"It's a wonder to me how some folks'll use any old kind o' brake lining when life itself depends on the brakes. I want to be sure about my brakes. I like to feel 'em take hold. That's why I use Raybestos. Rather be safe than sorry. I may pay more for Raybestos, but believe me—it's worth it!"

THE FRONTENAC U.F.O. CALL A CONVENTION

For April 28th For the Purpose of Selecting a Candidate.

The announcement of the early dissolution of the Ontario legislature has created great excitement throughout Frontenac county, and there was a gathering of the U.F.O. leaders of the county in Kingston on Saturday. During the afternoon a meeting of the executive was held in the agricultural hall to consider the situation and prepare for the forthcoming election. One definite decision was reached, namely the necessity for a county convention at the earliest possible date. It was set for Saturday, April 28th, and it will be held at the court house.

Plans were set on foot for the formation of the campaign organization and, it is stated that the executive is confident of the election of a farmer candidate.

There is at present a fly in the ointment due to the disruption of the party in western Ontario, and attack made upon Premier Drury by some of his supporters. "Who will get the endorsement as leader?" is the question frequently asked. There are already factions forming in the U. F. O. ranks in Frontenac, some expressing confidence in Drury, and others condemning Drury and all of his ministers for failure to do more for the farmers. It is apparent that there are many who will use the present situation to break from the U.F.O. The redistribution bill is not expected to effect the situation much. It is expected that the whole of Frontenac county will form one constituency, that Lennox and Addington will be joined.

No names of possible candidates were mentioned on Saturday but it is understood that there is a dark horse whose name is expected to eliminate all other aspirants.
