**WOMAN IS ONLY WOMAN BUT GOOD CIGAR IS SMOKE**  
 That was probably the saying of some old cynic who had been put in the proper place by some woman and whose pride had suffered somewhat in the process, or it might also have been the joking remark of some ardent smoker while enjoying a clear Havana.  
 As for that, a woman is only a woman after all, but that title should be complimentary enough. The name of woman needs no praise or defense. It is self-sufficient.  
 But when one speaks of cigars it is a different matter. There are cigars—and then cigars; stogies—and then cheroots, but a good cigar certainly is hard to beat as a smoke.  
 We do not all carry around a battery of Havanas in our pockets because the usual Havana gets to be rather an expensive luxury when used freely. And yet we have too fine a taste to use the common variety of "ropes" or "cabbage leaf."  
 The solution is a simple one and

**MAXOTIRES NOT RE-LINERS**

Maxotires are complete inside tires. They are built of far better material than re-liners, and are covered with a tough tread like a tire. They are endless and cannot creep or wrinkle.  
 Maxotires are made extra wide and are wrapped around the inner tube. One side is anchored down with an endless steel hoop and so arranged that the Maxotire locks tighter and tighter as the air pressure increases. It, therefore, does not depend on the tire for support like a re-liner.  
 As Maxotires carry the strain within themselves and do not bulge like re-liners or blowout patches the tires never get any weaker after being Maxotired. Hundreds of thousands of weak tires have been run and run until worn entirely through in several places to the Maxotire. The Maxotires were then transferred to other tires and are still giving service.  
 What Maxotires have done for others they will surely do for you. Look for the Maxotire sign when in Kingston.

Particularly during the past few years of financial and employment stress has this factory done its part in the long, hard pull of reconstruction. The management of the factory has devoted great time and patience to the problem of giving the maximum amount of employment for the amount of work to be done, and many Kingston workers have benefited as the result.  
 When you buy a smoke, ask for a McGowan cigar and boost a Kingston industry.

**REID'S DINING SERVICE FOR FIRST CLASS WORK**  
 M. P. Reid is undoubtedly the best known caterer in this district. No matter how large the luncheon or banquet to be put on, he handles it with ease to the last detail and his services are in constant demand for such affairs. A good caterer is a hard man to find, and many conveniences of dinner and refreshment committees have thanked the lucky fates which led them to M. P. Reid in their difficulties.  
 Then there is the well-known Reid's Dining Hall on Queen's University grounds. When Queen's Hospital was evacuated by the military authorities and handed back to the university once more, Mr. Reid was quick to see the advantages of the spacious kitchens which had been erected, and promptly started a dining hall for the students, which has been a genuine convenience and service since its establishment.  
 Another place where a Reid institution is rendering great service is in the Jock Hartly Arena, also at Queen's. In the days of the old covered rink, there were sometimes thousands of people in attendance and not one refreshment booth could be found. Reid's tea room was incorporated with the main building when the new arena was constructed, and, all last winter rendered excellent service to all who patronized the big rink.  
 But Mr. Reid has also carried his activities outside Kingston, and at the famous Toronto Exhibition, Reid's Dining Hall may be found on the east side of the Industrial Building, serving once more, and looking after the wants of thousands who come and go during the Canadian National Fair.  
 A thorough knowledge of his business, a habit of square dealing, and the ability to give service that is sufficient and satisfactory, are just some of the things which have been put into the Reid catering system to make it so satisfactory to the general public. Every year marks some new advance in this system and at the present rate of progress Mr. Reid will be dubbed "King of Caterers" in a few years.

**TO-DAY'S INSPIRATION.**  
 The idle man stands outside of God's plan, outside of the ordained scheme of things; and the truest self-respect, the noblest independence, and the most genuine dignity are not to be found there.  
 —HOLLAND.

**JUNE AND ROSES**

June and roses usually come together and when we speak of roses in June, we as often refer to the roses in the cheeks of many brides, or to the brides themselves, as we do to the most beautiful of flowers.  
 The average girl tries to make herself more beautiful on her wedding day than she has ever been before, or ever will be after. The excitement, the solemnity of the ceremony, the sweetness of the day, her happiness, all these combine to aid her in that aim, although she seldom realizes that they are helping.  
 That is the day on which she should be photographed, in order that her appearance on that day may be preserved for her friends and for her children.  
 Marrison, the Photographer, makes a specialty of photographic work in connection with weddings. There is no need to go to any great trouble, running down to the studio in wedding togs, unless it is desired. Marrison goes right to the homes and in a few minutes, with a minimum of trouble for all concerned, takes the bride, or the bride and groom together, or the whole wedding party,—and then all goes on as before, with only a pause of a few minutes.  
 The Marrison Studio has been fortunate in obtaining patronage of a very high order in this respect and most of the weddings which were big social events this spring were photographed by Marrison.  
 Remember that the door of the studio is next to the Bank of Nova Scotia.

Money is becoming cheaper and more easily obtained. In April it was on call in New York at two and one-half per cent. Bank clearings are increasing throughout the country and this is the barometer to watch.  
 Swedish census statisticians declare their country the healthiest in the world.  
**Young Ladies, Read This**  
 If you are bothered with pimples, rashes and ugly blotches on your face, if your complexion is sallow, it's an evidence that you require Dr. Hamilton's Pills to tone up the blood. One of these splendid regulating pills makes a complexion like peach bloom—cheeks soon become rosy, eyes brighten, you again look the picture of health, look and feel well because you use Dr. Hamilton's Pills of Mandrake and Butternut, 25c at all dealers or The Catarthozos Co., Montreal.
