DRINCESS Mary, daughter of George V, granddaughter of Edward VII and great granddaughter of the great Queen Victoria, is to benefit by a monthly income insurance policy-the best provision any husband, rich or poor, titled or plain commoner, can make for his wife. When Princess Mary attains the age of 50, whether her husband be living or not, she will receive an annual income thenceforth of \$60,000.00 for the rest of her life.

This is a remarkable endorsement of the value of Life Insurance and, more particularly, of the monthly income policy. Viscount Lascelles, for all his wealth and high position, chooses to protect the future of his wife with a monthly income policy issued by an insurance company on this side of the Atlantic.

What was wisdom on the part of the husband of Princess Mary, the royal daughter of England, is no less wise as an example to be followed by the husbands of Canada. The monthly income policy is the safest and most satisfactory form of insurance for the protection of wives and mothers of families.
