CAMPBELL, J. M. X

ROSS, A. E.

Mr. Campbell supports the tariff policy of the Liberal leader, as outlined in Kingston, on Wednesday evening, when Mr. King said: "Do you know how much is to be raised in taxes this year?" he queried. "Just \$560,000,000, without paying off one cent on the public debt. What is the sense then of any person declaring for free trade? And I say on behalf of the Liberal party that I do not stand for free trade because we feel that to raise this revenue it must be done by other means than direct taxation.

"How can we raise it? Our policy as I say is not absolutely free trade, but we must revise our tariff so as to get revenue, not to protect little mergers and combines, but to protect Canadian industries and Canadian workmen.

"Do you think that in framing a tariff the Liberal party calculates to destroy our own industries? Our aim is the reverse. We seek to build them up and enter in again an area of prosperity. I say this to the manufacturer and workingmen, that as far as the Liberal party is concerned, no legitimate business reaping legitimate profits need fear the return to power of the Liberal party.

"LET ME BE FRANK AND CLEAR. THE LIBERAL PARTY IN CANADA TO-DAY, DOES NOT STAND FOR FREE TRADE. WE FEEL THAT THE TARIFF NEEDS REVISION. INDUSTRIES SHOULD HAVE SOME CONSIDERATION."
