

PROBS:—Tuesday, fair, higher temperature.

This picture shows a Stone Age hunter plugging his trusty spear into the body of a lioness at the mouth of a cave.

Next—Moving Into Caves. (Copyright John F. Dille Co.)

### CHILD'S STORY OF THE HUMAN RACE By Uncle Ray

Chapter 8.—Stone Pointed Spears. Yesterday we spoke of some of the animals which Stone Age people feared. We mentioned the saber-tooth tiger, the mammoth and the big-horned rhinoceros. Those were terrible enemies, but there were still others.

On the faces of cliffs and on the sides of hills were many caves. In these lived lions and bears!

The cave-bear was a ferocious creature. It was even bigger than bears of today. It had strong, sharp teeth, and claws which could make great gashes in the flesh of a man. If a person happened to walk near the mouth of a cave, one of these cave-bears was likely to rush out and tear him to pieces. The weapons men then used were not good enough for fights with such an animal.

The cave-lion was just as fierce. People had always to be on their guard against it, as well as the cave-bear. Life must have been full of terror for everyone.

By thinking they got the idea of a better weapon, of a weapon which could be used to slay bears and lions. This weapon was the spear with a stone point. Before it was devised, a sharpened stick had been used as a sort of spear—but the point was not strong enough.

A clever hunter hit upon the idea of putting a stone point on a wooden spear. He knew that stone was much tougher than wood.

This hunter cut off the wooden point of his spear.

### DISTRICT MARKETS

Napanee Retail Market. Napanee, April 14:—

Apples	40 to 75

### The Coughs And Colds Of Children

Only the mother knows how hard it is to keep the children from taking cold, they will get overheated and cool off too suddenly, get their feet wet, kick off the clothes at night, and do a dozen and one things the mother can't prevent.

A great many mothers are now giving their children

### Dr. Wood's Norway Pine Syrup

It is pleasant and nice for them to take and relieves the cough or cold in a very short time.

Mrs. J. Wilson, Portage La Prairie, Man., writes:—"I have used Dr. Wood's Norway Pine Syrup for my five children. My little girl, two years old, had a very bad cold last winter, which I thought was croup. I had some 'Dr. Wood's' in the house, so gave it to her and she was fine the next day; also my baby, three months old, had a bad cold and I gave it to him. It cuts and brings up the phlegm, and is the best cough medicine I ever used."

Price 50c. and 60c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

### MEDALS FOR NURSES.

Who Wrote Essays on Prevention of Fires. James Armstrong, chief of the fire department, has received three medals from the Ontario Fire Prevention League which is affiliated with the fire marshal's department and which will be presented to three nurses-in-training in the Hotel Dieu and the General Hospital. The medals are given to the nurses who wrote the best essay on "Fire Prevention." Those who will receive the medals are Miss Redden and Miss Walker of the Kingston General Hospital and Miss L. Farney of the Hotel Dieu. As a rule only one medal is given, but the essays written by Miss Walker and Miss Redden were so well done that the judges were unable to say which was the better one, so they decided to give two medals. The presentation will take place on graduation day. The Kingston hospitals are the only ones in the province where the nurses write essays on fire prevention.

### HARBOR STILL ICEBOUND.

But a Strong Southeast Wind Would Clear It. In spite of the fact that the harbor is still in the grip of King Winter, the local mariners are jubilant as to the prospects for the opening of navigation at an early date. They state that the ice, while fairly thick, is in bad condition and that many "air-holes" have been noted during the past few days. The main section of the ice is honey-combed to such an extent that a good south wind would break up the large body and make way for an entire clearance of the harbor.

The action of the sun and wind during the past week has had a telling effect on the ice between the city and Wolfe Island. Outside of the land-locked harbor, and in the open gap to the southwest open water prevails throughout. The passage from the island to Kingston is a very difficult one at present and some narrow escapes from a tumble through the treacherous ice, or worse, have been experienced.

Dr. Freeman, Inverary, was in the city on Monday.

### "BURDEN BEARERS."

An Appeal Is Made For the Red Cross Society. The Dean of Ontario, preaching on "Burden Bearers," in St. George's Cathedral on Sunday evening, referred to the work of the Red Cross, that splendid organization which stood behind our soldiers during the long years of the war, bringing comfort and healing to their bodies and making many a man's religion more real to him through the symbol that stood for Christian love. Those men who came back to us unable to take up life's active duties, often forgotten by a grateful (?) country, were helped and cheered by the Red Cross. To the emergency call from fire-stricken Northern Ontario the Red Cross also responded nobly. Now the work of fighting the dreaded White Plague (tuberculosis), the giving to every Canadian child the chance to become a healthful citizen and the training of nurses are among the aims of this society in which we are asked this week to enroll.

Sixteen divorce bills were put through the committee stage and given third reading in twenty minutes when the House of Commons resumed Friday evening.
