PEOPLE AND EVENTS IN THE PASSING NEWS

KEY TO ILLUSTRATIONS

(1) It is not only among the Allies that the German ex-Kaiser seems to have lost somewhat of his popularity. This dome-shaped pavilion behind the high, broad fountains covers a famous and fine fountain which was erected in Constantinople as a permanent memorial of the ex-Kaiser's visit there in 1897. It is boarded up now, probably because the Turks hate to be reminded of the way in which Wilhelm led them astray during the Great War.

(2) A family re-union. The arrival of the Prince of Wales in England after returning from India was made the occasion for a great celebration in London. This photograph of the Royal Family was made upon his arrival at Buckingham Palace. From left to right they are: Queen Mary, Prince Henry, Prince of Wales, Duke of York, H.M. the King, Viscountess Lascelles and Princess Mary.

(3) Canada's newest ocean liner, the Canadian Pacific Steamer "Empress of Canada," received a warm welcome on her first appearance at Vancouver the other day, where she marked a new era in the development of Canada's trans-Pacific trade. She is of 21,817 tons gross register and 427 feet long. She is propelled by two sets of turbines and has attained a maximum speed of 22 knots. She sails from Vancouver via Honolulu to Yokohama, Kobe, Nagasaki, Shanghai, Manila and Hong Kong.

(4) The future Queen of Holland, Princess Juliana, in the quiet costume of the Flemish people over whom she will likely be one day called to rule. The Princess is now thirteen years of age.

(5) Mr. Alfred Price who, after forty years service with the C.P.R., has relinquished his duties as general manager of eastern lines on the advice of his physicians. Mr. Price began his business life as a telegraph messenger at Toronto and has come to be one of the most widely known and most popular railway men in Canada.

(6) John J. Smully, who succeeds Alfred Price as general manager C.P.R. eastern lines. He joined the C.P.R. as office boy in 1887 and his advance to his present position has been marked by his having held a number of important posts in the company's service in both eastern and western Canada.

(7) With H. R. H. the Duke of Connaught time passes in a kindly way. This photograph was snapped in London less than a month ago and shows that extremely popular member of the Royal Family to have changed not at all since the time when he first arrived in Canada to assume office as Governor-General and incidentally to win the warm friendship of all Canadians.

(8) He is the world's largest steer. He was born in Texas, weighs 4,268 lbs. and stands 19 hands high. Standing beside him is the world's champion bovine midget. It is eight years old and only 26 inches up weight, and hails from Pennsylvania.
