LORD BEATTY ENROUTE TO CANADA FOR VISIT

The British Admiral is to See Montreal, Ottawa and Toronto.

Washington, Nov. 24.—Admiral Lord Beatty left Washington to-day for a brief visit to Canada. Detailed arrangements for his tour have not yet been completed, but it is known that three cities—Montreal, Ottawa and Toronto—will have the honor of playing host to the empire's great sea hero.

Admiral Beatty will spend Friday in New York, and, according to present plans, will leave Friday night for Montreal. He will address the Canadian Club of Montreal and Toronto, and will also speak before a public meeting in Ottawa. In Montreal he may also appear on the same platform with Sir Henry Lauder. His visit in all three cities will be brief, as it will be necessary for him to return to Washington early next week for his work here in connection with the armament conference.

YOUTH'S PRIVILEGE TO HOLD THE FUTURE

Prince of Wales Emphasized Value of Work Order and Discipline.

London, Nov. 24.—The Prince of Wales, who is at present visiting the city of Bombay in his tour in India, replying to an address from the Bombay University, according to Reuters' Bombay correspondent, said that in his journey's about the British empire it had been his especial desire to meet and mingle with the youths of each country. He wanted to understand what was passing in their minds and to know to what they were looking forward, he said, and he should like them also to have some insight into the ideals which he held in reverence. "It is important that we should know enough about one another," his royal highness said, "to be able to march together in sympathy toward our common goal, and that we should have a mutual understanding with regard to what we hold to be honorable and true." He emphasized the value of work, order and discipline. Friendly rivalry in games and combination for the success of each side were referred to by the prince as qualities upon the exercise of which rested the unity and strength of the empire.

The prince assured the university students that it is "the privilege of youth to be able to some extent to mold the future." Continuing, he said: "Let us make a beginning here and now, and see that as the years go on ardor of youth is preserved and sustained in the practice of these high qualities. Let us keep undimmed our love for learning, for hard work, for discipline and order and friendly co-operation. Let us have our bond of brotherhood in our common enthusiasm to serve our country and our king."

THOUSANDS PERISH BEHIND TURK LINES

Appalling Conditions Revealed by British Prisoner Recently Released.

London, Nov. 24.—Colonel Rawlinson, a British prisoner recently released by the Turkish Nationalists, who has arrived in London, gave a detailed account yesterday of some of the conditions prevailing behind the Turkish Nationalist lines, particularly as regards the treatment of prisoners, which he described as appalling.

Of the Armenian prisoners from Kars, numbering 5,000 soldiers and 4,000 civilians, employed in labor gangs near Erzerum, says Colonel Rawlinson, the majority perished from starvation and neglect, leaving only 750 men and 98 officers for repatriation to Armenia.

These, he adds, were replaced by gangs of Greeks from the coast district, 500 of whom he met on the Trebizond road on their way to join other Greeks already working in the Erzerum district.

BIG POISON BOOM

'Decisive Battle Day' Against Rats in Berlin.

Berlin, Nov. 24.—There was a big poison boom in Berlin yesterday with a run on drug stores unable to cope with demand and scores standing in queues for rat poison. Today is officially the "decisive battle day" against rats which have been increasingly plaguing Berlin since the revolution.

The bureaucratic paternal municipal authorities have issued an ordinance requiring all house holders under penalty of a fine, liberally to strew rat poison around the premises except where rat hunting animals are kept thereon. Thousands of enthusiastic Berliners have started the poison battle against the rats several days ahead with the result of great mortality among dogs and other household animals in apartment houses. A new ordinance has been necessary, requiring all householders to notify the janitor exactly when and where rat poison has been strewed and further requiring that all dogs be muzzled for three days, even indoors.

Won't Be Allowed to Grind the People

"The manufacturers of this country will be safe when the Liberal Government is formed. They will not be allowed to grind the people, but will be permitted to make a fair profit on their goods."

—(From J. M. Campbell's nomination address.)

THE SLOGAN IS "WORK, WAGES AND HOUSES"

J. R. Clynes Wants to Know the Liberals' Attitude on These Issues.

London, Nov. 24.—The Liberal Federation which meets at Newcastle today is not likely to arouse such interest as the Unionist conclave, at Liverpool, which has just concluded. The Westminster Gazette, the leading upholder of Independent Liberalism rather unciously remarks that the Federation will concentrate on the "simple and clear-cut resolutions in which Liberal faith is applied to the urgent questions of the day."

The Gazette declares, in an allusion to domestic party divisions that while the Unionists have been congratulating themselves on Liberal difficulties the boot is now on the other leg. The rejoinder of the Coalition press is that the Liberal party merely show hopeless absence of animation.

Something very similar came from J. R. Clynes, Parliamentary Labor leader, during the week-end regarding the classic Liberal watchwords, "peace, retrenchment and reform." These words no longer had meaning, said Mr. Clynes, "we must bring them down to: 'work, wages and houses.'" He wanted to know whether the Liberals on these issues had anything different to say from the Coalition.

Sir John Simon, who for the time being, is concentrating mostly on briefs rather than politics, was at Dublin criticising the Labor party, while Clynes, at Clonkeaton, was disparaging the Liberals. Sir John admitted that the rise of the Labor party was an enormously interesting fact, but he declared it unquestionably was time this party ceased to base itself so largely upon the special appeal to wage earners. He believes in the long run no political combination which appealed merely to class feeling would succeed.

LITTLE BOY STRANGLED

Met Death While Playing in Buggy At Elgin.

Elgin, Nov. 22.—Mr. and Mrs. E. J. Sullivan were called upon to mourn the death of their little son, Terry. The lad was playing with his little companion, J. Dunn, in a buggy in the yard, when his head was caught in the buggy bows and he was strangled to death before assistance arrived.

The funeral service for the late Mrs. Muchmore was conducted on Monday morning from her late residence. Deceased was one of our oldest residents. Her husband predeceased her a number of years ago.

Says the Welland Canal Wages Average Highest

St. Catharines, Nov. 24.—J. P. Porter of Porter Bros., contractors on the Welland Ship Canal, stated, in answer to criticism by labor men and others that the fair-wage clause attached to the contract is an advance over any other wage scale in effect at the time the contract was taken over, and, as a matter of information to the public, the average wage scale is \$5.10 a day or 51 cents an hour. "In so far as the firm has been able to ascertain, this is the highest wage scale in effect on any public work in Canada."

HEALTH IS A WOMAN'S GREAT-EST ASSET

Conscience enables people to feel sorry when they are found out.

Contrast the cheerful happy woman with head erect, the glow of health on her cheeks, the elastic step and bubbling enthusiasm as she goes about her daily tasks, with the woman who suffers from backache, headaches, dragging-down pains, nervousness and despondency. Such conditions are undoubtedly caused by woman's ailments which will yield to Lydia E. Pinkham's Vegetable Compound, which for many, many years has been restoring weak, ailing women to health and strength. Every woman who suffers in this way owes it to herself to at least give it a trial.
