Plan of Co-operation.

The Provincial Advisory Committee on Unemployment considered the industrial situation and endorses the following statement of proposals:—

1.-That Manufacturers should be asked to take a price for goods on hand equal to the cost of replacement having regard to decreased cost of raw material and of labor used in manufacture.

2.-That Wholesalers should be asked to sell goods on hand at replacement prices. 3.-That Retailers should be asked to sell at replacement prices.

4.—Knowing that the costs of building at the present time have been considerably reduced, those desiring to build should be encouraged to ask for new tenders on their proposed work; and that building contractors and builders supply people should make a special effort to reduce important key industry.

5.-That Banks and financial institutions should be prepared to co-operate to the utmost with all productive enterprise by allowing all reasonable credits and by decreasing rates as rapidly as conditions may allow.

6.-That Farmers should be asked to maintain reasonable production, and in the event of a proportionate reduction being reached in other ines, should be prepared to make needed

7.-That Labor shall be asked to take willingly a reduction in wages proportionate to progressive decrease in cost of living, in so far as such a reduction has not already taken place.

The above statement has been submitted to and endorsed by the following interests manufacturers, wholesalers, retailers, building industries; decline from the abnormal tions of 1920 has already talplace.

The average cost of food perk per family increased in June, 1920, per cent. over that of 1913.

Up to October of this year, the entage of increase over 1913 was 56.

The average cost of clothing is ed 160 per cent. by June, 1920, and sien it has declined to 73 per cent. over of 1913.

You have taken a share in duction. You have absorbed certain loas many retailers have done.

In a general plan of co-operation in which earn of the community is asked to take part, will you sell pds at replacement prices, thereby enabling the retailers to re of your output? stimulated and a Production by the manufacturers will condition created whereby labor will egular employment.
