DECIDE ON TRUNK SEWER QUEEN'S DRAMATIC CLUB

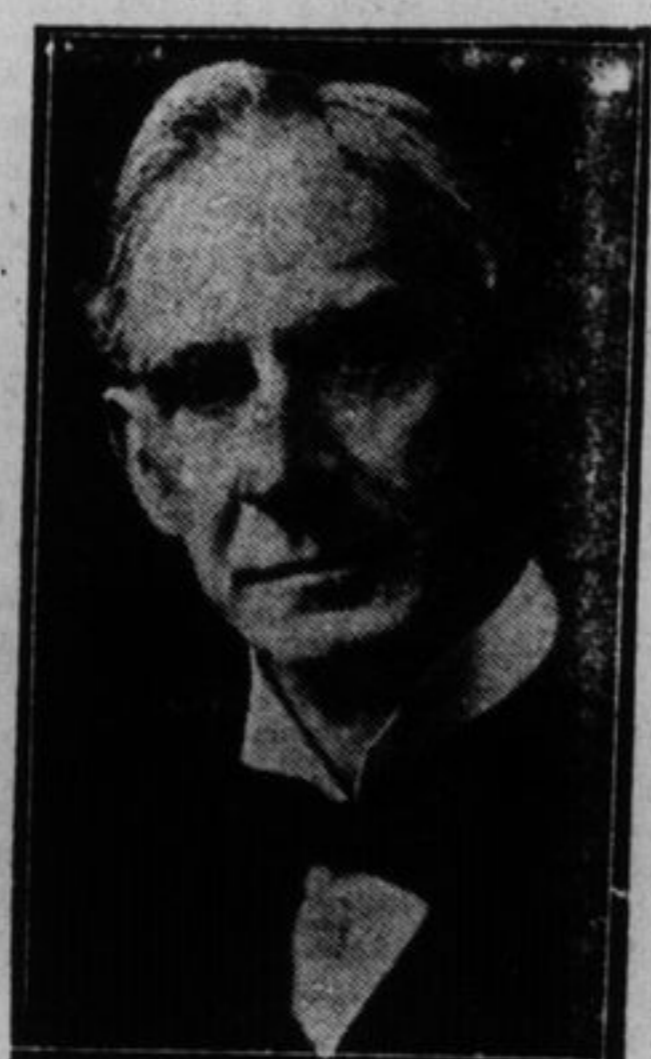

From Montreal Street Near Depot School Down to the Marsh.

The Board of Works on Wednesday afternoon decided to recommend to the city council that a trunk sewer be constructed from Montreal street, near the Depot school, to the marsh a distance of about twelve hundred feet. This could later be continued on up to Division street and north to the extreme limit of the fair grounds in order to drain land in the township of Kingston. The township at present is unable to make an agreement regarding the sewer, but may do so next year. At present however, the sewer is needed to drain land above Montreal street.

The board is favorable to erecting a storm fence inside Macdonald park from Barrie street to O'Kill street in order to keep the snow-drifts from King street. The board has to pay out money every winter after storms to shovel out the roadway, and it is thought that a storm fence will be cheaper in the long run. The fence will cost probably one hundred dollars, and will be erected if the finance committee will provide the board with a little more money.

Charles Martin applied for permission to erect a verandah in front of his house on Clergy street, between Brock and Princess. It is in a brick row which is right on the street line, and a verandah would block their view of the street. The matter was left in the hands of the city engineer to decide.

In attendance at the meeting were Ald. Graham, (chairman) and Alds. Richardson, Cohen, Driscoll and Nash.

RT. HON. LIEF JONES
Noted British prohibitionist, who was in attendance at the convention of the World League Against Alcohol in Toronto.

Presents "The Importance of Being Earnest" at the Grand.

At the Grand Opera House on Wednesday evening the Queen's Dramatic Club presented their annual play, this year the production being "The Importance of Being Earnest" by Oscar Wilde. "Theatre night" is looked forward to with great interest by the student body of the university, and judging from the enthusiasm shown last evening, the production made a decided hit. This play was first produced at St. James' Theatre, London, on February 14th, 1895. It is a delightful comedy in three scenes, and the cast was well balanced.

J. D. Cash Mahaffy, in the role of "John Worthing, (of the Manor House, Woolton, Hertfordshire)" was splendid. The mystery of the play centred around Mr. Worthing, and although he found himself in quite a dilemma, the sky cleared and he was made quite happy in the end. "Algernon Moncrieff," "a friend of John Worthing," was played by Oscar F. Lundell, who handled his part in a capable manner, and incidentally was successful in winning the hand of "Cecily Cardew." John Worthing's charming ward, Miss Lois Osborne filled the role of the ward to perfection, and was very sweet and charming indeed. Miss Evelyn Wilson took the part of "Lady Bracknell" in a most creditable manner. The role of her daughter, "Hon. Gwendoline Fairfax," was taken by Miss Gladys Montgomery, who made a very winsome little maid, and her acting was all that could be desired. Miss Edna Bailey, as "Miss Prism, companion of Cecily Cardew," handled her part splendidly, as did Mr. J. Neil MacMurchy, in the role of "Rev. Canon Chasuble, D.D., rector of Woolton." Austin F. Cross, as "Lane," Mr. Moncrieff's manservant, was good, while Paul Glasgow, "Butler to Mr. Worthing," acted the part in an excellent manner.

The students made things lively before the show commenced and during the intermission by throwing beans, peas, macaroni, flour and pepper. On a couple of occasions the actors were showered with coppers.

The pictures of candidates running for Alma Mater positions were thrown on the curtain. The members of Queen's senior rugby team were the guests of the management of the Grand Opera House and the Queen's Dramatic Club. The players occupied the front seats in the orchestra.

The "Importance of Being Earnest" was presented in Kingston about twelve years ago by the late Lawrence Irving, son of the late Sir Henry Irving. Lawrence Irving lost his life by the sinking of the steamer Empress of Ireland in the St. Lawrence, after making his Canadian tour.

The following is the executive committee of the Queen's dramatic club:
Hon. president, Prof. N. J. Symonds; president, J. D. Cash Mahaffy; secretary, Oscar F. Lundell; producing director, Prof. C. A. Ashley; business manager, Harold Spencilly; assistant business manager, F. Gerald Keyes.

Letters to the Editor

Should Abolish Hazing.
Toronto, Nov. 28.—(To the Editor): The Queen's rugby team are to be congratulated on their victory last Saturday. It was well earned and without resorting to rough tactics, so much in evidence in some of the other teams.

By the way, it is to be hoped that Queen's will be the next to fall in line to abolish hazing. It has nothing to recommend it, and can hardly be called sport, especially as the freshmen are generally outnumbered six or more to one. Is that a square deal?

Hazing has become so brutal in the various universities that it should be prohibited. This can be done by expelling the ringleaders for the term.

Wishing the Queen's the best of luck next Saturday and best regards to Boo-Hoo.

Yours truly,
—A. CAMERON.

REV. R. B. HAMMOND
An Australian delegate to the World League Against Alcoholism, in Toronto. Ends "interesting sinners better than state saints." In ten years 35,000 people convicted for drunkenness have passed through his hands.

Some citizens are inclined to believe that there is nothing to be gained by having the municipal elections in Kingston held at an earlier date.

ONE OF THE PYKE TUGS TO RESCUE

The Horace Taber Will Be Lightened—Can't Touch Lyman Davis.

One of the Pyke tugs with a scow cleared for the Horace Taber, wrecked at Four Mile Point, on Thursday morning, in an endeavor to lighten some of the cargo. The Maggie L. belonging to the Donnelly Company, and the tug Wm. Davis also cleared for the vessel.

The tug Mary P. Hall was unable to reach the schooner Lyman Davis, owing to the heavy seas raging, and was forced to return to the city.

Marine men state that it is almost impossible to get men to sail the steamers this time of year. The government tug Mary Stewart, which arrived in the city on its way to Sault Ste. Marie, experienced considerable time in getting sufficient men to man the tug. It is a common occurrence for the captains to pick up a crew and when the time arrives to sail none of the men who promised to go are available. On Thursday morning the departure of the tug was delayed on account of the lack of men.

The tug Mary Stewart cleared for Sault Ste. Marie on Thursday morning.

The steamer Mapleboro arrived down from Port Colborne on Wednesday night and cleared for Montreal. She will return here to lay up for the winter.

The steamer Simla entered the Collingwood Shipbuilding Company's drydock on Thursday morning for minor repairs.

The tug Bronson will probably lay at Port Dalhousie for the winter.

NO SHORTAGE AT PRESENT.

The Difficulty Experienced Is In Delivering Coal.

Referring to a statement in the Whig on Wednesday regarding the supply of fuel in the city H. C. Nickle states that he was informed by a woman, the wife of a soldier, that she could not obtain any nut coal for her range from local dealers, and that there was none of this size coal to be obtained in the city.

The Whig made inquiries regarding the matter, and was informed that, while there is not as much coal of all sizes on hand as formerly, there is no shortage at present. Dealers do experience some difficulty in making delivery at the time customers call, but this is just a matter of delivery, and a delay of a day or more is sometimes necessary as orders have to be filled in their turn.

THE CHEESE MEN KEEN ABOUT MARKETING

Hoping For a Change So They May Obtain a Bigger Return.

The cheese makers and patrons of the factories in Frontenac county are looking for a vast change in the marketing of cheese in order that they may obtain a bigger return from the industry. During the past season the maximum price paid came only at the end of the season, but it is claimed that had the industry been properly organized on the co-operative basis, the maximum price would have been obtained throughout the entire season.

"We have got to take up this matter of a co-operative sales organization," said one prominent resident of Pittsburg, to a Whig representative on Wednesday. "I fear that many farmers hesitate because of the feeling that the whole thing is merely a political scheme. We have been victims of Tom fool political tricks for so long that we hardly know sometimes what to do but although this has been so, I believe that we should judge this proposal to pool the entire output of our cheese factories on its merits, and as a life-long patron I am going to go into it and urge all of my associates to do the same. But on the question of politics I am going to be independent. It is this thing, politics, that has played havoc with the whole co-operative business. Nevertheless, co-operation in the farming industry has got to come as

it is the only way by which the farmer can hope to obtain the highest returns."

HORSE WALKED INTO STREET SEWER GRATE

Call Sent to Auto Service Station and Animal Was Soon Rescued.

Quite a flutter of excitement was caused on Princess street about 8:20 o'clock on Wednesday evening, when a horse, owned by Nelson Northmore, slipped into a sewer grate opposite Best's drug store. Before the animal could be rescued a call had to be sent to Boyd's service station, and then it was not long before the animal was rescued by being "jacked up," the jack being placed under its stomach.

It is stated that the horse had a very close call from having its front legs broken. It suffered some cuts about the legs.

So far as is known, this is the first
