## Yeast Best When Ironized

The reason IRONIZED YEAST brings such splendid results is simply this—IRONIZED YEAST stands forth among its host of imitators as the perfected vitamine tonic treatment. It is scientifically correct in every way, containing in highly concentrated form a specially cultured yeast which is grown under the strictest supervision for medicinal purposes—a yeast which is unequalled for its richness in the essential Water Soluble B vitamines. In addition it contains the correct amount of the two other vitamines—Fat Soluble A and Water Soluble C—which are equally important to health.

These three vitamines bring excellent results even if taken alone-but when through a special process they are ironized as in IRUNIZED YEAST, these results are secured often in just half the usual time!

WARNING!

Due to the marked superiority of IRON-IZED YEAST it is being widely imi-tated. IRONIZED YEAST is entirely different from ordinary combinations of yeast and iron-or yeast and iron taken separately. Certain types of yeast and iron have absolutely no value medially. IRONIZED YEAST, on the other hand, means not only specially cultured yeast and other vitamines, but the special process by which these vitamines are ironised. There is only one IRON-IZED YEAST. Insist upon it always-for nothing else can be like it.
