

NEWS AND VIEWS FOR WOMEN READERS

The Happiest Time of Her Life

Admiration, attention—groups of eager young men awaiting her appearance and more partners than she can dance with—this makes girlhood days the happiest time of a woman's life.

To miss this popularity is a tragedy. Yet many girls are socially unsuccessful because of some lack in charm.

What constitutes this charm is hard to define—but one thing is certain. The popular girl, the successful girl, the gay, happy, all-admired

girl, is always distinguished by a fresh, radiant skin.

How to have this perfect complexion is the problem of many girls, but we can solve it for you. It's a simple secret, discovered many thousand years ago.

What spoils complexions

Every day your skin accumulates a coating of dust, dirt and general soil. Every day you apply powder, and every day most women use a little or much cold cream.

This dirt, powder and cold cream penetrates the tiny skin pores and fills them. Perspiration completes the clogging. You can judge for yourself what happens if you fail to wash these accumulations away.

Once a day your skin needs careful, thorough cleansing to remove these clogging deposits. Otherwise you will soon be afflicted with coarseness, blackheads and blotches.

How soap beautifies

Mild, pure, soothing soap, such as Palmolive, is a simple yet certain beautifier. Its profuse, creamy lather penetrates the network of skin pores and dissolves all dangerous deposits. Gentle rinsing carries them away.

When your skin is thoroughly cleansed, it quickly responds with fresh, smooth radiance. The healthful stimulation results in natural becoming color. And the lotion-like qualities of the Palmolive lather keeps your complexion delightfully soft.

Now, when your skin is healthfully clean, is the time to apply cold cream. Now, powder and that touch of rouge are harmless. You can perfect your good complexion and beautify one not so good by the means of this simple cosmetic cleansing.

Cleopatra's way

With all classic peoples, bathing was a daily rite never neglected. The ruins of Cleopatra's sumptuous marble bath are ample proof of her faith in this ancient beauty secret.

Palm and olive oils were the cleansers used—the same bland oriental oils we blend scientifically in Palmolive. The lotion-like qualities which made them the most highly prized of all old world beautifiers are imparted to Palmolive Soap.

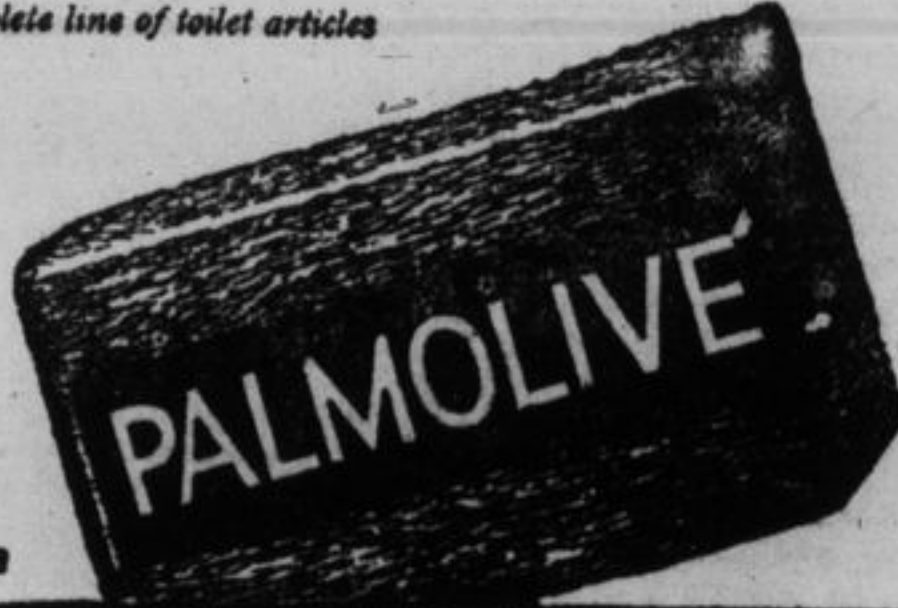

A low-cost luxury

The vast volume in which we produce Palmolive to supply the world-wide demand naturally lowers cost. If made in small quantities the price would be at least 25 cents. Manufacturing economy permits us to offer this finest facial soap at a low price.

Thus you can afford to share Cleopatra's favorite luxury. Use Palmolive for bathing and let it do for your body what it does for your face.

What the Editor Hears

That a lady wants to know why she has to pay a man to shovel her snow and her neighbors, who have several able-bodied men in their household leave it to the Sun and wind. Perhaps the answer is that the lady in question, who has always had the good of her fellow citizens at heart cares whether they go to work with wet feet and her neighbors don't. That is where the law should step in.

That many people think the old story of Jesus and His Love" told weekly from the pulpits of Kingston, preaches the gospel in a way preferable to the house to house distribution of the propaganda of obscure sects.

That nobody quite so biased and sophisticated as a flapper, who is just recovering from a baby-grand-passion.

That the big snow storm didn't frighten away the birds that have come to us. Early in the morning we can hear their sweet carillon, robins, blackbirds and the song sparrows lovely note, all joining in the chorus.

That a New York woman says: "Deliver us from the man with a new motor horn, the woman with a new phonograph, the boy with a new whistle, and the neurotic with a new complaint."

That the homespun displayed in the Kingston shop windows are most attractive and will be much used this season.

THE MARTELLO TOWER.

The Martello tower in Macdonald park which was unroofed in the fatal storm of last autumn has been repaired but with the roof green, which seems a great pity to many Kingston people. The old red roof showing among the green trees, was a touch of home to the sailors coming from the great lakes, and could be seen for some distance as the green roof cannot. Red, too, is a color used for military buildings and surely we who are so proud of living in one of the three oldest garrison cities in Canada, will want the travel-

HOW FAT ACTRESS WAS MADE SLIM

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat. One clever actress tells that she reduced steadily and easily by using this new form of the famous Marmola Prescription, and now by taking Marmola Tablets several times a year, keeps her weight just right. All good druggists sell Marmola Prescription Tablets at one dollar for a case, or if you prefer you can secure them direct from the Marmola Co., 4612 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective.

A REAL HAIR SAVER

If your hair is falling out, prematurely gray, brittle, lifeless and full of dandruff, quick action must be taken to save it.

Get away from any drug or toilet counter to-day, a bottle of Parisian Sage and use as directed—there's nothing else so simple, safe and effective.

"Before going to bed I rub a little Parisian Sage into my scalp," says a woman whose luxurious, soft and fluffy hair is greatly admired. "It keeps away all dandruff—my hair is never dry, faded or scraggly, but retains its natural color and beauty."

Parisian Sage is inexpensive, and money refunded if not satisfactory. McLeod's Drug Store sells lots of it.

Embarrassing Hairs Can be Quickly Removed

(Beauty Culture)

Hairs can be easily banished from the under-arms, neck and face by this quick, painless method: Mix into a stiff paste some of our hair-remover and water, spread on hairy surface and in 2 or 3 minutes rub off, wash the skin and it will be free from hair or blemish. Excepting in very stubborn growths, one application is sufficient. To avoid disappointment, buy the delatone in an original package and mix fresh.

dress can easily look slovenly unless it fits. Wrong shoes and stockings, a collar that is not fresh, morning gloves with an afternoon dress will not only take away from the individuality of the dress but will spoil the effect. While on gloves, most women do not take enough pains and interest in gloves.

To-morrow's HOROSCOPE

By Genevieve Kemble

WEDNESDAY, APRIL 5TH.

Conflicting forces dominate on this day according to the rule of the stars. While there is a way to encourage important change, removal or travel, yet there are offsetting testimonies pointing to heavy losses and generally unfortunate financial conditions. Jupiter being in most unfriendly attitude. There is the employment of others are also under an adverse position of the luminaries, and should be careful not to put their positions in jeopardy.

Those whose birthday it is have the forecast of a year of change, with possibly not altogether fortunate financial prospects. Those in the employment of others are urged to safeguard their positions. A child born on this day will be original, intuitive and adventurous, but may be extravagant unless carefully trained in early life, and may meet many difficulties.

Tell your troubles to the classified advertising department and they will soon cease to be troubles.

What Queen's Girls Are Doing

Everyone is hard at work on essays and many hours are spent in the college library by the studious ones.

Next Saturday the athletic exhibition will be given in the gymnasium and in the meantime the girls are hard at work practising all sorts of stunts.

Individuality in Dress. Fashion may, each season, have its variations. But no woman should forget that individuality counts above everything. The result is that a woman may wear what suits her best and feel sure that she is in the fashion. But she must not wear a fashion which does not suit her. Every clever woman knows by instinct the colors that blend with her tone of hair and eyes, and this is the most essential part of dressing. To be well dressed, one must be wearing the Bulgarian shades which run a riot. Then comes the study of the lines of her figure. It is true Paris says "slim girls wear slim clothes and broad brimmed hats" but let it be slim tail girls who wear the big hats. Evening dresses with their high necks covering many a wholly and boney neck, this apropos of line is a fashion might remain in fashion to many who are not the proud possessors of plump necks. Millinery should be difficult, a small hat looks well on almost any girl. A loose

Answered Letters.

Mary C. "Will you kindly print some good lunch or supper dishes? I can always think of what to have for breakfast or for dinner—but when it comes to lunch or Sunday night supper, I never know what to cook."

Answer: Send me a stamped and self-addressed envelope (not a tiny, or a long, narrow envelope) and I will send you a full page sheet of recipes I have just had printed up, entitled, "Seven Good Supper Dishes." These you will find suitable for both lunch and supper. I will send this to any Reader who writes for one, provided, of course, they send me a stamped, self-addressed envelope.

J. K. S. "Please tell me how to renew the appearance of my real leather hand bag. Also how to clean my silver-plated mesh bag without sending it to the factory to be polished."

Answer: Rub your leather hand-bag with neatfoot oil. Sometimes leather it is improved by sponging with warm soapy water and rubbing lightly with the white of an egg. The silver mesh bag may be cleaned by placing it in a bright aluminum pan with one tablespoon each of salt and baking soda to each quart of hot water used. After boiling the bag in this way for ten minutes, put the bag into another pan, off the range, filled with hot, soapy water to which a drop or two of ammonia has been added, rinse in clear water, and dry well. Silver cleaned by this method has a dull lustre, which to many women is more attractive than a high polish.

E. C. R. "Will you please print again the Baked Potato Cake recipe you published last Thanksgiving?"

Answer: Baked Potato Cake: Boil and mash 12 medium-size white potatoes. Put this mashed potato into two bread pans and make a hole in the centre of the mound in each pan; into these two holes stir the following ingredients, mixed: 2 eggs, 1 tablespoon of bread crumbs, 1-4 onion chopped finely, 1 tea-cup of butter, 1 teaspoon of salt and 1-8 teaspoon of black pepper. Use half this mixture for each pan of the mashed potato. Butter the top of each "loaf" and bake them 20 minutes in a hot oven. (The chopped onion should be simmered on the range in a little butter—not browned—until almost tender, before added to the above ingredients.)

Mrs. C. D. "Can you tell me how to clean fibre rug? The color is white and green and the white part is soiled."

Answer: Scrub the rug with salty water, using a small, soft bristled nail brush to do the work. If no salt were used in the water, the light parts of the rug would turn yellow. One cup of salt to a gallon of water is about the right combination to use.
