### REV. FATHER NICHOLSON ADDRESSES KIWANIANS

On His Trip to United States as an International Speaker.

One of the most brilliant addresses given before the Kingston Kiwanis Club was that of Kiwanian Rev. J. F. Nicholson, M.C., principal of Regiopolis College, at the regular weekly luncheon in the Hotel Frontenac on Monday. Rich in eloquence and sparkling with wit, but conveying a strong note of patriotism, the speaker told of the manner in which the American Kiwanis Clubs honored "Canada Day" in honor of the 104th anniversary of the signing of the Rush-Bagot treaty. He represented the Kingston Kiwanis Club and in the course of one week conveyed Canada's greetings to many clubs in the state of Ohio and was everywhere received with great courtesy.

Noble Steacy, president, occupied the chair. The following guests were announced: W. C. Wilson, Major Forbes, T. Flett, O. Lundell, Harry Newman introduced two new members, H. W. Richardson and Arthur Minnes and in doing so told the club of the "great achievements of their fathers and grandfathers whose fame is well known throughout the great city of Kingston.

Eddie Walsh introduced the booster, Sherman Hill, who donated a very fine prize in a steel fishing rod won by J. D. Boyd.

Garnet Lockett, as song leader, proved a great success and the Toronto table will soon have all the singers if Garnet holds his job, for he is taking note of the voices and is training the delegation on his song "Kingston."

President Noble Steacy announced that there would be an annual arms in Queen's Arm on May 24th, put on by the R.M.C. cadets. Chuck Moody's removal to Port Arthur was deeply regretted, as he was a very earnest member of the club.

The following were appointed to the Mowat Hospital committee: Bert Winnett; chairman, W. Macneil, Stewart Crawford, Columbus Hanley, Stewart Robertson.

Father Nicholson's Address.

In opening his address, Kiwanian Nicholson said that one of the outstanding features of his experience in the United States as international speaker during Canada week, was the great eagerness shown by the Americans for information about Canada. He was very warmly received by every club visited. Leaving Kingston by the trail of LaSalle he came to the valley of the Ohio and there beheld the dream of the great voyager come true. It must be remembered, said he, that in the Quebec Act of 1774 this region was within the boundary of Canada. Speaking on behalf of the Canadian Kiwanis Club, he congratulated the International Kiwanians upon the example afforded by Canada and the United States. Nowhere else on earth, he declared, was there to be found an international boundary of some 3,000 miles unfortified and unguarded. He was glad to have the opportunity to speak on behalf of Canada whose boundless extent he described and pointed out the points of common interest such as race, language, customs, literature, religion, and laws, as well as the golden link formed by the common sacrifice made during the great war in the cause of democracy. He was glad to be in a position to pay tributes to the achievements of American troops on the fields of Flanders and France. We thank God for our hero-dead and we will always hope that God will raise up men in Canada and the United States in a common cause who will be prepared to repeat their glorious deeds. The cry is always for men, strong men, virtuous men, and we know that Kiwanis can fill the demands.

There was a general ignorance of Canada, and great enthusiasm and a desire to know more about the country and the people, was a result of the celebration. Parties are being made up to visit Toronto at the June convention, and the mailing lists of many steamers are already filled for that time.

Kiwanian Nicholson was repeatedly applauded during his address, and a hearty vote of thanks was tendered to him when he concluded.

### STUDY TOUR FOR BOYS

About the best thing a father can do for his boys is to encourage them to travel and see something of the world, before they become too keenly engrossed in commercial life. Travel is a great educator—it enriches the mind and fits the youth to better fill his place in life. A normal boy is observant—he assimilates and retains knowledge. Travel gives him his opportunity—it fits him for every phase in life.

A tour of Europe is at present being organized under the personal supervision of T. H. Matthews, M.A. (Oxon), Assistant Professor of Mathematics, McGill University, and late instructor-lieutenant, Royal Navy. In addition local guides will be secured to conduct excursions and give lectures on the artistic, historic, literary and economic significance of the sights seen and the places visited.

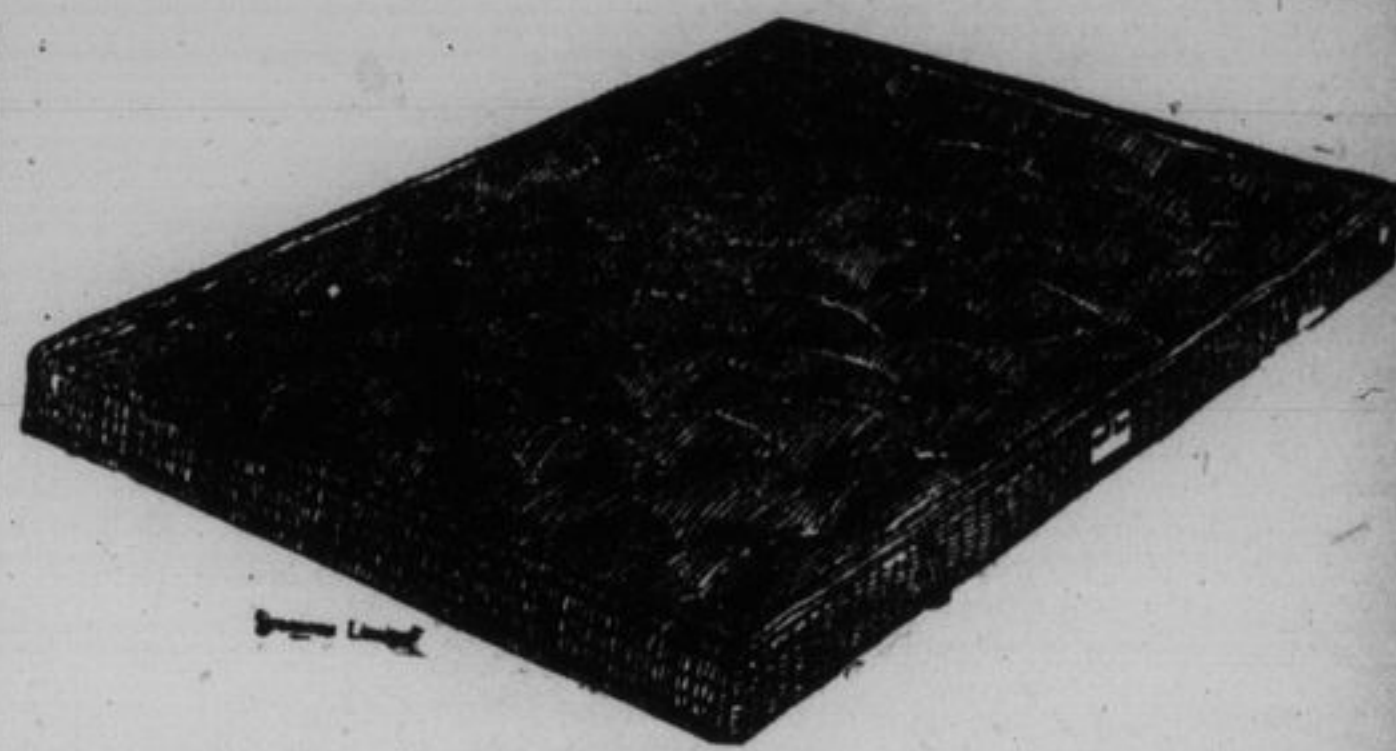

A most carefully planned and interesting itinerary has been arranged including visits to Montreal, Liverpool, Chester, Stratford-on-Avon, Oxford, London, Paris, Versailles, Fontainebleau, Rheims, Lyons, Marseilles, Cannes, Nice, Monaco, Mentone, Genoa, Pisa, Rome, Naples, Sorrento, Capri, Pompeii, Vesuvius, Florence, Venice, Trent, Innsbruck, Munich, the Passion Play at Oberammergau, Nuremberg, Mayence, the Rhine, Cologne, Brussels, Louvain and Ostend, returning through London and Liverpool.

This exceptional tour starts from Montreal on Saturday, June 24th, calling at Quebec, by the splendid White Star line steamship "Canopic" (12,100 tons). A period of approximately two months will be occupied by the tour as by the itinerary the return trip is made from Liverpool by the fine steamship "Regina" (14,500 tons) arriving at Montreal on August 26th.

The arrangements for this tour are most complete and the charge which is a minimum one, covers everything in the way of transportation, hotel accommodation with three meals a day, transfers, sight-seeing fees, in brief all necessary travelling expenses for the entire tour.
