Debt

Debt, grinding debt, whose iron face the widow and the orphan fear and hate; debt, which consumes so much time, which so cripples and disheartens, is a teacher whose lessons cannot be forgotten.

It is incumbent on all right-thinking people to do more than avoid debt. It is necessary to accumulate a competence for one's dependent years. If, with a definite earning power you find it hard to live within your income, how could your wife support the home in the event of your death deprived of your earning power? "Your salary stops with your pulse."

A Manufacturers Life policy provides for all these contingencies. Systematic saving will keep you out of debt, and build a competence for the sunset of life. Should you not live to old age, your life insurance will create an estate for your dependents.

Write, giving us your age at nearest birthday, and we will submit a proposition to you which will not place you under any obligation.
