The BREATHEABLE TREATMENT for COUGHS & COLDS EVERYBODY NEEDS PEPS!

WHETHER it's a Cough, Cold, Sore Throat, or a revival of the old Bronchitis the Peps breatheable remedy, is the one most speedily effective. The Peps way is to strengthen the breathing passages and end the danger before it attacks the chest and lungs. When a Peps tablet dissolves in the mouth powerful medicinal fumes are liberated. As the diagram shows, these chest-strengthening medicines mingle with the air breathed through the nasal cavity (1) and mouth (2) and are carried over the tongue (3) into the throat (4) whence they pass direct down the wind-pipe (5) into the lungs. Druggist mixtures and syrups are ineffective because they go down the gullet (6) into the stomach. The Peps breatheable medicines however, deal directly, not only with immediate trouble in the throat and bronchial tubes, but they penetrate to the innermost recesses, where disease germs are likeliest to be. Peps not only act as a powerful germicide but they speedily soothe and heal any soreness, irritation, or inflammation; they make breathing easy. There is no more valuable safeguard against throat troubles, chest weakness, bronchitis, asthma, pleurisy and pneumonia. Free from harmful drugs, Peps are perfectly safe for children.

The Right Sort of Home. Real affections centre in the home. That is why it is so important to have the right kind of home. The heart calls for a place with a bit of ground. A house well set in a yard that is big enough for the children to have a play place; where the wash may be hung Mondays (when it isn't raining), and where one may plant bulbs for next spring. This is the sort of home you get through our classified columns. It may sound too good to be true, but it isn't.
