

Has Fate Smashed Gladys Deacon's Marriage To Her Friend's Husband?

The former Duchess of Marlborough, now Mrs. Jacque Balsan

Duke of Marlborough when he married Consuelo Vanderbilt

NEW YORK—Reports that the Duke and Duchess of Marlborough, the latter the former Gladys Deacon of New York, are contemplating a separation, are shocking society. For many years the present duchess was the close friend of her predecessor, the one-time Consuelo Vanderbilt. When Consuelo married the duke, however, her mother, Mrs. Oliver H. P. Belmont, refused to allow the then Miss Deacon to attend the wedding because of an old scandal. When the duke fell in love with Gladys Deacon, Consuelo secured a divorce and her friend succeeded her as Duchess of Marlborough. Thus, ironically, the very woman barred from the wedding married the Duke herself. And now society hears the end of her romance is near.

Tut! Tut! Not All "Ruins" Are In Egypt; Pre-Roman Relics in Panama

Carved from stone by the Mayas

John Q. Critchlow

Chiriqui pottery taken from old graves in the province of Chiriqui, Panama

SALT LAKE CITY.—Why go to Luxor, Egypt, to delve into antiquity's secrets? John Q. Critchlow, of this city, railroading in Panama, has uncovered the ruins of a pueblo on the side of El Volcan de Chiriqui, an ancient volcanic mountain, which rises 11,600 feet above sea level. The wonders of ancient art found there include workings in solid gold, pottery, and curious hieroglyphics carved on rocks, the remains of a civilization of the Maya people, forefathers of the Aztecs which existed long before the days of Caesar.

TELLS RHEUMATICS TO BEGIN ON SALTS

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation; then our meals, sour like garbage in a can, forming acid fluids and gases, which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast, while it is effervescing, and furthermore, to continue this for one week. While relief often follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with bicarbonate and sodium phosphate. This harmless salt is used by thousands of stomach sufferers with excellent results.
