THE LION CLOTHING HOUSE

How John Parvin's Mortgage Was Paid.

JOHN PARVIN was a farmer living near Port Hope, Ont. He bought a farm for \$6,000, of which amount he paid \$2,000 cash and signed a mortgage for the remaining \$4,000.

But the thought of this \$4,000 overhanging his home made him uneasy. He feared the loss of the farm to his wife in case of his death.

One day he went to Port Hope. Here he met a North American Life representative and confided to him his doubts and fears. He was advised to take out a policy for \$4,000 to cover his estate, which he did.

The second winter after this he was taking grain to town. The day was bitterly cold and he caught a chill. Pneumonia resulted. Inside of a week John Parvin had passed away.

His North American Life policy lifted the mortgage off that farm.

If you have any property mortgaged, John Parvin's experience should be an example. Any representative will give you free advice as to rates, etc. Act now.
