What the Press Agents Say About Coming Attractions

Katherine MacDonald Exhibits Versatility.

Katherine MacDonald, the "American Beauty," carved even deeper her niche in the Hall of Fame by her superb acting in "The Beautiful Liar," her latest starring vehicle for Associated First National at the Allen Theatre commencing Monday.

B. P. Schubert, who presents this Ambassador comedy-drama, has not alone depended upon his star's magnetism, personality and dramatic artistry to attain success in this picture. He has given her for a leading man Charles Meredith, who will be remembered for his work as a matinee idol with the Morocco theatrical enterprises and who is rapidly becoming one of the screen's favorites.

Numbered in the supporting cast are such film notables as Joseph J. Dowling, Wilfred Lucas, Kate Lester and Charles Wilder.

The story deals with this office girl, who, in order to save a summer resort hotel manager from losing his job and to give herself a vacation among the Four Hundred at the same time, consents to pose as the musical comedy queen while the latter is absent in Honolulu.

While masquerading as the foot-light favorite at a society benefit attracts the attention of a young Gotham millionaire who immediately falls in love with her. The romance starts at rehearsal and continues at a lightning-like pace to a satisfactory conclusion despite numerous complications en route.

Unusually elaborate settings will be found in this production, and those interested in taking a peek at how the upper ten act when at play—which is most of the time—will find a keen delight in this picture.

"The Beautiful Liar" was directed by Wallace Worsley from the adaptation by Ruth Wightman of George Marion's original story.

At The Strand. "The Sheikh's Wife" will be the feature attraction at the Strand theatre for the first three days of next week. On the same programme will be offered Charlie Chaplin in one of his funniest comedies, "Sunshine." This is a return engagement of the popular comedy. Dorothy Dalton will be seen for the last time tonight in "The Crimson Challenge."

Queen's Alumni Meeting. A meeting of Queen's University Alumni Association of Kingston, was held on Friday afternoon. The Association is preparing a list of all the graduates, and it is the intention to extend an invitation to them to visit Kingston in 1923 when the celebration is held in connection with the 25th anniversary of the founding of Kingston.

And now for the June bride!

IN MARINE CIRCLES

The steamer Brantford arrived yesterday from Montreal, having been purchased by the Sowards Coal Company.

The steamer Arabian arrived up this morning from Montreal with package freight for western points. The tug Bronson arrived this morning from Cape Vincent.

The steamer Winona passed down last night from the head of the lakes to Montreal.

The steamer Jeska arrived this morning from Oswego, and is unloading her cargo of coal at Portsmouth. The steamer Brockville arrived this morning from Bay of Quinte ports with package freight.

The steam barge Dardenella arrived this morning from Rideau ports with a cargo of wood.

The barge Shibley arrived last night from Amherst Island for supplies.

The steamers city of Hamilton and City of Ottawa are due in on Sunday.

SEEK DINOSAURS IN CANADA

Chicago Expedition in Search of Extinct Lizard.

Chicago, June 3.—A party of Chicagoans left yesterday for an exploration trip in Canada to search for the remains of "the terrible lizard," a beast of monstrous size, equipped with huge armor plates of bone and horns. The expedition is being sent out by the Field Museum.

No museum in the country has yet acquired an entire skeleton of one of these prehistoric monsters, but the expedition from the Field Museum, headed by E. S. Riggs, Assistant Curator, hopes to return with a complete specimen.

Hunting for dinosaurs is very much like prospecting for minerals, according to J. B. Abbott, one of the party. Often fragments of bone are found in a wash which comes from some distance. These are traced back to the mother rock and digging is begun there.

Peggy Went A-Marketing. "Fine rain?" was the remark on every farmer's tongue on Saturday morning; but in consequence of the rain the market was smaller than usual, though the wagons and cars had faced the muddy roads were laden with spring vegetables and greens selling at a lower price than last week. Radishes, spinach and lettuce could be bought for 5c, but larger bunches were 10c and 15c. Eggs were still selling at 30c, but butter had taken a drop, and was offered for 35c, to 38c, on the island market. Seedlings had gone up in price, asters were sold at 25c, a dozen and tomato plants the same, but splendid strawberry vines were only 15c. Ferns and little trees were for sale making a bow of beauty for the carts they filled, again the Lady's Slipper, or as the Indians call it, Moccasin plant, filled a big bowl, Canadian maiden-hair ferns were at another cart. Spring lamb was \$1.75 and \$3 a quarter, and fowls \$1.75 a piece. Long stalks of rhubarb sold for 5c, young carrots were 15c, a bunch.

Gananogue begins daylight saving time on Monday.

There was no session of the police court on Saturday morning. Two men were given protection at the police station on Friday night. The rain was very welcome. It fell gently and soaked in splendidly.

The Bishop of Ontario will visit Tweed on June 11th, for confirmation. Mr. Swaine, piano tuner, orders received at 100 Clergy street w. Phone 564w.

Mrs. D. Brown, Marlbank, is improving, after a serious operation in Kingston Hospital.

Flags on various buildings around the city were flying Saturday in honor of the King's birthday.

The wife of Dr. J. V. Gallivan, Peterboro, died on Thursday. Her husband was a former Kingstonian.

A case in which a parent was charged with neglecting to send her boy to school, was dealt with in the juvenile court on Saturday.

Nowadays no one is liberally educated unless he keeps in touch with the day's advertisements. To read the ads is to keep in touch with things.

Would you like to save some money? Sometime or other you saved some money because you "happened" to read a store ad. Why not let this happy practice?

The Stationing committee of the Montreal conference sat on Friday night and discussed with a deputation from St. James' church, Montreal, the conditions of that great church.

Judge Lavell has given his decision in the case of Mrs. Harris vs. Griggs. He finds that Griggs is the father of Mrs. Harris' illegitimate child and orders him to pay \$5 per week for its support and costs.

Take the S.S. Waukie, Monday, June 5th, first moonlight excursion of the season, giving one hour at Clayton, N.Y. Boat leaves foot of Brock St., 7.30 p.m. city time. Tickets 50c.

Prizes were awarded to Miss Helen M. Bain, Gananogue, for highest standing in obstetrical nursing, and to Miss Muriel Berry, of Seely's Bay, for highest standing in practical work at Toronto General Hospital.

Mrs. William Richardson passed away at her home, Westbrook, on Saturday morning after an illness extending over a year. She is survived by her husband, one son, Edward, and one daughter, Mrs. M. Lemmon, of this city.

The 1st Battalion P.W.O.R. paraded Friday evening as usual in the armories, but owing to the inclement weather, did not march out, but carried on with battalion drill and rehearsal for inspection in the armories. Monday next, being the day on which the King's birthday is to be observed, there will be no parade for the regiment, it having been postponed until the day following, Tuesday.

NEWS OF NORTHBROOK

New Road to Bon Echo—Doctor Inspects School Children.

Northbrook, June 1.—A new road is being put through to the Bon Echo summer resort, which follows the ridge near Massanoga Lake, thus overcoming the swamps which have always been bad.

Mrs. George Shiers and Mrs. J. L. Lloyd have gone to Tillsonbury, where Mrs. Shier's daughter, Mrs. A. Perkins, is dangerously ill. Rev. Mr. Shugerland, Campbellford, holds service in the Perry Road school Sunday afternoon.

William Kehoe purchased the Sher House livery horse. Miss T. Schanauer, Ardoch, is running the Shier hotel, in Mrs. Shier's absence. Ervin Shier is employed remodeling the home of William Both.

C. N. Thompson has gone to Arran and intends bringing his wife and family to his new home at the Ore Chimney mines.

A doctor and nurse inspected the children of the schools during the week, and parents should comply with all reports, thus overcoming many defects which might prove serious.

The electrical machinery is fast being installed at the Ore Chimney power house, and in about ten days it is expected to open. William Both is fast improving his telephone line and we now have connections with Harlowe and Myer's Cave.

The home of Mr. and Mrs. Henry Miles has been brightened by a wee girl's appearance.

Mr. and Mrs. Gus Wood have moved into the N. Benny house at the factory. There are a number of milch cows for sale, owing to the low prices of dairy produce. Miss J. Demille spent the week-end at her home in Madoc.

Noble-Jackson Wedding.

On Thursday, June 1st, at 4 p.m., at the home of Mr. and Mrs. S. Jackson, Elginburg, Ont., the marriage took place of their daughter, Annie Mabel, to William John Noble, formerly of Kesh, County Fermanagh, Ulster, Ireland, but latterly of Kingston, Ont. After the ceremony tea was served. Only a few relatives and friends were present. The bride's gown was of brown silk. Mr. and Mrs. Noble will reside at Elginburg. Rev. John Pattenham officiated.

Kingston perhaps was lucky in not celebrating Saturday as a holiday. It is hoped that the Weather Man will provide fine weather for Monday's holiday.

EXCAVATIONS AT MYCENAE

Important British Discoveries in Ancient Greek City.

Some very interesting discoveries have been made by the British School of Archaeology in its recent work at Mycenae, the ancient Greek city, which already has yielded some of the most remarkable finds bearing on the epic period which preceded the dawn of authentic history.

One of these discoveries is of a tank bath in the palace of the Acropolis at Mycenae, which suggests the possibility that it may have been the legendary bath of Agamemnon in which he is reputed to have been murdered by his wife, Clytemnestra.

At all events, if Agamemnon were a historical person, he should have lived in this palace, for it was built about 1,400 years B.C., and was destroyed before the end of the twelfth century, B.C.

Mycenae was one of the most important cities of ancient Greece, and was the fabled seat of Agamemnon, son of the king of that city, and most powerful ruler in Greece. It was Agamemnon whom the Greek historians credit with having led the Greek expedition against Troy.

On his return from that expedition he was slain. In the tragedy of Aeschylus the scene of the murder is laid in the palace of Agamemnon at Argos, some miles distant from Mycenae.

The bath uncovered by British investigators is lined with red stucco and its sides are composed of steps. The palace, which was discovered in 1886, has now been completely cleared. One of the most interesting parts of it is the great hall, or Megaron, in which is raised a ceremonial circular hearth made of painted stucco and having floors of the same material edged with slabs of gypsum.

The walls of the hall were covered with painted fresco, which suffered in the fire which destroyed the palace. Some fragments of these decorations were found. They represent elaborately dressed women with auburn hair.

The domestic quarters of the palace were much destroyed, but in them were found a row of jars and a shrine with the remains of painted stucco altars.

Under the floors of the palace have been found scanty remains of a yet earlier edifice, dating probably from 1,600 to 1,400 B.C. There probably the kings who were found by Schliemann in 1876 buried with their treasures in the famous shaft graves of Mycenae.

Below this again are the tombs of still earlier periods, going back to about 2,000 B.C.

In addition, the British archaeologists found several new chamber tombs in the Mycenae cemeteries. The two largest tombs just discovered have not yet been cleared. In the entrance to one were found painted vases, gold and amethyst beads, and five splendid intaglio seal stones.

On two of these are standing lions and the figure of the great mother goddess dressed in elaborate founced and gathered gowns worn by Mycenaean women. Above her head is her secret symbol, the double ax.

One of these big tombs has an entrance passage nearly 100 feet long and six feet square and lies thirty feet below the level of the ground. It is hoped that they contain articles of great historic value.

Peculiar Facts and Figures.

In a pack of playing-cards there are 25,013,559,400 different whist hands.

The name "London" is a combination of two Celtic words, "Lyn," meaning "lake," and "Dun," a fort. Penitents are being paid to three and a half million men, women, and children by the British Ministry of Pensions.

Solomon's Temple, for the building of which practically the whole manhood of Israel was commanded, would have cost \$5,000,000,000 to construct at present prices.

Chinese emperors are never mentioned by name from the moment of their accession, and are generally alluded to by some such title as "Lord of a Myriad Years," or "The Son of Heaven."

New York City gets its water from the Catskill Mountains, many miles away. To bring this water to the part of the city which needs it most, an enormous tunnel was cut out of the solid rock about 750 feet beneath the city.

Teakin Wood.

Certain changes in the character of wood which normally takes place only after many years of drying are, by a new chemical process produced within twenty-four hours. Thereafter, when the moisture that may still be left has evaporated, the wood becomes harder and more durable than by the aging process. All wood treated by this process is called teakin wood. Teakin birch is a beautiful golden brown color, and when polished with potash it takes on a mahogany red hue. As soon as a Canadian or Russian birch is obtainable, the process will be applied to boards and planks of this kind of wood. Teakin ash is a substitute for oak. Teakin elm has none of the disadvantages of natural elm. Teakin fir is of a uniform color all through and is used for office fittings and furniture and for veneering.

London's Longest Streets.

London can vie with New York in the length of some of its streets. Several are more than four miles long. Some of the longest are Upper Richmond road, S.W. (more than four miles); Barkin road, E. (about four miles); Green Lane (Newington Green to Wood Green, N.); Woolwich road (Greenwich to Woolwich); Seven Sisters road, N. (Holway road to Tottenham); and Romford road (Stratford Market to Ilford Broadway), each measure three miles or more.

The Society of Antiquaries of London was founded in 1574.

The trials in parents that children most love is that which prompts a mother to proceed with packing the lunch basket for a picnic, although the clouds are gathering.

Any young man who can make a living ought to make two, according to what we hear.

You may know what a man thinks of his father by what his children think of him.

SPORTING NEWS

LIMESTONES CONGREGATE

Hold Meeting on Friday Evening to Discuss Plans For Fall.

An organization meeting for the new Limestone Rugby Club was held in the City Council Chambers on Friday evening when a number of those interested gathered for the purpose of discussing plans to enter a senior city rugby team, preferably in the O.R.F.U. next fall. Stewart Robertson acted as chairman of the meeting, and set forth the idea of the new organization, which will put Kingston once more on the rugby map, as aside from the Intercollegiate games.

After many suggestions had been offered, it was decided to instruct Ed. Elliott to correspond with the secretary of the O.R.F.U. with regard to entering a team. S. Van Alstyne was appointed secretary pro tem, and to assist in the work of the committee.

Two committees were appointed, one to look after financing, composed of Stewart Robertson, H. C. Nickle, A. Minnes and E. Elliott; and the other to gather material and promote interest in the infant organization, comprising Stewart Robertson, Ted. Steacy, Ray Marchand, A. Minnes, A. Haunts, Ed. Elliott, W. Evans and S. Van Alstyne.

The question of training came up, and it was announced that the stadium could be used in the evenings, for signal practice and track-work, and this will allow those men employed late, to turn out for the training. It is understood that there is plenty of material available, and a strong aggregation is expected to wear the Limestone colors next September.

Wilton Girls' Softball Team.

The Wilton girls have organized a softball team and are enjoying themselves playing during the evenings. The officers of the club, which is known as "Imps," are: President, Miss Dorothy Neilson; secretary, Miss Lella Simmons; treasurer, Miss Aletta Babcock. The girls are looking forward to playing a number of games during the summer months.

BASEBALL SCORES

International League. Toronto 5, Syracuse 1. Other games postponed, rain.

National League. Boston 7, New York 3. Cincinnati 11, Chicago 7. Other games postponed, rain.

American League. St. Louis 12, Chicago 4. Cleveland 9, Detroit 4. Other games postponed, rain.

A French aeroplane flying from the air station at Croydon, near London, bound for Paris, fell into the English channel on Saturday morning, off Folkestone. The Cross channel boat picked up the two drowning persons from the machine. One of these had a passport in the name of Gordon Lay.

Noel Marshall, president of the Canadian Red Cross, on his return from a visit on the battlefields expressed himself as gratified at the extreme care of the war graves.
