"Yes, It Was Parisian Sage Made My Hair So Beautiful"

"People laughed at my dull, lifeless hair, but now I laugh at them."

"HOW I QUICKLY MADE IT ABUNDANT AND FASCINATING"

"There is some peculiar power in Parisian Sage that does turn hair that is harsh, dull-looking and unattractive into the kind so radiantly lustrous that any woman may well feel proud of it."

Thus writes a woman who knows what Parisian Sage, the ideal hair and scalp preparation, will do for her hair.

In America to-day there are millions of women with harsh, unattractive characterless hair, who can easily make it radiant, lustrous and full of life by simply using Parisian Sage regularly.

It is a clean, speedy-acting hair invigorator that is not expensive and is sold by McLeod's Drug Store and at all toilet goods counters and drug stores with the distinct understanding that it will satisfy the user or money back.

Parisian Sage is dainty and refreshing and its use means a clean scalp free from dandruff and itching.

The English guinea was first coined in 1673, and derives its name from the fact that the gold of which it was first composed came from Guinea. Some folks get all heated up working so hard to keep cool. A perfectly good lie sometimes fails to serve its purpose. Documents prove that William the Conqueror, the first Norman king in England, could not sign his own name.
