FOSTER'S FORECAST.
 Tells Kind of Weather We Are Going to Have.
 The week centering on December 7th is expected to average colder than usual on meridian 90. A cold wave will reach that longitude near December 4th and several days of cold weather is expected to follow along that line from far north to the Gulf of Mexico. This cold wave will follow the first severe storms of December. Near December 12th a great high temperature wave will be on meridian 90 from Gulf of Mexico to far north. Two or three days of severe storms will follow and as the temperature rises rains are expected, followed by snow in northern sections. These weather events will control the weather for the week centering on December 12th, on meridian 90. About two days earlier they will be in Alaska and western Canada; two days later than the meridian 90 dates they will be in latitude of Ohio and Ontario and three days later they will cover the eastern coasts of the continent. There are no accidents in weather events; they are all strictly controlled by positive natural laws and practically perfect forecasts may be made when we better understand these laws. I am progressing in finding their methods.
**Severe storms, cold waves, hot waves, heavy rains or snows do not progress with the up and down temperature movements. Severe storms and heavy rains or snows sometimes come before the high temperatures, sometimes with them and sometimes after them. The severe storms covered by the period of this bulletin were calculated to occur as the temperatures are going down on meridian 90 December 1st to 4th; as they are going up December 9th to 12th. As I have it, there are seven principal weather features and, to forecast them, each feature must be calculated by a different system. Orthodox weather forecasters, who are supposed to know everything about weather worth knowing, believe that a system that will forecast temperatures will forecast each of the other features. In that matter they clearly reveal their profound ignorance of the causes of the weather changes. I positively know that a system that makes fairly good temperature forecasts will not make equally good rainfall forecasts.
 Weather features, as I have them, are: 1—Frosts. 2—The 27-day period of temperature curves. 3—in a version of the temperature and magnetic curves and the hot wave and cold wave results. 4—Severe storms most precipitation and resulting cold**

Endorsed Kingston Council.
The Labor Representation Committee, Toronto, at their meeting on Thursday night endorsed, it is stated, the action of the Kingston District Council in repudiating the actions in the recent election of W. J. Hevey and Sergt.-Major McNamara.

Wheeled in a Barrow.
Joseph Case, Gananoque, paid an election bet by pushing Harry Keyworth in a wheelbarrow from the International Hotel to the Brophy House and back again. A condition of the wager was that the winner should attract public attention by ringing a bell, and many wondered on Thursday evening what it was all about. Harry bet the government would not be sustained.

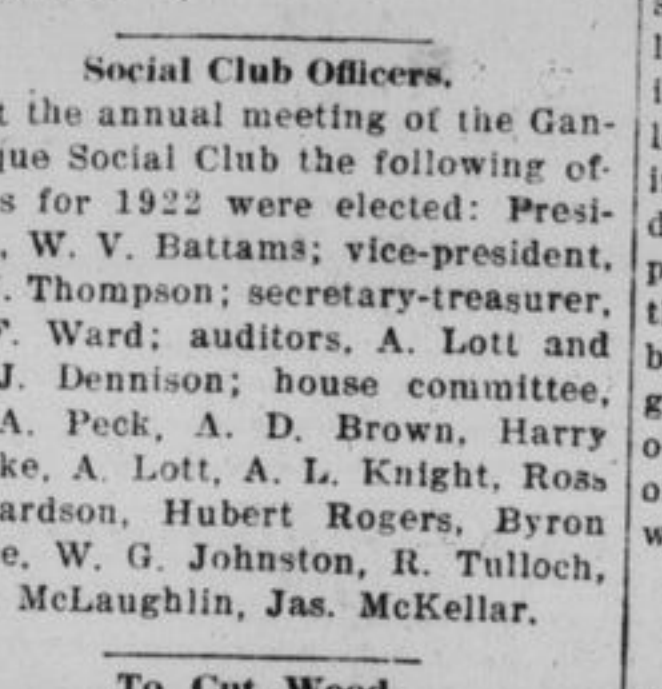

Mrs. S. S. Lake at Rest.
Early on Friday at the family residence, Gananoque, there passed to rest Mrs. S. S. Lake. Deceased was a daughter of the late Allen Sweet, Sweet's Corners, and resided at that place until a few years ago. About two years ago she was stricken with paralysis, and since then has been confined to the house. She was a Methodist and as long as able was an active worker in the church at Lyndhurst.

Children's Coughs Quickly Relieved
 It is hard for to keep the children from taking cold, they will run out of doors not properly wrapped, or have too much clothing on and get overheated and cool off too suddenly, they get their feet wet, kick off the clothes at night; the mother cannot watch them all the time so what is the going to do?
 Mothers should never neglect the children's coughs or colds, but on the first sign should procure a bottle of
DR. WOOD'S NORWAY PINE SYRUP
 It is pleasant and nice to take, and relieves the cough or cold in a very short time and thus prevents bronchitis, pneumonia, or perhaps consumption getting a foothold on their system.
 Mrs. E. Smith, 288 Victoria Ave., North Hamilton, Ont., writes:—"I have three children who have had very bad colds, due to change of climate. I have tried different remedies, but I seem to get the best results from Dr. Wood's Norway Pine Syrup. I have no difficulty in giving it to them as they like it. I always have at least one bottle in the house."
 Price, 35c. and 60c. a bottle at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

THE KIDNEYS
 The office man and the outdoor worker suffer alike from derangements of the kidneys.
 Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.
 In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.
 Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:
 "I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also used Dr. Chase's Ointment with the best results, and never fail to recommend these wonderful remedies."
