There Is No Immediate Prospect of Shortage Due to Strike.

Washington, May 2 .- The coal bureau of the Chamber of Commerce of the United States called attention yesterday to a general lack of demand for coal particularly in view of the strike. According to the bureau, the present rate of production and consumption shows that there is not a danger of any general coal shortage Miajor for at least six weeks. The situation on April 22nd was summed up as fol-

"On April 1st the stock of coal in the hands of railroads, industrial consumers and public utilities and retailers, was approximately 63,000. 000 net tons. Adding to this 4,250 000 tons estimated at the Upper Lakes docks and the unbilled coal on hand April 1st there was a total 68,650,000 net tons above ground

Stocks cannot drop below 20,000,panic. The quantity of coal which apparently can be drawn from stocks before a serious situation developes is 48,650,000 tons.

"To this supply there will be continuously added the output from the non-union fields, which up to date has averaged about 3,500,000 tons per week. At the present time the average weekly consumption is estimated to be 8,100,000 tons. Therefore, the supply is falling short meeting the consumption by 4,600,-000 tons per week. To cover this deficit we have 18,650,000 tons in storage. If the consumer continues to draw from this shortage at the rate of 4,000,000 tons per week, unless there is an increase in production from the non-union fields, a shortage will be felt in approximately seven weeks from April 22nd."

Timber Probe Keport to Come Soon.

Lewis Not Worrying About Counsel in Huston Enquiry.

Toronto, May 2 .- In the legisla. ture yesterday afternoon, G. Howard Ferguson, the Conservative leader, again raised the question as to when the report of timber commission would be available. There seems to be a general feeling in the air, he said, that it was not the intention to have the report brought down be-000 tons without danger of a coal fore the session was closed. It was His Lordship Urges the Dub- from Hong Kong, French Indo-Chin now four months since the taking of evidence was completed. The report should be expedited.

Attorney-General Raney said there was no justification for the sugges tion that it was not intended to bring down the report until after the close of this session. There was no such intention on the part of th government. The government desires the report to be brought down at the earliest possible date and fur ther , there was not intention or the part of the commissioners to have the report delayed.

Not Worrying. Mayor Alex. C. Lewis, M.P.P. Northeast Toronto, stated yester-

day that he was not worrying in the slightest about the attorney-general's decision not to pay counsel for the defense in the Huston inquiry. Mr. Lewis added that it had never been his intention to have a legal adviser to represent himself at the probe and that accordingly he was not affected by this development. He felt, however, that the government most certainly should not only allow the family of the deceased to be revresented at the investigation, but that it also should shoulder any expenses thus incurred. Beyond stating his attitude towards the whole ques-Hamilton, May, 2 .- The appeal of tion had not changed in any way Herbert T.
