## ON CHRISTIAN SCIENCE

Lecturer Says It Is the Science  
of Spiritual Under-  
standing.

A lecture was given in the First  
Church of Christ, Scientist, on  
Thursday evening by Ezra W. Palmer,  
C.S.B., Denver, Colorado, mem-  
ber of the Board of Lectureship of  
the Mother Church, the First Church  
of Christ, Scientist, in Boston, Mas-  
sachusetts. It was entitled "Christian  
Science the Science of Spiritual Under-  
standing."

The lecturer was introduced by A.  
Victor Gilbert, first reader of the  
local Christian Science church, who  
said in part:

"Christian Science, as revealed to  
this age through Mary Baker Eddy,  
offers to any sincere truth seeker  
health and happiness by giving him  
some understanding of his true re-  
lationship to the Supreme Being. In  
this, it positively fulfills the promises  
of joy and peace which the Bible  
holds out to those willing to live in  
accordance with the law of God, and  
we all know that we must have  
health in order to have joy and  
peace. In Isaiah we read, 'The work  
of righteousness shall be peace; and  
the effect of righteousness, quietness  
and assurance for ever.' (Isaiah 32:  
17) but even on a bright day of sun-  
shine a person must keep his eyes  
open in order to know that there is  
light, and similarly, Christian Sci-  
ence shows us that we reap the bene-  
fits of the ever-presence of God who  
is Infinite Love and has all power,  
when we recognize humbly and un-  
derstandingly that He is the Su-  
preme Ruler over all."

Mr. Palmer spoke in part as fol-  
lows:

People agree that God is Spirit  
and that Spirit is omnipotent, omni-  
scient and omnipresent. They agree  
on these three great fundamentals be-  
cause they are taught in the Bible,  
and because on no other basis can  
we conceive of a Supreme Being. We  
cannot divide God's power and still  
have Him supreme, and if His power  
is divided, to whom will we as-  
sign the power taken away from  
God? If we assign it to another  
agency called evil, we divide the uni-  
verse: the one God, the great I am  
would no longer be supreme, and  
there would be two powers arrayed  
against each other, the powers of  
good and evil with the result—a uni-  
verse of conflicting forces, of chaos  
and disorder. Christian Science ac-  
cepts and teaches these three great  
verities of Spirit, omnipotence, omni-  
science, omniscience, not theoretical-  
ly nor abstractly, but as living real-  
ities, and it teaches that in the un-  
derstanding of these fundamentals  
lies the solution of all human prob-  
lems. Thus if a Christian Scientist  
faces sickness, he relies on the omni-  
potence of God to heal it; if he faces  
a condition where ignorance pre-  
vails, he turns to God and relies on  
the omniscience—the infinite all-  
knowledge of God—to supply him  
the wisdom and light to meet the  
situation. If evil seems to hold sway  
he knows that God is omnipresent,  
universal good, and that the divine  
presence is at hand to destroy evil.  
On the other hand, the adherents  
of current religious teachings do  
not as a rule rely wholly upon the  
all-power, all-presence and all-  
knowledge of God. If sick, they will  
usually rely upon drugs or other  
material means and turn to God only  
as a last resort when hope of relief  
from other sources has utterly van-  
ished. And so, likewise, the materi-  
ally minded are prone to rely on  
human means for help when disaster  
appears instead of turning unreser-  
vantly to God. They rely on others,  
trust to human will and human in-  
genuity to aid them, although ex-  
perience has proved time and again  
that these material agencies afford  
no sure and genuine relief.

The teachings of the Bible are  
perfectly clear on this point. Over  
and over again, the Scriptures call  
men to rely wholly on God for every  
need. "Put not your trust in  
princes;" "Woe to them that go  
down to Egypt for help;" "seek ye  
first the kingdom of God and His  
righteousness" are some of the ad-  
monitions of the Bible. The great  
difficulty mortals have experienced  
in the past is that they have not  
seen clearly the difference between  
relying on Spirit and on human  
agencies. The adherents of scholas-  
tic theology and the materially  
minded have failed to grasp the real  
meaning of the First Commandment,  
"Thou shalt have no other gods be-  
fore me." They have not made a  
clear distinction between matter and  
spirit. Christian Science draws a  
clear and unmistakable line of demar-  
cation between the eternal  
things of spirit and the false evi-  
dences of the physical senses. "God is  
Spirit," as Jesus declared, and man  
and the universe are mental and  
spiritual. But the five corporeal  
senses do not see spiritual things; to  
them, Spirit and spiritual things do  
not exist; they cognize the oppo-  
site of spirituality, the false beliefs of  
a matter world and matter creation.  
Seeing only material things, the ob-  
jectification of his own corporeal  
senses the materially minded man  
relies on these instead of turning his  
gaze spiritward and depending whol-  
ly on God. A man has made a great  
discovery when he learns to rely on  
spiritual sense instead of physical.  
Through spiritual sense man learns  
that he is immortal and perfect.  
Spiritual sense gives man a correct  
view of the universe and of God. The  
physical senses give him a distorted  
view of all things. They tell him  
that man is mortal, physical, subject  
to sin, disease and death. This view  
is temporary and must yield to the  
eternal fact that God, man and the  
real universe are imperishable.

Select your wife with your ears  
rather than with your eyes.

## REX COMPANY AT GRAND

Producing "The House of a  
Thousand Candles," For  
Week-end.

"The House of a Thousand Can-  
dles," which the Rex Stock Com-  
pany is presenting at the Grand Op-  
era House for the week-end, is a  
production which keeps the audi-  
ence guessing from start to finish.  
It is a play full of mystery, and the  
audience gets many a thrill as the  
plot unfolds.

It is impossible to describe "The  
House of a Thousand Candles" with-  
out spoiling it for those who have  
not seen it. However, the Rex Play-  
ers are all included, and fill their  
parts to perfection. Our friend "Rex"  
fills the role of "Bates, the Butler,"  
and takes the part as only he can.  
Zana Vaughn as "Marian Devereaux"  
the girl in the question, is splendid  
as usual. Florence Winters, "Mrs.  
Glenarm," the whimsical owner of  
Glenarm Mansion, filled her part  
well.

The Park Kiddies put on a spec-  
tacular between acts which was warmly  
applauded.

Mr. Snelgrove announced that on  
Saturday, May 13th, his company  
will play for the last time this sea-  
son. He stated that since coming to  
Kingston nine months ago, the com-  
pany has established a record which  
would be creditable to any of the  
larger cities. "Rex" stated that all  
the members of the company have  
made many friends while in the  
city, and while they are absent their  
thoughts will many times return to  
the Grand Opera House, and their  
many patrons and friends.

His remarks were met with loud  
applause when he announced that  
the Rex Stock Company will return  
next fall. This is indeed good news,  
as hundreds of people have been in  
the habit of going to see the Rex  
Players every week since they have  
established in Kingston. Many have  
been wondering for weeks whether  
"Rex" and his company would be  
back again for the next season and  
will be more than delighted to hear  
that they are returning after the  
summer.

"The House of a Thousand Can-  
dles" will be presented again Fri-  
day evening and Saturday afternoon  
and evening.

## REGRET AT OTTAWA

Over the Sudden Death of ex-Mayor  
Abraham Shaw.

Referring to the death of ex-Mayor  
Abraham Shaw, the Ottawa Citizen  
says:

"William Clark, preceptor of the  
Ottawa preceptory, and other officers  
of the order from this city attended  
the gathering in Brockville Wednes-  
day night. Some of them accom-  
panied the late Abraham Shaw to the  
station and witnessed his sudden  
death. Mr. Shaw still wore his re-  
galia, but a friend was carrying his  
sword. At the station the friend  
was just returning the sword to its  
owner when the latter collapsed. The  
Ottawa knights and all who had as-  
sembled for the celebration of the  
fiftieth anniversary of Gonde-  
mar Preceptory in Brockville, were  
deeply grieved at the sad termination  
of the evening.

"Robert Shaw, of the department  
of customs, Ottawa, is a son of the  
deceased."

## His Death Regretted.

The Brockville Recorder-Times of  
Thursday has the following:  
The field day held here yesterday  
afternoon and evening under the  
auspices of Gonde-  
mar Preceptory,  
No. 16, Knights Templars, was a  
splendid success, over 60 visitors  
being here from Ottawa, Kingston,  
Quebec, Belleville and Picton, the  
visitors including Most Eminent Sir  
Knight Abraham Shaw, Kingston,  
Past Grand Master, whose sudden  
death at the Union Depot last night  
when he was about to return to his  
home has occasioned deep regret  
among his many acquaintances here.

## The Physique Type System of Tailoring: it means perfect proportion for every figure

The right sort of Clothes must come  
from the Designer and Cutter: the  
high-priced man in any good tailor  
shop was the Mutter; he could strut.

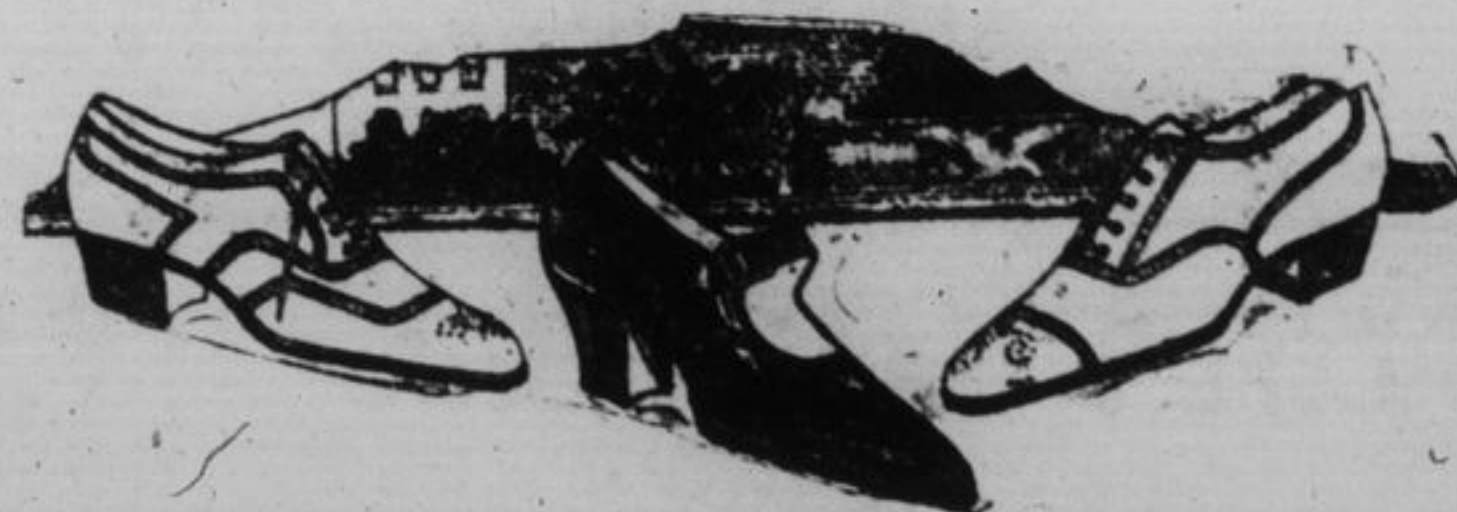

Scientific designing, based on seven  
distinct types of humanity, has re-  
duced the cutting to a mechanical cer-  
tainty.

It's the Designer—the man who can  
draw artistic pictures with paper pat-  
terns—who earns a large salary.

Let us show you how perfect is the harmony of design  
in each and every type of the Semi-ready Tailored Suit.

## Letters to the Editor

### Gives Warning.

Kingston, May 5.—(To the Edi-  
tor): As the ice cream season is  
just beginning, I am taking the li-  
berty of using your valuable paper to  
warn the vendors of ice cream, who  
sell same in bulk, such as half-pints,  
pints and quarts, and use paper pails  
or cartons for measuring same.

Vendors who use these paper pails  
or cartons as the basis of measuring  
their ice cream, should be sure that  
they contain the quantity they are  
represented to do, otherwise he or  
she will be liable, under the Weights  
and Measures Short Weight Act, to  
prosecution for giving short mea-  
sure.

The same will apply to the sale of  
any other article sold in paper pails  
or cartons.

I am giving this warning so that  
the merchants handling sales in this  
paper may be advised of the conse-  
quences should the containers used  
by them be found to be short mea-  
sures.

### F. F. HART.

Inspector of Weights and Measures,  
Kingston.

### ENTIRE FAMILY ARRESTED.

Claimed They Resisted Officer in  
Making Arrest.

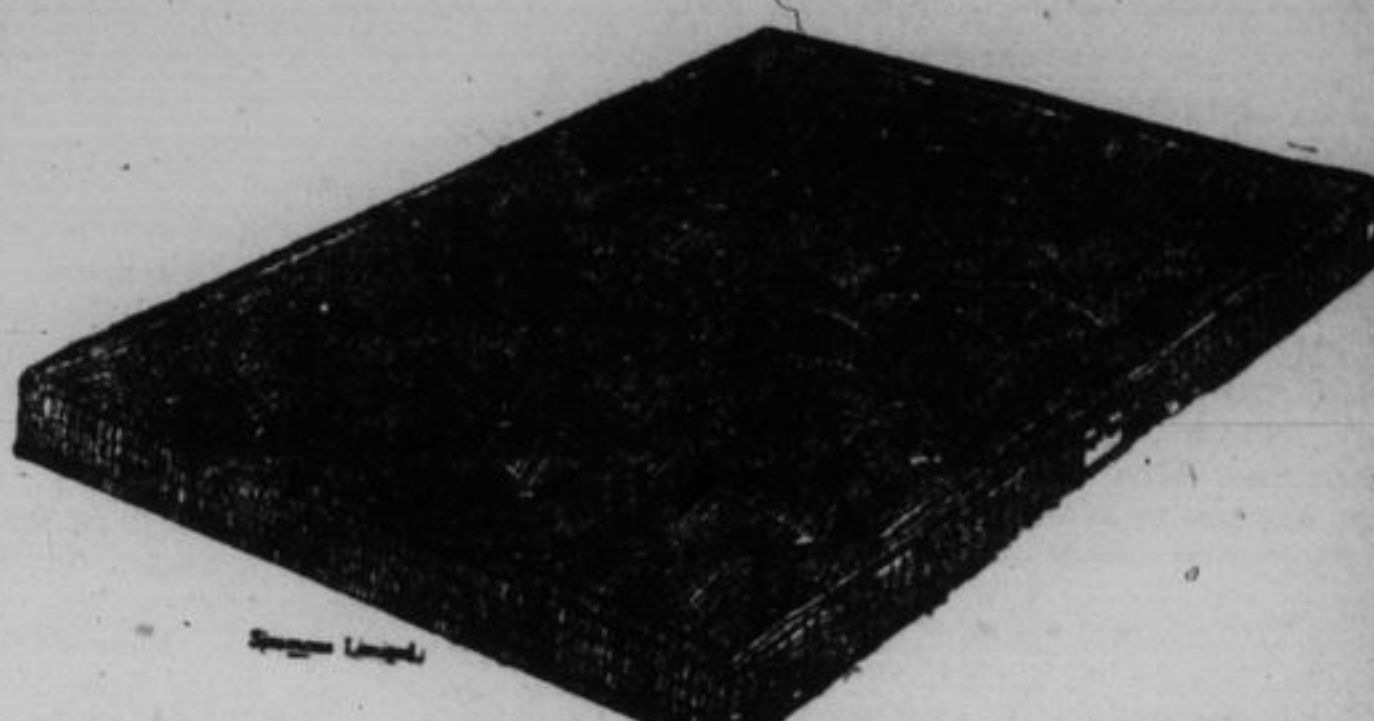

David S. Brant, his wife, Eliza-  
beth, son Burton and his three  
daughters, who are alleged to have  
resisted an officer of the provincial  
police in an effort to arrest D. S.  
Brant, were arrested late yesterday  
near Deseronto on the Indian Re-  
serve, to which the family belongs.

Magistrate Bedford allowed the  
three daughters to go on their own  
recognizance until next Tuesday, but  
the father, mother and son are on  
the hill at Belleville until next week  
when they will be taken back to Des-  
eronto to stand trial before Magis-  
trate Bedford on the charge of re-  
sisting.

It is said that Brant and the fam-  
ily resented the appearance of Pro-  
vincial Constable Fred Hughes and  
Chief Bowen, of Deseronto, when  
they sought to execute a warrant for  
commitment in the case of the failure  
of Brant to pay a fine.

### Unveiled a Tablet.

The ceremony of unveiling a me-  
morial tablet in the Ancient St.  
John's Lodge No. 3, A.F. & A.M.,  
was held in the lodge rooms on  
Thursday evening. The following  
names of members who served in the  
war and who were killed or died, are  
on the tablet: Lieut.-Col. Hugh  
Ramsay Duff, Major J. McDonald  
Mowat, Capt. Roswell McTavish and  
Lieut. William Hazlett.
