ASK FOR PREFERENCE TO RETURNED SOLDIERS

In Filling Government Positions—G.W.V.A. to Help in Social Hygiene.

A strong resolution asking for more strict enforcement of the government regulations giving preference to returned soldiers in the various government positions, was adopted by the executive of the Great War Veterans' Association at their meeting on Monday evening.

The meeting was well-attended, and with Comrade Volume presiding, a great deal of business was transacted by the members of the executive present. After a general discussion concerning education along social hygiene activities, it was unanimously decided to write Dr. L. J. Austin, Queen's University, and offering to co-operate in any work that might be done along these lines in Kingston.

Other resolutions adopted were: the granting of the use of the assembly hall to the members of "A" company, Frontenac regiment, for an At Home to be held there shortly, and the appointment of a special committee composed of Comrades Flint, Macdonnell and Fowler, to look after the re-arrangement of the billiard room.

The officers of the association expressed the hope that there would be a large turnout of members for the next meeting on Monday evening, October 16th, as the general arrangements for Poppy Day will be discussed, concerning which every member should have some suggestions to offer. The sum of \$25 has been set aside to defray expenses of the campaign, and as twenty per cent. of the total receipts are to be donated to local poor relief work, a large contribution is expected.

The euchre held at the House of Providence Monday evening, under the auspices of the Orphans' Guild, was the first of a series which this organization had planned and proved very successful. Melville, Mrs. F. Milo, Mrs. W. Shaw, and Miss I. Shaw. Mrs. C. Diamond looked after the entrance. The grand prize, the gift of a friend, which had been exhibited in Jas. Reid & Co's. window during the last few days was the admiration of the many patrons at the euchre.

Children Study Better When They Wear Right Shoes

When a child has a stomach-ache or other youthful illness, you soon find it out. But their shoes can be wrong without their knowing it. Soft, plastic foot bones simply give way before pressure at the wrong points, and the danger is often overlooked until too late.

The safest, surest, best way is to have each pair of shoes carefully fitted here—then their growing feet will develop naturally and be healthful.
