**A Briscoe Opportunity**

There are several Briscoe Cars in service in this vicinity that have travelled over thirty thousand (30,000) miles and still running well.

One car, an improved model 4-34, ran all last season at a cost of 2 1/2 c. per mile. Experts admit it has a truly wonderful motor. Owners are enthusiastic.

We can sell you a brand new model 4-34, five passenger Touring Car at the bargain price of \$995.00. All charges paid.

No other car on the market has made such a reduction in price.

**WILL EMPLOY 200 MEN**  
On the City's Streets During the Season of Construction.

It is the intention of the city engineer and the Board of Works department to give employment to about two hundred men during the construction season. It is estimated that about one hundred and fifty men will be required in the construction of the permanent pavements and the remainder will be required to do the general repair work about the city. Some men will be needed by the Board of Works department in the building of the concrete side walks.

This will be good news for the working men, who in many cases have had very little to do during the winter months. It had been expected that the work of paving Brock and Ontario streets would have been commenced on Monday morning, but the underground work, which is being done by the public utilities commission, is not far enough advanced for pavers to commence work. It is expected that work on Ontario street will require considerable time on account of the condition of the street. The side walk on the east side of the street is a great deal lower than the north side, which means that the engineering department will have to be very careful with the levels. The first work to be done will be to dig up the street railway track on the west side of Ontario street. The ground under the track will have to be dug down for a distance of twenty inches and then a cement base will be constructed upon which the new ties and steel will be placed. As soon as the track on the west side is put in place, the track work on the east side will be pushed along. The management of the street railway company is very anxious that both tracks be in place by June so that the traffic will not be interfered with during the busy summer months.

The civic utilities commission has completed the work on Brock street and the gang of men are pushing along the work on Ontario street. This work should be far enough advanced in a week's time to allow the paving work to commence.

The Board of Works department has a very extensive road paving programme, but the engineer is very anxious to get the Ontario and Brock street work done first.

It might be possible to commence the work on the Division street pavement in the very near future but the powers-that-be are afraid that the underground work which was done by the utilities commission has not settled well enough as yet.

The cedar ties, which will be used by the street railway company, have arrived and are piled on Brock street. They were bought from a dealer who resides near Yarker.

The road building machinery is being overhauled in preparation for the opening of the construction season.

**THE CAUSE OF BACKACHE**  
Many People Think it is Due to Kidney Trouble.

Every muscle in the body needs constantly a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment, and the result is a sensation of pain in those muscles. Some people think pain in the back means kidney trouble, but the best medical authorities agree that backache seldom has anything to do with the kidneys. Organic kidney disease may have progressed to a critical point without developing a pain in the back. This being the case, pain in the back should always lead the sufferer to look to the condition of his blood. It will be found in most cases that the use of Dr. Williams' Pink Pills to build up the blood will stop the sensation of pain in ill-nourished muscles of the back. How much better it is to try Dr. Williams' Pink Pills for the blood than to give away to alarm about your kidneys. If you suspect your kidneys, any doctor can make tests in ten minutes that will set your fears at rest, or tell you the worst. But in any event you should keep the blood in good condition and for this purpose Dr. Williams' Pink Pills are highly recommended.

You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Has Issued 1,700 Markers.

It was announced on Thursday morning that up until the present time the local issuer of Ontario Motor License markers had issued seventeen hundred. This is considered a very large number, as many owners of automobiles do not take their cars out of the garages until the first week in May. It is expected that between 2,500 and 3,000 licenses will be issued in the Kingston district this season.

**THE GIRL GUIDES**  
Are Preparing For Their Camp To Be Held In July.

The local committee of Collegiate Girl Guides was entertained at afternoon tea on Wednesday by the local Brownie Committee at St. James' parish hall. After the regular business was transacted, with Mrs. I. G. Bogart, the president, in the chair, plans for the Guide's summer-holiday-times were discussed. Those in charge of the prettily arranged tea table were Mrs. Booth, Mrs. Savory, Mrs. Guild, Mrs. Hambrook, Mrs. Rooney, Mrs. Linton and Miss Wilson.

The Guides camp will be held from July 11th to the 26th, inclusive, at Beau Rivage Island. The committee appointed to make plans for the camp is composed of Miss McCormick, Miss Patterson, Mrs. Sliiter, Mrs. Savary, Mrs. Otto, and Miss Henstridge.

**THE WRATH OF GOD,**  
Subject of Discourse by Rev. O. C. Elliott in First Baptist.

Those who believe that the statement, "God is Love," fully describes God, would have had an uncomfortable time trying to defend their view against the attack of Rev. O. C. Elliott, who spoke last night at the First Baptist church from Rom. I, 18, on "The Wrath of God, Revealed from Heaven." He drew attention to the fact that God's first manifestation of Himself to a soul is always in love, and that the sterner attributes are revealed, only when the soul repeatedly rejects the mercy and kindness of God. But when there is persistent rebellion and conscious deliberate wrong doing, the time comes when God asserts His right to reign, and His wrath is revealed against all ungodliness and unrighteousness. Turning to the scriptures the speaker referred to the expulsion from the garden, the flood, the overthrow of Pharaoh and his host in the Red Sea, the destruction of Sodom and Gomorrah, as particular instances of the revelation of the wrath of God. In closing, he urged his hearers to accept God's offer of salvation fully provided for through the gift of His Son, so that they might have the right to enter into the enjoyment of His love, and have no reason to fear "the wrath to come."

At the afternoon service Mr. Elliott gave the second of a series of deeply spiritual Bible studies on "The Believer's Union With Christ." He will conclude this series tomorrow at 3 p.m., with a talk on "The Believer's Union With Christ in Glory." At the final service tomorrow night his subject will be "The Last Day." To-night's subject will be, "Hardened Hearts."

**The New Prayer Book**  
for the Church of England in Canada in all bindings and combined with the Hymnal.

**STORE OPEN FRIDAY**  
An opportunity to make selections from the several bindings and styles of type and to avoid the rush of Easter Saturday.

**100,000 TONS OF COAL**  
Needed by Kingston—Local Dealers Seeking Supply From U.S. Surplus Stocks.

The coal dealers are preparing to seize the earliest opportunity to buy in their season's stocks of hard and soft coal. Discussing this subject on Wednesday, one prominent dealer stated that Canadian dealers would be fortunate to secure the normal quantity from surplus stocks available at the United States shipping points. It is impossible to estimate the duration of the present strike, but it is reported that there is a substantial surplus already mined and the dealers able to secure vessels early will be in the most favorable position. Many consumers have already placed their orders for next winter's requirements, preferring to do this to taking chances on any stringency that may result from the strike now in progress.

An estimate of the total requirements of Kingston is about 100,000 tons. Of this, 56,000 tons is hard coal, stove, chestnut, egg and pea size; and 44,000 tons of bituminous are required. This soft coal is used in boilers, furnaces, steamers and locomotives. There is ample on hand for the balance of the season, but Kingston will have to depend upon what comes in during the summer and autumn for next winter's needs, although when transportation is not congested it is possible to bring some by rail in winter provided it can be obtained at the mines. It is the possibility of coal shortage that faces the dealers now.

Service in Queen Street Church.  
The special services in Queen street church were continued on Wednesday evening, with a good attendance from the Methodist churches of the city. Rev. J. A. Waddell conducted the services, and the sermon was preached by Rev. R. H. Bell, Sydenham street church. The music was furnished by Sydenham street choir, with Miss Shaw and Ernest Madrand at the organ. Miss Olive Woodman sang "There's a Green Hill Far Away." The services will be concluded this evening.

Annual tag day, Saturday, for the Orphan's Home.
