Year of Unexcelled Progress.

The thirty-third annual report of the Dominion Life Assurance Company, presented to the members of the company at its annual meeting held at the head office, Waterloo, Ontario, shows that the year 1921 was one of unexcelled progress. Surplus earned was \$308,869.35, and exceeds by far the amount earned in any other year in the company's history. Assets show an increase of \$967,759.84, and now stand at \$7,135,695.66. The rate of interest earned was 7.12 per cent. and the mortality experienced was exceedingly favorable, being only thirty-seven per cent. of the expected. Business issued and revived amounted to \$13,342,375, and the total amount of insurance in force at the end of the year was \$53,175,830. These facts and figures, as well as the extracts from the report appearing elsewhere in this issue, ought to be very gratifying to policyholders and all others interested in the welfare of this rapidly growing company.

Letters to the Editor

A Returned Soldier's Grievance.

Kingston, Feb. 9.—(To the Editor): I am a returned soldier with three years' service, about nine months of that in France. On my return home I married the widow of a deceased soldier with two children. Those two children, Marjorie and Harold Bilow, being government wards, are drawing a pension of \$27 per month between them. I went down to the employment office for work and help, and I was told that I was receiving a pension, which is an absolute lie as the pension was awarded by the government for the children's keep and is not mine. The above pension, they tell me, should be sufficient for the whole family. I too, have two children of my own by my present wife. If nine dollars had been deemed sufficient to keep two children, the government would not have given more. One of those children, the little boy, needs medical treatment and it requires every cent of that money to feed and clothe and give them the proper care they should have. If we were to take that money and use on ourselves, and the government heard of it, they would likely take the children away from us. I made no application for relief for them but for my wife and my own two children, which I think should be granted me as well as others. I might add that I cannot see why they should refuse me with the exception that I got a work card from Mr. Stroud for work but did not turn up because in the interval, from Saturday till Monday, I got work which I thought would last all winter, but unfortunately I was laid off.

Yours truly,
—C. LANGSFORD.
