B. is a grand blood medicine, and can recommend it highly."

**No Appetite**

Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.

The secret of complete restoration is in getting the nervous system fully built up.

Mrs. R. Cheney, 208 Richmond St., Chatham, Ont., writes:

"I was troubled with indigestion, which caused me many sleepless nights. I would be in terrible distress at times, and would get no relief for two or three hours. For sixteen months I ate nothing but Shredded Wheat biscuits, as I dare not eat anything else. I did not know what to do, as I had tried so many different remedies, as well as doctors' medicines, without gaining permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. I continued the treatment until I am now fully restored, and have returned to my regular diet. My husband has also taken Dr. Chase's Nerve Food with splendid results, so we are glad to recommend it to others."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

**TELLS DYSPEPTICS WHAT TO EAT**

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things:

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of peppin pills or artificial digestants.

Get a few ounces of Bisurated Magnesia from any reliable drug-gist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."
