IMPOSSIBLE TO USE OLD M.T. COMPANY ELEVATOR

Found Too Expensive to Replace Parts of Equipment Removed.

The proposal to reit the M.T. elevator is now reported to be definitely off. The reason for this is understood to be the expense of replacing the parts of the equipment sold or removed when the plant was dismantled two years ago. Nothing will, therefore be done this fall to relieve the grain shipping situation, rendered acute by the lack of elevator facilities at Kingston and the inability to take care of the flood of grain at Montreal. What will be done with the elevator in the event of the company deciding not to use it again is a matter of much speculation. It is out-of-date as an elevator because of the high insurance rates charged upon any grain that might be stored in it, and if not reit it cannot remain on the site as an incumbrance. It now represents just so much scrap, and if auctioned off and removed would leave the site more valuable for it would be available for the erection of a fire-proof elevator that would be of some service to the grain trade.

In the meantime the C.S.L. vessels will continue to use the James Swift and company's wharf as no report has been given out respecting the change contemplated some weeks ago.

Get Ready For The Chase; Special Train For Hunters

The open season for hunting deer and moose in Northern Ontario is rapidly approaching. South of the French and Mattawa rivers Nov. 5th to Nov. 20th inclusive; north and west of these rivers, Oct. 25th to Nov. 20th inclusive. North of the Transcontinental Railway line the season is from Sept. 15th to Nov. 15th inclusive.

The Canadian National railways traverse the finest hunting territory in this country. This fact with their special and regular train service makes "The National Way" the premier line for the hunter. The hunting grounds are so vast there is game for everyone.

The selection of grounds is a most important matter and one which requires careful study. The territory reached by the Canadian National lines north of Parry Sound is already a favorite one, but the new country east and west of Capreol is as yet comparatively little known to the hunter and should, therefore, be highly attractive to the follower of the deer and moose.

The Canadian National railways are providing special train service, which with regular trains will meet all demands. Special trains will be operated as follows: Leave Toronto Union station 11.15 p.m., Oct. 31st, for Capreol and intermediate points, and 11.15 p.m., Nov. 2nd, 3rd and 4th for Key Junction, and intermediate points. The usual ample accommodation of sleeping cars, baggage cars and coaches will be provided.

The annual hunter's leaflet issued by the Canadian National railways is now ready for distribution, and may be obtained on application to any agent of the company, or write General Passenger Department, Room 607 Royal Bank Bldg., Toronto.

A PEN SKETCH OF REV. V. O. BOYLE, M. A., B. D.

On Sunday evening, Sept. 17th, the writer had the privilege of listening to Rev. V. O. Boyle, M.A., B.D., rector of the Anglican church, Athens, Ont., in connection with the Harvest Home Festival. He spoke on the "Good Seed," a very ideal subject for such an occasion. Mr. Boyle impressed us by his quiet and unassuming pulpit style, which was entirely free of vulgar sensationalism so prevalent in our time. He is both a scholar and a gentleman, and exercises a very pronounced influence over his hearers. His sermon was both practical and heart-searching.

In his address he pointed out the responsibilities resting upon his hearers, who must reap as they have sown. He is a ready speaker of large vocabulary and is not limited in any way in giving expression to his ideas or ideals. The power and influence possessed both in and outside of his own church is partly due to his scholarly attainments and partly to his ability as a preacher, but much of this comes also from his character. He takes a deep interest in the welfare of those who attend his ministry, and can be relied on as an able councillor and friend.

In his pulpit work he confines himself almost entirely to the scriptures, avoiding sensational topics, yet he interests his hearers and fills his church. Mr. Boyle is a young man of great promise, and pleasing personality, and there is not the least doubt but that is destined in the future to fill a very important place in the councils of the church.

Rev. Mr. Boyle was once attached to St. George's Cathedral, and the pen sketch will be of interest to his many friends in Kingston.

One girl was killed and nine other persons were injured by automobiles in Montreal during the week-end.

HEMORRHOIDS

Do not suffer another day with itching, bleeding, or protruding Piles or Hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. See a local dealer, or Edmondson, Bates & Co., Limited, Toronto. Sample box free.

TWO MORE STREET LIGHTS

To Be Erected—Better Fire Protection For Outer Station Industries.

At a meeting of the fire and light committee on Tuesday afternoon, it was decided, on recommendation of Chief Armstrong, to give better fire protection to the new woolen mill and tile works at the outer station, and a hydrant will be installed as near as possible to those industries.

Two new arc lights will be erected—one on Alfred street between Princess and Elm streets and another at the corner of Toronto and Brock streets.

The contract for firemen's winter clothing was awarded to C. Livingston & Co., whose prices were \$26 for pea jackets; \$5.75 for firemen's trousers and \$3.35 for officers' trousers.

The Frontenac Home and School Club draw the attention of the committee to the inadequate fire protection for that institution. The matter was referred to the utilities commission as it is a matter of water supply and hydrants.

Some time ago the committee authorized the purchase of two fire ladders at an estimated cost of \$150. It is found that the ladders will cost \$250, so the committee decided that the purchase at this price should be made.

In attendance at the meeting were Alds. Chown (chairman), Milne, Johnston, Godwin and Marcelles.

KINGSTON'S WOOLLEN MILL

Is the First Industry of This Kind to Be Located Here.

Kingston's new woolen industry is the first of the kind to be located here, is under the experienced management of Messrs. Collie, father and son, whose record has been one of success.

A representative of the British Whig visited the plant Tuesday and had an opportunity to inspect the looms and other machines being installed, the use of which was explained by Mr. Gammock, an expert weaver of Scotch cloth, who is superintending the work. Messrs. Collie, father and son, have spent their lives in manufacturing Scotch cloth for ladies' and men's garments, and have been carrying on the industry in Canada for the past twelve years. In Stratford, they had thirty looms running, but are installing forty in their new building here, which is superior in every way.

Only wool yarns are used, and they are spun from the wool in the raw state right on the spot. Australian wool is used extensively, but some Canadian wool is included. All of the wool is dyed before it is made into yarn, and cloth of any shade or varieties of color is turned out. Men's overcoating of beautiful freize, with the plaid back woven into the fabric, is a specialty in the manufacture of which this company has excelled, while their men's and women's homespun are in great demand on the market.

The fire that destroyed their plant at Stratford, caught them in preparation for the fall trade, and has been a very serious interruption to their business, but they are making good progress, and in two more weeks will be producing the highest grade cloth on the market, and for which there is a constant demand.

Mr. Collie is a Scotchman, and came to Canada about twelve years ago. He operated a plant at Pembroke for a time before removing to Stratford. He has placed on the Canadian market Scotch tweeds, worsteds and homespun that had to be imported before, and the future for the industry in Kingston is very bright. Its establishment here is a tribute to the energy and foresight of Kingston's industrial commissioner, Dr. W. W. Sands, and Kingston will have cause to be proud of a plant that fills so important a place in Canadian manufacturing industry. The Messrs. Collie did not come here asking for any bonus, but only for a suitable building, and they are greatly pleased with the modern structure and the site which is

The Best Shoe In Kingston

If you want the best shoe in Kingston, come in and let us show you this high shoe for fall and winter. It will give you real comfort and excellent service—it is made of the very best imported Brown California, California lining, double soles to the heels, giving you an extra heavy shank. This is a piece of art as far as shoe-making is concerned—it has the looks—it has the quality—and the wear is there.

No man ever had better. The price is only

Right on the main line of the G.T.R. There is a good steam power plant, but electric power can be used if desired.

THE LITTLE GARDENER.

Last spring a little garden
Was planted with much care,
And garden stuff of many kinds
Had each a portion there;
The little gardener tilled the soil,
And sowed the tiny seeds,
And many an hour that child did toil
In keeping out the weeds,
And flowers in that garden grew,
The flowers we all do love,
But God took the little gardener
To His garden up above,
And now the weeds are growing tall,
The flowers droop and die,
And we miss the little gardener
While tear-drops dim the eye.

And when the birds come back again,
And snow melts in the shade,
I shall miss the little gardener,
In the garden where he played.
No more he'll take me my the hand
To go and see his flowers,
But I shall find my gardener
In Heaven's My bowers.
—Mrs. George Fox, Allisonville, Ont.

A. O. H. Euchre And Dance.

The weekly euchre of the Ancient Order of Hibernians held in their hall, on Tuesday evening, was as usual very successful. There were about eighteen tables playing and the winners of the first prizes were Mrs. Whalen, and Leonard Bodore. The Consolation prizes were awarded to Miss Carmel Driscoll and Richard Murphy. Dancing was afterwards enjoyed until 1 a.m.
