition, wise to postpone an automobile repair. What is wrong with a motor car must either be corrected or permitted to grow progressively worse until it involves all the other parts it is associated with, just as disease unchecked, spreads throughout the human body.  
If you are one of the majority of owners who neglect having repairs made to your car, this advertisement is written especially for you. It is an appeal to your good judgment, common sense and self-interest, not to delay or procrastinate. If your car needs repairs it needs them now.  
You will find our repair shop fully equipped to facilitate the handling of any job your car may require, and the skilled mechanics employed here are highly proficient in their particular vocation.
