**THE IMPERIAL LIFE**  
Because 99% of the Imperial's \$600,000 holdings of Bonds and Debentures have been purchased since 1914, at exceptionally favorable prices due to a few conditions, the Company's interest income is greater by \$110,000 yearly than it would have been if these securities had been purchased before the outbreak of war.  
An Imperial Endowment will provide a regular income to keep you in comfort in your old age.

**McGinnis & O'Connor**  
HIGHWAY ENGINEERS AND CONTRACTORS

**Weber Pianos**

**INDUSTRIAL WEEKLY REVIEW KINGSTON**

**THINK NOW.**  
To Have Your Summer Clothes Put in Order.  
Some day next June you will go to your wardrobe to look for some warm weather togs and will find to your dismay that they are not in shape to wear and that you will have to shift with heavy ones for some time until they can be cleaned. Remember last summer? The last week in June was like an advance instalment of Hades and the good suffered with the wicked. Imagine wearing woollens in that weather. This year use your head. Dig up your linens, cottons and flannels, your yachting clothes, tennis clothes, palm beach suits, feather boas, and all your summer togetery and take it down to Patton's Dye Works on Princess Street, four doors below the Y.M.C.A. This establishment does cleaning and dyeing of all sorts and guarantees satisfaction.  
Then in June you will be all ready to appear in your "glad rags" as soon as the season starts.

**Olives.**  
People are sometimes born with a taste for liquors and wines, but the taste for olives usually must be acquired. Do you remember the consternation which threatened to spread over your face when you first bit into an olive? Compare it with the keen satisfaction with which you now demolish half a bottle of the same pickled delicacies. The taste must be acquired, but once acquired it is like that for drink, it increases all the time. The beauty of it is that the taste for olives, unlike the other, is beneficial. M. Amodeo & Co. sell olives in bulk. They come right from sunny Italy and you use them as you wish. No fishing down a narrow-necked bottle in order to fill a dish. You have a supply always on hand, and vegetables in season, macaroni, and pure olive oils, are also dealt in both wholesale and retail, by this Italian warehouse.

**"Go Feather Your Nest."**  
Here it is January seventh, less than four months until the first of May, the national moving day. You will want a house soon, perhaps. If it is a June wedding, all the more reason to furnish your house before and have everything ready. There will be enough to do after marriage without worrying about where to live first thing. See George A. Bateman and "feather your nest" in good time. Pick out a house in a good locality. There will be plenty to be vacated on May first, or, if possible, buy one and own your own home. It is not too early but is, in fact, getting late. Get busy now and pay a call to 159 Wellington Street.

**Made in Kingston.**  
That label should attract a great many people, and when the candies are the best obtainable and the prices right, then the people are sure to want them. These conditions prevail at Grimm's. Their confections hold an enviable reputation for excellence which has been established by long and efficient service to lovers of candy in this city. Their goods are made in this city and their establishment is a Kingston industry. When buying don't forget Grimm's—Made in Kingston.

Algeria has 550 miles of coast line.

**Garages Outnumber Houses.**  
A total of 81,193 one and two family houses were built in 1920 cities of the United States in 1920, while in the same cities garages to the number of 93,121 were erected. In the 1920 cities, which contain 32.7 per cent. of the country's population, \$1,294,490,764 was expended in building operations, \$40,522,240 of which was for construction of motion picture houses. The cost of building schools was \$50,023,140, a little more than half the cost of garages.
