Acknowledging Condolences.
When your heart aches for some one who has gone on you do not feel like writing an endless list of letters or even signing the more formal printed cards. Insert a notice in the classified advertisements. All of your friends will see it, it is over in a few minutes and you are saved needless suffering.

Ralph Bontor Discharged.
Ralph Bontor, Trenton, charged with criminal negligence, as a result of his motor car having struck and injured George Seams, aged eleven on Sunday, June 18th last, was found not guilty by Judge Deroche and acquitted of the charge.

Has Become Sole Owner.
The Canada Steamships Lines has bought the minority interest in the Century Coal Company, Montreal, in which it already owned the majority and controlling interests. This step has been taken on the direct recommendation of President Coverdale.

Bissell Family Re-Union.
On Tuesday some fifty members of the Bissell family, including T. Bissell, Elora, Ont., and Mrs. Cummins, Wellsville, N.C., attended a family re-union at the summer home of Mr. and Mrs. C. E. Bissell, Lily Bay. The oldest member of the party was Lyman Bissell, North Augusta.

Canoe Camp Open.
The American Canoe Association camp opened on Friday on Sugar Island for a two weeks' meet. The association was organized in 1880 and this is its twentieth year at Sugar Island. The camp this year is in charge of Commodore John McKay of Kingston, Ont., who is a member of the northern division.

Dr. James Locates.
Dr. L. W. James, Carp, will be with Dr. Smith, Carleton Place, during the month of August and on Sept. 1st will take over the practice, opening an office in the house occupied by John Darou. Dr. James is a graduate of Queen's University, and served overseas during the war on the staff of the Haslar Naval Hospital and eight months as surgeon on board a destroyer.

It is the City's Duty.
A writer says: "I join with you in complimenting Dr. Gardiner for making the street sign on his house look presentable but I do not agree with you that house owners should align up the signs unless so minded. The city should do the work and remove the dingy appearance so many street signs have. The electric light stands have been just painted, why not the name plates of streets?"

They Will Do It.
At about fifteen minutes to six on Friday evening, a bell line street car in charge of Conductor Kennedy was running up Princess street between Chatham and Alfred, when a lady passenger, without warning, suddenly rose from her seat and jumped off the moving car. At the same time a motor car, travelling at a fairly good rate was passing the car and the guards just scraped the lady's dress. A fraction of a second either way would have meant a fatal accident or at least a very serious one. People

will jump off moving cars in spite of warnings.

Educational Requirements.
The sum required by the Perth Board of Education for school purposes this year was made known at the regular meeting of the board by the finance committee and the figures are: Public school \$22,053.59, collegiate institute \$17,014.25, a total of \$39,067.84. Last year the amounts required were: Public school \$17,007.17; collegiate institute \$3,330.40, a total of \$20,337.57. The increase required this year is therefore \$18,730.27.

Advertising vs. Signs.
The time has long past when advertising was merely a sign. One painted it on the door of one's store, or business. More progressive business men had cards printed that were sent about in the mail, a few advertised. The greatest amount of business came to those who advertised. It came easily, naturally, and quickly. Those merchants expanded in leaps. Merchants who advertise expand in leaps. Those who depend upon signs, sort of stop—or go out of business.

Died at Forest, Ont.
Mrs. David Anderson, Forest, sister of Messrs. J. H. Ferguson and D. R. Ferguson, Carleton Place, passed away Wednesday evening, after a lengthy illness. Mrs. Anderson was sixty-five years of age and is survived by her husband. Mrs. Anderson, whose maiden name was Mary A., was the eldest daughter of the late Dugald Ferguson, Beckwith, and was born on the homestead. This is the first break in the family in fifty-five years.

Apportioning of Coal.
Ald. C. Graham has thought out a plan for coal rationing if it becomes necessary. Coal should be given out at rate of one ton to a month for ordinary houses. He would have cards printed with the days of the month on them, given out by the city clerk and when coal is secured from any dealer he would punch the date, and so every other dealer would know the consumer had had his monthly portion. This the alderman thinks

would avoid duplication as would be possible if no check, beyond word of mouth was permitted. The occupant of a house would alone be given a card.

There is a Wideness.
To the world that you don't get unless you are the owner of a car. A car that will take you spinning over roads and through country that you never dreamed existed. Another thing, you can go through the country at this time of year and get the most delicious fruits and vegetables freshly picked. Ever think of that? Don't say you can't afford a car. At least don't say it until you have tried to find one through our classified ads. They are sold often at surprisingly low rates.
