DING DONG

The bell in the little cupola of the Gravelly schoolhouse was very proud of its place. It liked to look down on the neat cottages, the well-kept yards...

Then one morning, the bell, watching from his house just as the bell knew it was time it was being rung. The boy would never get there on time, and the bell hated to think he'd be kept in after school for being tardy.

CLAY MODELLING AT HOME

BOOK-ENDS

INCENSE BURNERS

BY OUR OBSERVER AT THE ART INSTITUTE OF CHICAGO

Book ends, with which a set of books may be held together on a shelf or table, have become very popular. With your modelling clay you can make a set of book ends in no more time than one evening.

suggested several in his picture. The clay book is easy to model.

The Hardest to Make
The figure of the old man reading his book is the hardest of the three suggested designs to make.

Pumpkin Face Requires Bright Color
The pumpkin face burner, which has a removable top and opening for the eyes and nose and mouth to allow the smoke to escape, gives opportunity for bright color.

If you get angry, count fifty before you start a fight, but if you start a fight don't stop counting until the other fellow is licked if you have to keep on to a million.

HINTS FOR THE MOTORIST

ALBERT L. CLOUGH

Atomizing Liquid Fuel In The Intake

ESPECIALLY AT LOW ENGINE SPEEDS, much of the gasoline supplied enters the cylinders as a liquid, traveling along the walls of the intake passages...

AS TO REBORING
H. A. B. asks: Is it practical to have the block of a 4-cylinder engine rebored and will a reboring job...

Answer: By making use of the best technical skill and proper methods, it is possible to true up the cylinder bores and make them mechanically as perfect as they were originally.

Automatic Switch Opens Prematurely
W. B. P. writes: The ignition switch on my car is one of those automatic action, if ignition is left switched on, with the engine stopped...

Switch Derangements
In "Shooting" Electrical Troubles Don't Forget The Switches
IMPERFECT CONNECTIONS are a more common cause of trouble in ignition, lighting and similar circuits than defects in the electrical apparatus.

THICKENED OIL MAKES CLUTCH DRAG
C. O. S. writes: Unless the engine of my Ford has been shut down but a very short time, I have to jack up the rear end in order to start it.

WHAT MAKES AN ENGINE STALL
M. R. asks: What makes an engine stall frequently, other than awkwardness on the part of the driver?

SOULDS THE BISHOP ON LAW ENFORCEMENT
Says Head of Church Council is Overlooking Violations
New York, March 7.—Instructions are directed against members of the Episcopal faith in New York and in particular, the Rt. Rev. Thomas F. Gallor, president of the National Council of the Episcopal Church...

Individuals who furnish the respectable backing for bootleg and other liquor criminals.
It is the fact that you are the head of the money-raising enterprise of the Episcopal church which hopes to get big contributions from these same men and women, the explanation of why you do not take as high ground on the question of practical law enforcement in good faith as has been occupied by the judges of the country?
