REPORTS WERE GIVEN AT KIWANIS CLUB

Various Suggestions Given to Increase Usefulness of the Club.

Energy and efficiency in the service of Kiwanis, was the outstanding characteristic of the reports of the chairmen of the various committees, submitted at the weekly luncheon of the club in the Hotel Frontenac on Tuesday. All had valuable suggestions to offer for increasing the usefulness of the Club, and these will be taken into careful consideration by the executive committee immediately.

Noble Steacy, president, occupied the chair, and during the roll call the following guests were introduced: Dr. Wilfred Kingsley, Kingston, and E. C. Sherry, St. Louis. The singing, under the leadership of Garnet Lockett, was unsurpassed, but the quartette was not on the programme. The vigilance of the president proved very beneficial to the exchequer.

W. W. Sands, asked permission to make an announcement, and he stated that the committee engaged in the campaign to raise \$20,000 for the Stanley and Aylward Company, manufacturers of Norman silverware, had already succeeded in obtaining \$11,000. He asked for the assistance of the members of the club in order that the total sum needed might be obtained this week.

H. E. Richardson, proprietor of Fenwick Hendry Company, wholesale grocers, was the booster and, in addition to providing samples of useful household articles, put up several valuable prizes that were won by Frank Anglin, B. N. Steacy, J. D. Boyd, H. W. Newman, Ambrose Shea, Murdock Johnston. "Pete" was given the Kiwanis rocket in a most hearty manner.

J. F. Sparks, of the attendance committee, reported a loss of six and a gain of ten members during the year, the present membership being 106. H. E. Richardson reported that the attendance was good in winter, but fell off in the summer. A. C. Hanley, of the house committee, suggested plans for an annual picnic. F. J. Hoag told of the work of the speakers' committee.

William Moore, boosters' committee, recommended that the winner of the first prize, be the next booster, and that the total value of all prizes should not exceed \$10, but that individual advertising need not be included in that sum. The suggestion was considered a good one, and the executive will consider it. Garnet Lockett reported for the entertainment committee and Frank Anglin for the sick committee. He referred feelingly to the loss the club sustained in the death of the late William Cooke. Reporting for the transportation committee, "Jim" Sowards asked for cars to take the inmates of the Home for the Aged for an outing from 3 to 5 p.m. on Thursday next. Eight cars were volunteered.

W. Y. Mills reported for the education committee, he suggested an education week during January next. J. M. Campbell, chairman of the public affairs committee, told of efforts to establish a free chest clinic in the city. The committee recommended it and, as a result of conferences held with city physicians, he was able to report that there was a good prospect of success. He paid a high tribute to Dr. Bruce Hopkins, superintendent of the Mowat Sanitarium, for his initiative in such an important public matter.

"Jack" Sutherland reported on Business Methods, and Sir A. C. Macdonell for the grievances committee. "Stan" Driver reported on athletics and expressed regret that he was unable to raise a hockey team or a baseball team. Someone suggested that he try to find the poker players. J. D. Boyd gave a very interesting report on the Kiwi Club. There were six boys being cared for by this club, and all are doing well.

Percy Borland, secretary-treasurer, reported that the finances were in a very satisfactory condition. There was a credit balance of \$323 in the general fund, and \$386 in the charity fund. Some members were in arrears, however.

W. Y. Mills suggested that the club raise a fund for free band concerts in the park, also that community singing be tried out in Kingston. The president stated that the suggestions would be taken up at once. Commenting upon the reports, Frank Hoag said that the membership be increased and the proposal will be taken up by the membership committee.

There will be no weekly luncheon next week. The club has been invited to Eastview Park by J. D. Boyd, "Bill" and "Jack" McCallum on the afternoon of Aug. 7th, and the members will assemble with their automobiles at the market square at 4.30 p.m. The members will take their wives. Ladies will be the only guests of the club on that occasion.

Destructive Fire. North Bay, Aug. 2.—The village of Trout Mills was the scene of one of the most destructive and most spectacular fires in the history of this part of the country, on Saturday night last, when in the neighborhood of six million feet of lumber, valued at approximately \$350,000, and two houses, occupied by Mrs. McCall and Mrs. Fred White, were destroyed by a blaze believed to have started from a spark from a passing train.

FIRE DOES HEAVY DAMAGE TO BOAT

Loss on Alexandria Bay Craft Between \$3,000 and \$4,000.

Alexandria Bay, N.Y., Aug. 2.—A motor boat owned by Charles T. Terry, of Grenell Island, was badly damaged by fire on Monday, when it caught fire at the dock of Hutchinson Brothers, boat builders. The loss will be between \$3,000 and \$4,000.

Although the origin could not be exactly determined, it is believed that it was caused by the ignition of gasoline in the boat. Men were working on it at the time when it suddenly burst into flames. The fire department was called but by the time it arrived holes had been bored in the vessel, sinking the boat and extinguishing the flames. Practically one-half of the boat was destroyed however.

NEW OFFICES.

For Salada Tea Company in London, England.

The Salada Tea Company has just removed its London, England, offices from 1 Mincing Lane, to the magnificent new "Port of London" building. This was recently erected because the reviving throes of world trade made larger and more commodious quarters necessary for the many busy port officials. The flow of shipping to and from London, (which by the way is the greatest port in the world) is again establishing. For some time much shipping was diverted to Liverpool and Southampton, but the facilities now offered by the port of London to the merchant ships of the world are such that the mites of docks and warehouse are again pulsing with activity. As London is the tea market of the world, The Salada Tea Company maintains there at all times a staff of experts to arrange for its large requirements. The new offices in the "Port of London" building will offer very much better facilities for transacting this "Salada" business, and in securing at all times the finest teas on the market.
