WILL VOTE FOR LIBERALS

And Will Try and Save the Country From Conservative Despoliation.

The following very interesting letter has been sent by a Conservative voter to the Montreal Star:

After ten years in office, the present government is asking the electors to entrust it with a further term. The premier is endeavoring to confine the fight to the tariff and to attacks on his opponents, notwithstanding the fact that the Liberal leaders have again and again declared themselves to be in favor of the Laurier tariff, which is practically the same as the present tariff. He should not endeavor to shoulder the blame for the government's acts, since the war, on the opposition by saying: "They let it go through," as they were in a minority, and some of the most objectionable measures were put through by order-in-council.

No, the tariff is not the issue. The two principal questions for the people are on the railway and mercantile marine policies. The present government should have faced the railway situation boldly and allowed them the same assistance granted to their railways, as they had imposed upon our railways the McAdoo schedule and amendments. If our roads could not then carry on, they should have let them go into liquidation. This also has been the method followed in the United States. Instead of that, they took over the Canadian Northern Railway, arbitrated on the value of the common stock, after their own experts had pronounced it to be worthless; then had to pay ten millions for it, and the amount would have been more if the senate had not limited it to that sum.

After taking over the Canadian Northern it dawned upon them that they had got a railway in very poor physical condition, and with no suitable termination. Instead of making some working arrangements with the Grand Trunk for the use of their terminals, they decided to get hold of that system, with the idea of increasing the value of the Canadian Northern, not realizing that the Grand Trunk Railway is an International road, about seventy per cent of its traffic originating and terminating in the United States. As soon as the Americans know that the Canadian government has finally taken over this road, nearly all of this through traffic will be lost, as the United States government will put through an act with this object in view. Not only this, the Canadian government representative will be summoned to Washington from time to time, and told what he must do with regard to the American portions of the system. This may lead to serious international complications.

The mercantile marine policy of the government is one for which they are entirely responsible. When the war stopped government shipbuilding should have stopped, as in England; but here they kept on and on, the situation constantly getting worse and worse. Preliminary surveys have been made for a power and ship canal on the St. Lawrence; Canada's share of this will be a stupendous sum. This surely is no time to contemplate such a scheme.

After the enormous expenditures rendered necessary by the war, economy should have been their policy. Instead of that, it has been heavy expenditures and fresh burdens put upon an already overtaxed people. Government ownership means government interference. Where the commissioners are appointed by the government, and can at any time be deposed by the government they must necessarily be under government control, and if men on independence, they will resign; if not, they will become mere puppets of the party in power.

If our present rulers are allowed to continue in office, they will become so firmly entrenched, through the control of 40,000 miles of railways and other hitherto privately-owned enterprises, that it will be impossible to unseat them, no matter how unwise or extravagant their administration may be. The policy of this government is not only steering us on a disastrous course, but it is in direct opposition to Conservative principles. What we want in this country is the freest individualism possible—not collectivism—which is the policy carried out in Russia to-day to its fullest extent.

Although a lifelong Conservative, I feel it my duty to vote for the Liberal party.

AT FRONTENAC SCHOOL

Christmas Sale Held by Home and School Club.

One of the most successful of the Christmas sales was held Friday evening at Frontenac school under the auspices of the Home and School Club. The kindergarten room with its beautifully decorated booths in red and white looked very attractive to the eager crowd of buyers. Those in charge of the tables were—

Home cooking—Mrs. F. Hebert, Miss Pound, Mrs. Patterson, Mrs. Ellwood, candy, Mrs. G. Pollitt, Mrs. C. Murray, Miss Wilder, Miss Sigworth; fancy work, Mrs. Hurd, Miss K. Elliott, Miss H. Fanning; fish pond, Mrs. Adair, Mrs. Newton, Miss Dawson, Miss Baxter; ice cream, Mr. and Mrs. Tugwood.

In the tea room Mrs. Volume and Mrs. Shaver poured tea at the pretty table centred with narcissus. Mrs. Potts received the fee of ten cents at the door of the tea room and many were attracted there by the delightful music played by an orchestra the members of which were S. Salisbury, H. Salisbury, W. Allen and M. Donnelly.

HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach, and thus drive out constipation, colic, indigestion; break up colds and simple fevers, and make the baby healthy and happy. Concerning them, Mrs. Albert Hamel, Pierreville, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
