Lack of Appetite

When Due to Indigestion, Acid, Sour, Stomach, is Restored by a Stimulating Digestive Tablet.

Batescourt School

WILL RE-OPEN SEPT. 5, 1922. Pupils received in all grades, including Primary and Collegiate classes.

PLUMBING ON THE FARM

Running Water Not a Luxury, But a Necessity.

Practical Hints on Home Installation—The Water Service Pipes—The Fixtures—Have a Good System of Drainage for Waste Water.

(Contributed by Ontario Department of Agriculture, Toronto.)

A plumbing system consists of three main parts: Water service, fixtures, and waste pipes.

The Water Service Pipes.

The duty of these pipes is to convey the water from the supply to the fixtures. They should be galvanized iron of first-class quality, and the size for the house is 1/2-inch, except the one that connects the hot water boiler to the kitchen range or furnace, which is 3/4-inch in size.

Test the Pipes for Leaks.

After they are installed and before they are covered up either under floors or in partitions, and before they are covered up for good, the water should be turned on under good pressure and a thorough test made for leaks, not only at the joints but all along the pipe line.

Be sure the man operating the threading tool knows his job and does it properly. It is very essential that the water pipes be located safe from frost, and therefore it is highly advisable to keep them away from the outside wall of the house or stable, if possible.

It is particularly imperative to keep the pipes connecting the hot water boiler to the kitchen range or furnace fire box from freezing, as a stoppage in this line would cause a blow-out upon the fire being started in the morning, and serious loss of life or property would likely occur.

Plumbing Fixtures.

These comprise the kitchen sink, laundry tubs, bathtub, lavatory sink, and closet. There is a considerable variety in the style and quality of these articles, and naturally a large range in prices.

The cost of a standard outfit is about as follows: Lavatory sink, complete with trimmings, \$24.50. Closet, complete, \$35.00. Kitchen sink, 30 x 48 inches, with bibbs and trap, \$23.35. Laundry tubs, \$55.00. Bathtub, 4 1/2 or 5 feet, \$65.00, or total of \$204.35.

A Drainage System.

This part of the plumbing system consists of the soil pipe or stack that extends from the sewer up through the house and out beyond the roof. All the wastes drain into this pipe and by it are carried to the sewage disposal system.

Write the Department of Physics, O. A. C. Guelph, for advice, and for a copy of Bulletin 267, "Farm Water Supply and Sewage Disposal."

Few gardeners realize the importance of pulverizing the soil as deeply as it is ploughed. No matter how perfectly the surface is prepared, if the soil is coarse and lumpy below, the plants will not thrive.

Decrease in Living Costs.

London, Oct. 18.—The Labor Department's cost of living statistics show an average level for September 30th, of 78 per cent. above the pre-war figure, compared with 79 per cent. on August 31st.

Last month's level is the lowest since October, 1917.

DEATH OF A WORTHY MAN.

William J. McGill, Camden Township at Rest.

One of the worthy and highly respected citizens of Camden township, passed away on Oct. 5th, in the person of William J. McGill, who was born in the township, near Centreville, on Feb. 12th, 1848, and, with the exception of a few short visits to other points, spent all his life therein.

On Nov. 5th, 1875, he was united in marriage with Annie Copeland. On his farm he worked faithfully, and with method and perseverance succeeded in building up a valuable property. In the church he was ever a fervent worshipper and attended faithfully to the work of the various offices given him.

The funeral services of Saturday last, which were attended by a large number of friends and relatives, were held in the home and the Methodist church, and were conducted by his pastor, Rev. M. W. Leigh, B. A., and the officers of the lodges of which he was a member.

Township Councils

WOLFE ISLAND.

Oct. 14th.—Municipal Council met at 1 p.m. Members all present. Minutes of last meeting confirmed. Steamboat accounts paid: Allan McDonald, \$90; John Gray, \$90; Wm. Armstrong, \$60; H. Marlow, \$55; M. Weir, \$40; C. Kenna, \$40; R. Spoor, \$300; R. Crawford, \$10.50; Bell Telephone Co., \$3.08; Kingston Laundry, \$2.73; British-American Oil Co., \$21.57; Pyke Towing & Salvage Co., coal, \$982.33.

Township accounts paid: Hanson, Crozier & Edgar, printing, \$47.58; Henry MacRow, stone, \$500; Henry MacRow, stone, \$500; Thos. Moran, balance, overseer in full, \$47.50; Henry MacRow, bal. on stone in full, \$391.55; Geo. A. Rattray, Township Fair Grant, \$25.

Moved, McAdoo-Murphy, and resolved that Township sell the stone bin to George McDonald for \$750, one-half to be paid in cash, balance by note for one year at 6 per cent. per annum. Moved, Spoor-O'Shea, and resolved that By-Law No. 510 be passed according to Municipal Amendment Act, 1922, Chap. 71, Sec. 3, that nominations for seven and councillors be held on last Monday in November and elections on

HINTS FOR THE MOTORIST BY ALBERT L. CLOUGH. Locating Steering Gear "Jiggle"

Consistent Lubrication Will Postpone The Necessity For This Operation

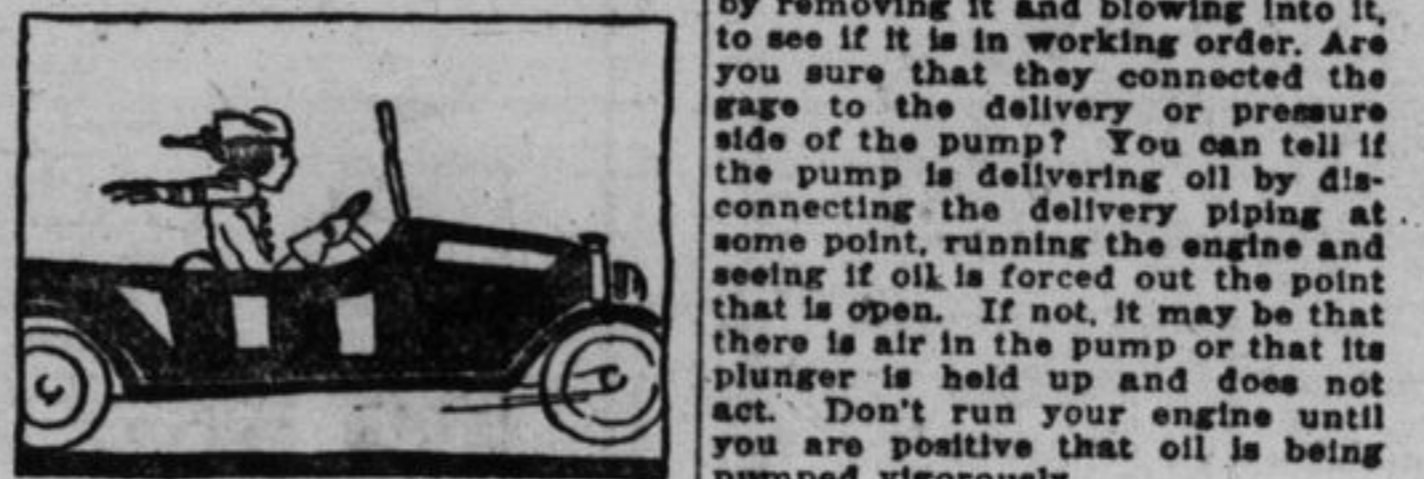

CAN YOU turn the steering wheel of your car several inches at the rim, without deflecting the front wheels? Much more than an inch of lost motion is too much, as it makes steering not only laborious but the response a little less prompt than safety demands.

BRAKING WITH THE ENGINE

G. H. A. writes: I understand that the usual practice in stopping a fast moving car as promptly as possible is to shut off the gas, push out the clutch and apply the brakes.

INOPERATIVE OIL-PRESSURE GAGE

D. G. writes: There was no oil-pressure gage on my car and, after I had some bearings burn out, I had one installed upon the dash, but as it did not work in that location it was moved to the floorboard, where it works no better.

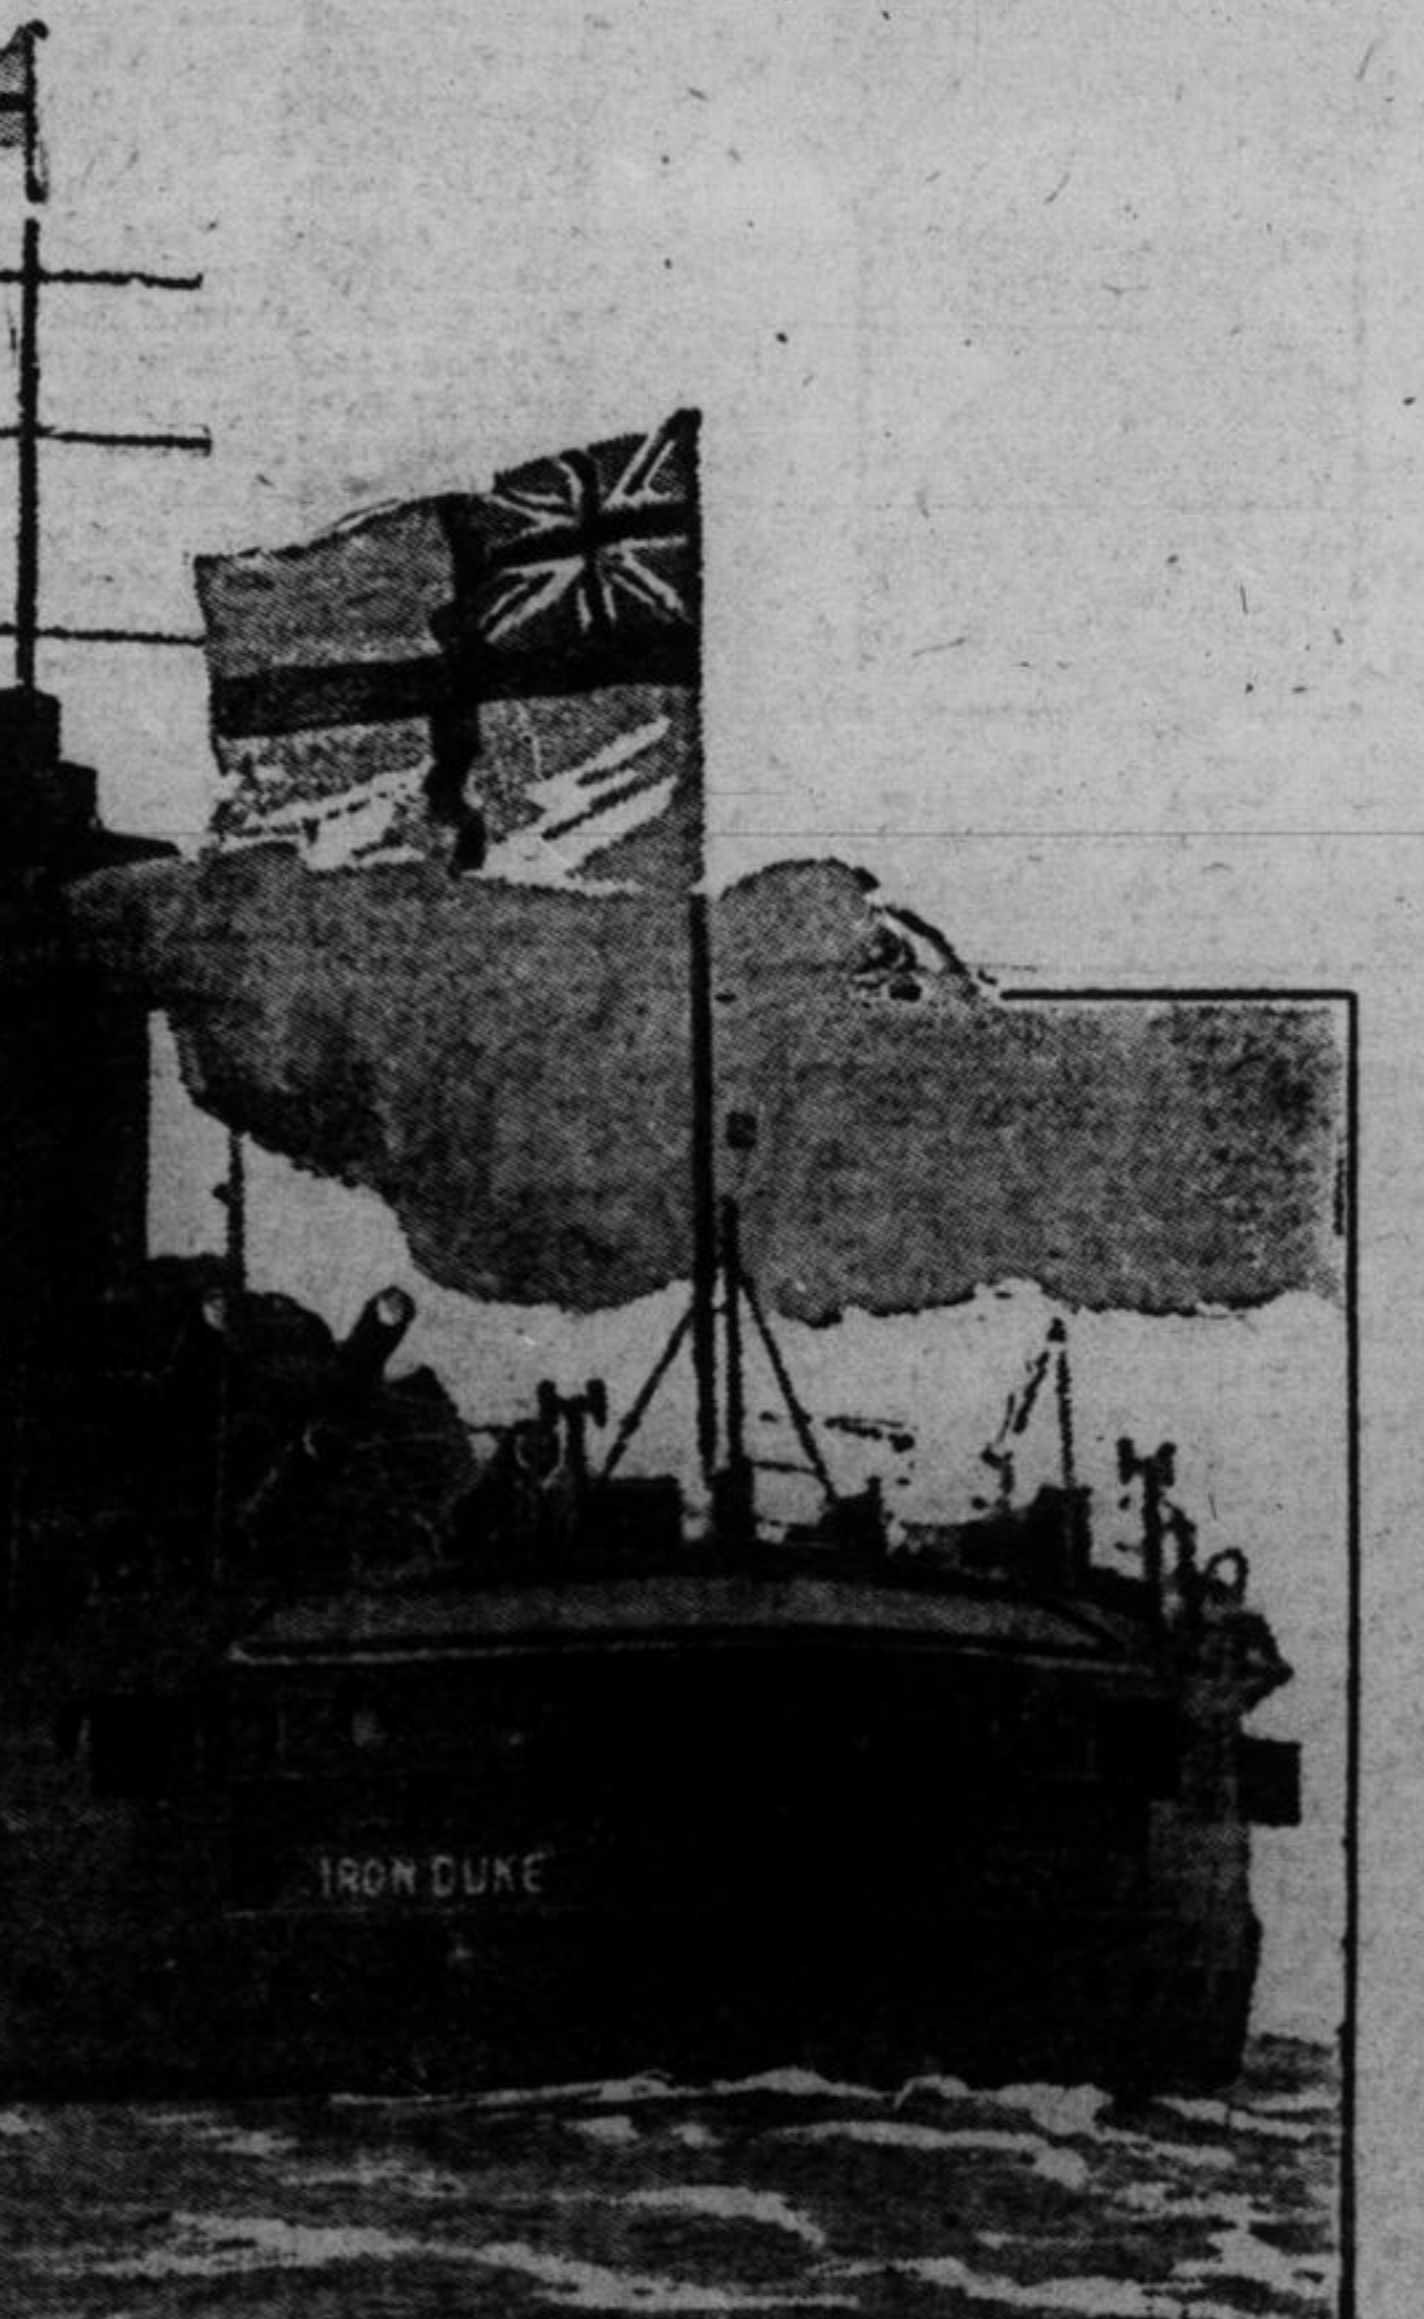

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

New Law Firm. Messrs. James W. Bicknell, son of the late James Bicknell, K.C., and James M. Forgie, son of J. G. Forgie, barrister of Pembroke and

CASTORIA For Infants and Children In Use For Over 30 Years
