Read both halves of the news

OOKING over all the normal activities of life which hold your interest-your city, your church, your school, your sport, your good works, there is not a single one that has not been promoted and fostered by having public attention focused upon it in the Daily Newspapers of your community.

Facts about personal happenings of this kind have come to be called news; facts about retail business are spoken of as "advertising." There is no actual difference between the two. Read both.

As a consumer you have as much interest in the day's advertising news as any person has in civic, religious and recreational events. How else can you keep informed of what is newest and best to eat, to wear and to use; how can you know who is seiling on the best terms and pledging his name and resources to back the quality and worth of his brand and trademark?

Daily Newspaper advertising is the soil in which new comforts and economies are grown daily for your benefit. It is news of value and interest to every one of us who must spend money daily just to live.

The fighter for faith may be sure of victory. There cannot be the least doubt that the cause for which he is fighting will win. Even the enemy admits this. So that the battle is already more than half won. "Fight the good fight of faith."
