Shell-Shocked Soldiers Helped, Says Paint Man.

Atlantic City, Nov. 15.—How paint has been instrumental in helping shell-shocked soldiers to regain their health, will be brought to the attention of the delegates to the Paint Congress, opening tomorrow jointly at the Ambassador and the Ritz-Carlton hotels. Three national associations linked with the trade are to gather at the same time—the National Varnish Manufacturers' Association, the Paint Manufacturers' Association of the United States, and the National Paint, Oil and Varnish Association.

"A young soldier, a mental wreck, after being buried four days by the explosion of a shell, during which time he was kept alive by compressed oxygen," said S. T. Ballinger, of New York, who will have a prominent part at the convention, "was experimented on by the doctors. He was taken in a room beautifully finished in vivid red.

"I can't stand this," he cried. He was then taken in a violet room, which produced a vibratory action on his nerves, and induced an unfavorable reaction. But when escorted to a room finished in primrose yellow, he gave a sigh of relief. "I am quite comfortable now," he said. He was given free access to this room and his recovery was rapid.

"It has also been discovered," continued Ballinger, "that a room finished in a dark color induced melancholia and a general disinclination toward work. One finished in red produces a temporary stimulating effect, but it followed by reaction, which often causes a nervous headache. Blue induces an apparent calm; green, happiness and vitality, an yellow amiability.

Change is a good thing in your pocket.

ILL AT LIGHTHOUSE.

Distress Signals Brought a Steamer To the Rescue.

Charlottetown, P.E.I., Nov. 15.—Distress signals flying from the lighthouse at Bird Rock, Magdalen Islands, attracted a marine department cruiser yesterday morning, and when officers reached the scene they found the lighthouse keeper, his brother, a male assistant Bourke and an aged lady, Mrs. Turbide, mother-in-law of Bourke, very ill and Bourke's wife attending them. Three men and two women were rushed to Georgetown, but no doctor was available there and they were brought to Charlottetown. Bourke died on the trip. It is presumed that they were suffering from some form of poisoning.

Coal Prices at Port Arthur.

Port Arthur, Nov. 15.—New coal prices prevail here to-day, owing to the action of the federal fuel advisory committee at Ottawa. The prices now are: Stove and nut, \$19.50 ton, formerly \$21.50 for stove and \$21 for nut; egg coal is cut from \$19.50 to \$19, and pea coal from \$17 to \$16.

Birth Rate Decreases in France.

Paris, Nov. 15.—There were 70,000 fewer children born in France this year than last, according to figures published by Le Journal today. The statistics were gathered by the National Alliance for the increase of the French Population.

RAISED TO AN EARLDOM. Plain Frederick Smith a few years ago. Viscount Birkenhead has risen rapidly, under the regime of Lloyd George. He is now to be raised to an earldom, in the ex-Premier's honor list.

SUDDEN DEATH AT DESERONTO.

Of Marshall Oliver Who Expired in His Store.

Deseronto, Nov. 13.—Death came with awful suddenness to Marshall Oliver this morning about 8 o'clock. Mr. Oliver was one of the oldest business men in the town, being one of the firm of Donohue & Oliver for over half a century. They have conducted the big dry goods and grocery stores on Main street. Mr. Oliver had entered his store as usual and was in the act of putting some fuel in the furnace when he suddenly succumbed. His half brother and partner, Mr. Donohue, died about three years ago.

Mr. Oliver as a man was highly respected. He was an Anglican in religion. His sister, Miss Oliver, died several years ago. Miss Spelman, a cousin, resided with Mr. Oliver.

The American Standard church has opened a mission here in the hall over Sager & Stover's grocery store on St. George street. Miss Argue, who has charge of the Napanee mission, has worked untiringly the past two weeks to get the hall in readiness.

Two autos collided in Napanee on Sunday afternoon. A Ford driven by Mr. Johnston was badly smashed and the other car, a McLaughlin, got off with a bent axle. Mr. Johnston received several cuts and bruises but nothing serious.

Rev. Mr. Radcliffe, St. Mark's church, preached two splendid ser-

mons on Sunday last to large congregations. In the morning he spoke on the armistice in a very feeling and befitting manner. In the evening E. V. Pearce sang "Abide With Me," in splendid voice.

The farmers around this district are glad of the mild weather as it enables them to get a lot of plowing done.

Notes from Warburton.

Warburton, Nov. 14.—The fine open weather is aiding the farmers to complete their plowing. While plowing on Saturday, Vernal Cross received a severe kick on the arm by a young colt. W. Griffin has returned from the west. The spirit of community work was observed here on Wednesday when a number of ladies of this section gathered at the home of W. Sales and did a fine lot of sewing for the latter's three children. Miss Gene Steacy is attending the agricultural school at Kemptonville. Miss E. Earle attended the Queen's Varsity game at Kingston on Saturday.

Among the recent visitors were David McCready, Brockville, at R. McCready's; Miss Mac Macdonald, Toronto, at Thomas Ruttle's; J. Moorehead and family of Long Point, at C. A. Lee's; L. Leadbeater, Ellsville, at Robert Steacy's; B. Fodey, Lansdowne, at J. Fodey's.

We build our own characters—one builds a palace, another, a prison.

All Our Christmas Goods Are In, And It Will Pay You to Purchase Now and Save a Good Many Dollars.

BARNET LIPMAN 107 PRINCESS STREET

IN A BAD STATE.

Ill With Tuberculosis in The Danemora Prison.

Ogdensburg, N.Y., Nov. 15.—William B. Davis, known throughout Northern New York for his meteoric career as a self-styled wealthy western rancher, whose activities in one section last spring earned him a wife, caused his arrest on the charge of passing a worthless check for \$1,668 in payment to a Potsdam garage owner for a touring car, and finally resulted in his imprisonment in Danemora prison for one year for grand larceny, first degree, has contracted what prison authorities believe to be tuberculosis and is now confined to the hospital for treatment.

Davis has contracted the disease during his incarceration, it is said, although when he entered the prison he was in a rundown condition from worry and confinement in the St. Lawrence county jail at Canton.

His wife, Mrs. Margaret Moore Sterling Davis, Watertown and Potsdam, is now suing for annulment of her marriage, which took place in Watertown late in May. She charged misrepresentation on the part of Davis before marriage, in that he claimed to be owner of an immense ranch in Wyoming. He later admitted this assertion to be untrue.

Chance favors the prudent.

City Water and Milk

At present the local Health Commissioner has publicly announced that all city water should be boiled—because it is not pure.

Milk can be and, in many cases, is not pure, and to the consumer is just as injurious to the health as impure water.

Milk from PRICE'S DAIRY is pasteurized and clarified, thereby assuring their customers of only the purest milk it is possible to get.

PRICE'S DAIRY

Lumber Mills Close Down.

Pembroke, Nov. 15.—The Pembroke and Colonial Lumber companies' mills closed down yesterday for this year, having run since the first of May, and remained cutting two weeks later than last year. The 400 men employed in these two mills will, it is expected, become absorbed in other industries, while others will go north into the woods to work in the shanties these companies operate there.

Grudging praise is the most despicable form of stinginess.
