To Those With Money to Invest

We Invite a Careful Reading of This Message

> W. C. Durant is the outstanding figure in the Automobile industry today. As President of the General Motors Corp. of the United States, he brought this enterprise, which manufactures the Cadillac, Buick, Chevrolet, Oldsmobile and Oakland cars, to its present state of perfection, and to being the biggest factor in the Automobile industry through-

In January, 1921, W. C. Durant formed the Durant Motors Inc., of the United States, and in 48 hours the entire capital stock of \$5,000,000 was over-subscribed, without public offering. This stock, issued at \$14 per share, has since eached a high of \$80 per share on the open market.

In 141 days after the Long Island plant was in operation they had signed orders with deposits on hand for over \$81,-000,000 worth of Durant cars, and the wholehearte operation of the worth-while dealers throughout the States.

As a business accomplishment, this is a feat unheard of, but justly illustrates the faith and confidence the investing public and Automobile trade everywhere have in W. C.

Mr. Durant is now planning to manufacture his cars in Canada. A plant for this purpose has been acquired at Leaside (a suburb of Toronto), and actual production will be under way by March 1st, 1922.

The capital stock of this company is \$3,000,000. There is only one class of stock-common, with a par value of \$10. These shares have a valuable conversion privilege into the parent company. Of this amount \$1,500,000 will be issued. Mr. Durant and his associates have evidenced their confidence in this proposition by purchasing for cash one-half this amount-\$750,000. Not one share of bonus or promotion stock has been or will be issued.

The balance we are offering to the public at \$10 per share.

When one considers the phenomenal success that has attended Mr. W. C. Durant's efforts, the tremendous domestic and export market for a moderately-priced car, and the support the investing public have given him, we feel justified in stating that we consider this offering an exceptional

Early subscriptions to this issue lead us to believe that it will be well over-subscribed. We therefore suggest action if you wish to participate in this offering at present prices.

Orders may be telephoned or telegraphed at our expense, or the application form below is a convenient method of ordering.
