## Dissolve Your Corns—Hot Foot Bath Best—Is Always a Success.

This is the best and surest way to get rid of corns and callouses. Perfectly clean and painless always, successful too, if you do it in this way. Cover over the corn or callouses with a few drops of Putnam's Painless Corn Extractor. Do this morning and night. Take a hot foot bath and the thing is done. Simple, of course it is. Successful, yes, it always is. Costs but little. Use Putnam's Painless Corn Extractor and you are sure to get rid of corns, foot lumps and sore callouses that have kept your feet sore, lame.

U. S. AIR SERVICE (RESERVE)

## COMMON MOTOR AND GENERATOR TROUBLES.

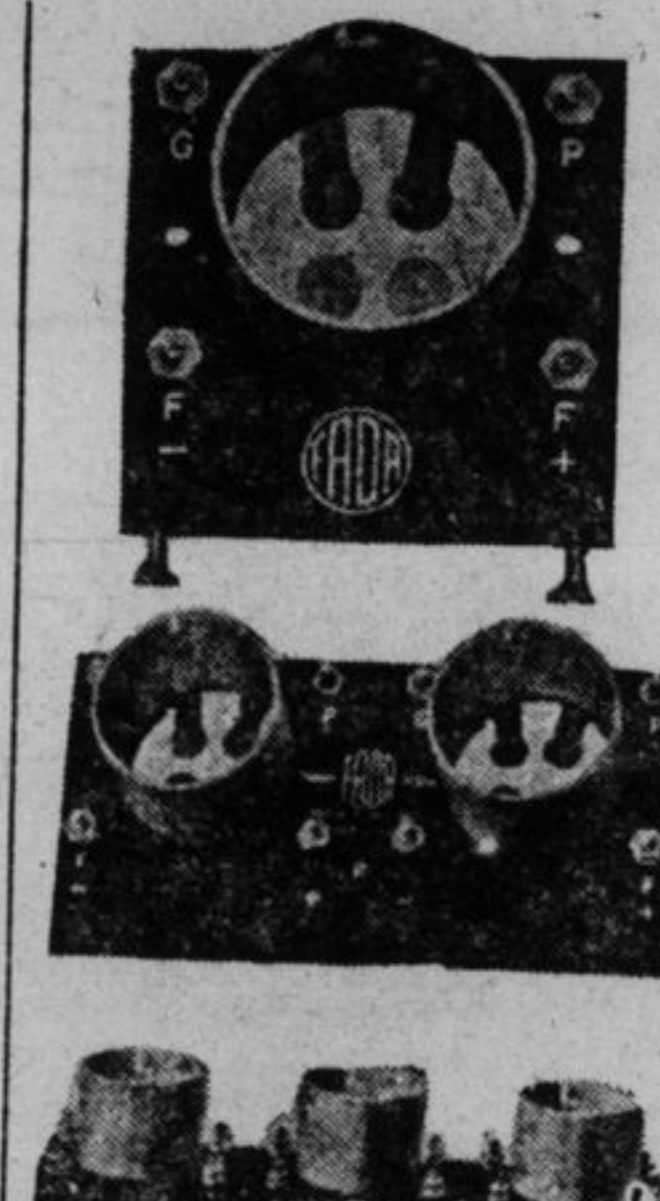

Electrical machinery is subject to the same troubles as other machinery, such as rough, gritty, dry or tight bearings, bad alignment, sprung shaft, etc., which show themselves by heating, taking excessive power or vibration. The bearings must be smooth and clean. Care must be taken never to spring or jam the shaft. There must always be oil of good quality in the oil wells to keep the bearings thoroughly lubricated. Most generators and motors are oiled by means of brass rings that ride on the shaft and dip into the oil and carry it up as they turn. Sometimes these are injured in taking the machine apart; then they do not turn properly; the bearing runs dry and heats, sometimes "freezing" to the shaft. Some machines have ball bearings. They should run very easily, but are subject to the same troubles as, say, a bicycle bearing, such as broken balls, grit or adjustment too tight. In general, if a bearing gets too hot to be borne by the hand it needs attention; the trouble is likely to grow worse until finally the shaft binds firmly and cannot be turned. The job of getting it free again is likely to be a tedious and troublesome one, necessitating dismantling the machine and utilizing lathe work to rectify the trouble. Another point of friction is at the brushes. If they are pressed in too firmly they rub harder than is necessary. They should be fitted smoothly so as to give the full area of electrical contact, then excessive pressure will not be required. They should be only tight enough to make good contact and prevent sparking or flashing. When carbon brushes are working properly the metal surface on which they rub becomes finely polished and wears down very slowly. This is particularly noticeable in the case of copper commutators on direct current machines.

# APPARATUS AND DEVICES

By RALPH BROWN, RADIO ENGINEER

## SOCKETS.

The sockets illustrated are made with phosphor bronze contact springs securely held in milled grooves in the bottom of the bakelite base. They are absolutely firm and cannot move except as a tension against the bulb base contact pins. The socket shell is made of heavy brass tubing, with a bayonet lock joint, securely molded into the condensate base. The socket shell is also offset to allow panel mounting. The base has metal inserts for panel mounting, screws being supplied with the sockets. These inserts are firmly molded into the bakelite base and make a most substantial mounting to the panel. They are made in single, double and triple sizes.

Will readers interested in these radio articles kindly communicate with the editor by mail?

## WIFE'S BODY IN TRUNK.

Paris, Nov. 15.—M. Brunier of Riom went to work yesterday, as usual, leaving his wife at home. When he returned he was unable to find his wife anywhere, until after a long search the smell of charcoal fumes guided him to an old trunk. Opening the latter, Brunier found the dead body of his wife. Having placed a charcoal briquet in the trunk, she slammed shut the lid. The cause of the extraordinary suicide is unknown.

## Stops Bronchitis Quickly Helps Irritable Throat Ends Sneezing, Coughing

Relief comes at once when you breathe in the soothing vapor of Catarrhose. Once its healing, piny essences strike the bronchial tubes you realize that a powerful treatment is at work. Irritation can't live in the throat of a person inhaling Catarrhose. It is so soothing, so warming, so full of concentrated healing power that you get results at once. Catarrhose strengthens the weak throat, stops the cough, removes that hacking, irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real friend. For coughs, colds, catarrh and winter ills, nothing in the family could be better than the complete dollar outfit. Small size 50c. Trial size 25c. All dealers, or The Catarrhose Co., Montreal.

How hard it is for mortals to unlearn beliefs bred in the marrow of their bones. Those who do their best soon find themselves mounting the ladder of success. In business many are fishing for best whales with minnow hooks.
