The Toughest Tests that any tire ever stood

are the tests that DOMINION TIRES have to stand, right here in Canada.

From the peaks of the Rockies to sea levels on the Atlantic coast—when spring thaws make the roads hub-deep in mud—on blistering asphalt when July days register 100 in the shade—on the icy roads of January with the thermometer on the toboggan—DOMINION TIRES are right up against real Canadian conditions.

They are made for Canada, by Canadians, who know Canadian conditions.

They have been tried out on every size and make of car, from the every-day business car to the big stately limousines.

DOMINION TIRES give such mileage and service that, nowadays, when motorists talk tires, the natural question is, "How do they measure up to DOMINION TIRES—the tires by which all tires are judged."
