France And Germany When Latter Can Fight.

## FRENCH IN RUHR TO STAY

## Germans Do Not Expect Their Enemy to Leave For a Long Time.

Dusseldorf, Feb. 28.—The most startling feature of the Ruhr occupa- Trudges Miles in Snow tion is the calm complaisance with which both the French troops and the inhabitants accept the idea that there will be another Franco-Gercome of the occupation?"

French and Belgians ever get out daughter. and on what conditions?" The correspondent has asked Premier Poingare, General Degouette, Herman man, and many persons in the in- claims Raitt was about to attack him

Premier Poincare said: "We will body. refuse to evacuate until Germany proves she will execute the Versailles Crowd in Quaker City treaty and give sufficient guaran-

Here For Thousand Years. General Degouette said "If Germany doesn't pay us for a thousand years we will be here for a thousand mears."

Regardless of official opinions the correspondent sought the view workers and of French officers and poilus. A grimy German mine foreman pointed to a group of children swarming in the streets of this as of every Rhineland town, Herman Meyer was his name. When did he think the French would go?

"Not until those boys have grown up and drive them out by war." German business men, who evidently thought as does their government, shrugged their shoulders when asked this most vital political question of Europe. "God knows, it will be a long time.".

## French Policy of Security.

The essence of opinion gathered by the correspondent in Paris and in the Rhineland leads to the belief that French ideas are swinging more strongly each day toward a policy should maintain control over the the department of health. Ruhr in some manner, without anventing Germany getting into a posi- pendent, Comox-Alberni, advocated tion for war on France again. There heavier penalties for ds justice for this thesis in the gen- against the drugs. eral belief of the inhabitants that there will be another conflict, either in five years or in fifty. The Germans for their part, declare French business men want to seize the rich in dustries of the Ruhr.

"Do you think it is worse to exeambassador to send a formal re- cute a woman than a man?" Mrs. "I am not more for a woman than

for a man," she said, "though I would save a woman at all costs. A woman is life. She protects life and ought never to be executed."

"I was surprised and horrified to hear that England, who should have led us in this matter, had executed a woman."

"If she had not been torn by unrest and factions she would have been leading us. That is the only reason that can account for such an action from England who should have led the world on this point. Canada has had several years of quiet and there is no reason why she should not take a lead.

"If we must have executions, have them in public so that the people can see what is being done in their name."

Mrs. McKenzie concluded: "But if we go on permitting state killings. let us not call ourselves Christians. "If we are atheists and do not believe in another life, by all means let us go on inflicting capital punishnent. But a Christian nation canno

### Parliamentary Committee Not ness was suffered. Considered Necessary to Study Coal Problem.

Ottawa, Feb. 28 .- "The Government feels that no good purpose o would be served by appointing a special committee of the House to consider Canada's fuel problem with a view to the adoption of a national

and British coal policy for Canada." This information was given to T. Church (Conservatve, Toronto North) in the House of Commons in | tails of the battle are not answer to a series of questions placed on the order paper.

The government, it was stated further, had created the dominion fuel board to investigate the recurrent unsatisfactory fuel situation and seek a solution. If funds were provided as proposed in the estimates for the coming fiscal year, that board would initiate various investigations with a view to finding satisfactory substitutes for anthracite coal and to suggesting means to alleviate the inconveniences arising from the frequently recurring unsatisfactory fuel situation.
