## DID YOU EVER STOP TO THINK—

THAT no citizen is so powerful, none so humble, that the city in which he lives is not an aid to him in some way.

THAT some citizens are always boosters for their city. They accomplish much in community betterment, and this not only improves themselves but the citizens who are always riding on the wagon that the live citizens are pulling uphill.

THAT frankly and honestly, you live in a fine city. Do all your citizens appreciate their city as much as they should?

THAT despite the keen competition for trade advantages that is ahead of your city, your business will maintain its place in the front ranks of industrial and commercial leadership of your section, only through co-operation of all your business men.

THAT now is the time for all citizens to join hands and make your city the most modern city and the most progressive city in your section of the country.

THAT you should stop to think and do it now. WHAT KIND OF A CITY WOULD YOUR CITY BE IF EVERY CITIZEN WERE JUST LIKE YOU? WOULD IT BE A LIVE, GROWING CITY, OR WOULD IT BE LIKE A LIVING CEMETERY?

E. R. WAITE, Secretary, Shawnee, Oklahoma, Board of Commerce.

Established Over 100 Years

THE world is working at this moment to supply your wants.

Every day of your life you must eat, wear clothing, use furniture, enjoy recreation, seek health. Most of your money is spent for things you need; weigh your expenditure intelligently. Read the paper.

The advertisements in your own Daily Newspaper safeguard your purse. They are the traffic police of the world's commerce, turning the stream of human earnings into well chartered highways.

Manufacturers and merchants in their advertisements tell you the latest news about the world's efforts to keep you in health, happiness and comfort. They stake their success, their reputation, and their pride on the truth of these public claims and make for their producers. The fate of an advertised article is in your hands and the maker knows that it is. He must back his statements with honest values or be smothered under competition.

Unless you read the advertisements in your Daily Newspaper you overlook that half of the day's news which tell you what is being made to keep you in comfort and luxury, not ten years from now but to-day.

Issued by the Canadian Daily Newspaper Association, Toronto.

Patience and persistence sometimes are so persistent that they call for the strong arm treatment. Don't think always of your own feelings lest you lose all force.

Some people who have more money than brains are not considered wealthy.

Many a man has kept his peace of mind by not giving advice.

### ATMOSPHERIC DISTURBANCES.

At this season of the year atmospheric disturbances are so prevalent and productive of complaints from radio fans as to deserve special mention in these series.

It is safe to say that the man who can eliminate "atmospheric" or "static" in the operation of radio has a fortune awaiting him.

Atmospheric disturbances show themselves in various forms and are due to innumerable causes, but they are all included in any of the various terms commonly used to denote them, i.e.—atmospheric, X's, strays, static, &c.

Although little has been accomplished in the matter of eliminating this "bugbear" of radio, a great deal of work has been spent by the brightest minds in the profession in seeking a remedy.

In general, these disturbances may be classed in three varieties and may be readily distinguished. They are usually referred to as "grinders," "clicks" and "hisses" respectively. "Grinders" produce a sort of con-

tinuous rattle, with occasional heavier crashes. They are most prevalent in the warm season, on warm days and between the hours of noon and sunrise the next morning, though this varies in different parts of the earth. Experiments indicate that they are propagated vertically, and advantage is taken of this fact to separate them from signals which are propagated more or less horizontally.

"Clicks" are heard as relatively widely spaced crashes, and are common during the cooler periods of the day and year. Their intensity is usually sufficient to interfere with the reception of weak signals. As to direction they seem to wander indiscriminately and to be true "strays."

"Hisses" are generally due to actual discharges from the antenna to earth. They are the least troublesome and are not present when the antenna has no earth connection.

These disturbances are particularly bad this summer and will disappear in the fall or early winter.

### VARIABLE GRID LEAK.

In tube sets the grid leak is a highly important part and component of the tube circuit, hence an adjustable grid leak such as is described below proves a welcome addition to the radio apparatus market. The instrument is enclosed in a highly polished bakelite, has a knob and ten tap control and two metal binding posts. The taps are carefully calibrated, values of leak resistance ranging from 1/4 to 15 megohms. By proper adjustment of the grid leak the potential of the grid is accurately controlled. This results in the operation of the tube at its

highest efficiency and with the elimination of all squealing and tube noises.

examination successfully.

Mr. and Mrs. J. Varney and daughter motored from Buffalo, N.Y., here and enjoyed a week's visit with Mrs. Varney's parents, Mr. and Mrs. E. Marquardt, and other relatives. They left on their return to their present home accompanied by E. Marquardt and his daughter Katie, who intend to enjoy a couple of weeks visiting in the United States. Rev. C. F. Christiansen also returned to his present field of labor in Toronto, but Mrs. Christiansen and the children left for Pembroke to visit some other relatives yet before they return to their city home. Other visitors who have returned to their present places of residence were Mr. and Mrs. W. Chatson and George Fritsdal, Renfrew; Mr. and Mrs. Frank Chatson, Brockville; Mr. and Mrs. A. Chatson, Timmins, New Ontario and Mr. and Mrs. William Both, Clonyne.

Visitors who have arrived here are at C. Both's, are their daughter, Mrs. J. Clark, and children, Huntsville; at E. Marquardt's, their daughter, Annie, from Ottawa; F. Falk's, their daughters, Hilda, Erma and Minna from Napanee; at A. Lockwood's, their son Stanley, from Renfrew.

### BAZAAR AT TICHBORNE.

The sum of \$157 was realized for Piano Fund.

Tichborne, Aug. 7.—On Aug. 2nd the Ladies' Aid Society of Tichborne held their annual bazaar and concert. The weather was all to be desired and a good crowd gathered both afternoon and evening. All were delighted and declared this to be the best event in this district. The hall and booths were beautifully decorated and attended by members of the society. The afternoon music was furnished by Harold McNamara, Toronto, which was delightful and charming and added much to the enjoyment of the many listeners. From 4.30 to 6.30 a grand dinner was served and fine members of the society acted as waiters, and worked faithfully to make the dinner all that could be desired. By the hour of 8.15 the hall had been arranged and made ready for the evening fun. The programme selections were varied and comprised solos, duets, recitations, instrumental music and many selections by the popular warden, G. M. Draw, known as Frontenac's Harry Lander, were greatly appreciated. Rev. Mr. Allen gave an address. The good sum of \$157 was raised towards the new piano.

The Ladies' Aid are deserving of the warmest congratulations. Much credit is due to Mrs. D. J. Homes, who acted as general manager. The out-of-town visitors were from Albany, N.Y., Watertown, N.Y., Toronto, Smith's Falls and Kingston.

### BATTERSEA BUDGET.

A Cow Fell Over a High Bluff and Dies.

Battersea, Aug. 10.—Farmers are nearly through harvesting and the hum of the threshing machine will soon be heard. The Ladies' Aid held its monthly meeting at the home of Mrs. Ralph Sleeth. One of the principal features of the afternoon was the admission of several new members. A number from here attended the Conservative picnic in Kingston on Tuesday. Baby girls have come to stay at Len Patterson's and Edward Hogle's. Miss Martha Keller, Albany, N.Y., is visiting her sister, Mrs. William Noble. The tourist trade still continues brisk and the summer resorts are all filled with

### Hartington Happenings.

Hartington, Aug. 11.—The annual Sunday school picnic was held in Fred Denison's grove yesterday. The day was ideal and good things were in abundance. The races were much enjoyed, the baseball game was a failure as the visiting team did not arrive. Those attending the picnic at Lake Ontario Park report a good time. Norman Ryan cut his foot. Dr. Geddes had to put in a couple of stitches. Mrs. Galbraith and son, Toronto, are visiting at her father's, Elijah Sigsworth's. Meta Campbell has returned from Whitty. Mrs. Minnie Leonard, spending week at Newburgh, has returned. Miss Connolly, Kingston and Miss Yallon, Verona are the guests of Salome Godin. Fred Harkness, Kingston, is at Benjamin Campsall's. James Cprool and family and Mrs. Grass, Westbrooke, were recent visitors at Milton Cloakey's. Quite a number expect to attend the celebration in Belleville tomorrow. Madolia Babcock is away for a week's visit.

### Tamworth Tidings.

Tamworth, Aug. 9.—Rev. Mr. and Mrs. Clark left on Monday morning for a three weeks' holiday at their summer cottage. Rev. Mr. Scott, Napanee, is to preach at the Presbyterian church in the absence of Mr. Clarke. Mrs. Floyd has returned home after spending a holiday at Rev. Mr. Roark's, Cavan. A number of American tourists are holidaying in the district around Beaver Lake. Mrs. Taylor and daughter, Ottawa, were visiting friends here during the past week. Mr. Fletcher and family have returned home after a visit at

Campbellford. Canon J. W. Jones, Kingston, preached in Christ church on Sunday last. Tamworth defeated Adolphustown in an Inter-County game by 16 to 11. Ella Little, McDonald's Corners, is visiting friends here. The lake was dotted with boats on Wednesday, and all hands were fishing. An American visitor caught a pickerel weighing six pounds. The fishing is exceptionally good just now.
