The Black Panther's Cub. Florence Reed, Broadway's favorite actress who is now at the zenith of her dramatic powers, plays four different characters in the big W. Ziegfeld photodrama, "The Panther's Cub," which will be shown for the last time to night at the Grand Opera House. Based on Swinburne's immortal poem "Faustine," the story of "The Black Panter's Cub" is woven about the underworld life of Paris, with occasional flashes of quiet countryside life in England.

"The Black Panther's Cub" is story of unusual proportions with wealth of dramatic action, scores of colorful and varied scenes, a fast moving plot and a thread of romance that terminates in one of the strongest emotional scenes ever shown on

The intermediate basketball schedule in the Y.M.C.A. league is now in full swing and the winners of the championship, and incidentally the beautiful trophy up for competition, are being picked by their favorites. The games already played have created unbounded interest and the remaining four games of the schedule should draw out a good crowd of supporters. Two games were played on Tuesday evening, resulting in very keen contests. Regiopolis Beaten By Queen's Thirds

The first game of the last round of the local junior intercollegiate groups was played at the Jock Harty arent commencing at five o'clock on Tuesday evening. Queen's III putting it over Regiopolis 12 to 2. Quite a number of ardeut supporters from both sides were along the sides and kept up a fusilade of encouragement to their favorites on the ice.

Regiopolis scored first when a rebound was batted in past Quinn. Then the tri-color men extended a little and tied it up. Again the little fellows scored by sheer hard work. and once more their heavy opponent

tied things up. After Regiopolis had scored twice Queen's tightened the defensive play and loosened up on the offensive end oft the game and the score started to mount. McCarthy, in goal for Regiopolis, must have had an "off"

to his usual standard.

The ice was in poor condition for the game and combination play was very hard, both sides finding great difficulty with passes. The Queen's men towered over the little fellows from Regiopolis and, whenever the College boys got too ambitious, just eased a few odd pounds in their direction and squashed them. This usually stopped their rushes, but they hung on like terriers, chasing the puck right into Queen's nets and giving Quinn plenty to do in the line of clearance work.

A good many people are staying within kicking distance of tea or coffee, who have had a chance to know better.

They have learned that tea or coffee at night keeps them awake. They know it whips up the nerves. They know what medical opinion has so often said about the effect of the drug element in tea and coffee upon the nervous system-and how indigestion, headaches, high blood pressure and various ills so often follow the use of tea or coffee.

Knowing this, they fall to keep out of the way. Where does the blame belong, then, when the final break-down comes?
