Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister. Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness. 40c and 75c, at all druggists. The Musterole Co. of Canada, Ltd., Montreal.

WHY?

Try to make yourself a new Hat out of materials that are as common as postage stamps. You spend from \$2 to \$5, spend hours in the making of it and what have you got when it is finished? Something your friends laugh at a block away. No doubt you have a Hat you used to like but are tired of the shape. Let us reblock it up-to-date. You will have a Hat when it is finished. It won't cost more than \$1.50 and probably less.

Condemned in Frontenac.
Andrew Hicks, U.F.O. member of the legislature who assailed his leader, Premier Drury, as being condemned by Frontenac residents for his breach of confidence. "There should be some decency and respect shown for party confidences," said one prominent U.F.O. member, "and Premier Drury was entitled to the opportunity to meet the complaints of his supporters in the privacy of the party caucus. Hicks is the same man who brought forward the bribery charges in 1920."
Hon. J. W. Edwards said he could not blame the premier for his atti-

tude. "Any man who became premier would have to repudiate the class-conscious appeal by which he was elected, and this is the very thing that Premier Drury did," said Dr. Edwards.

Little Fry Are Hatching
The Cape Vincent hatchery has had a successful season. Hundreds of millions of eggs were collected last fall in the waters of Lake Ontario, so many, in fact, that they more than filled the egg jars at the hatchery. Millions more were given to state hatcheries or turned over to the stations of the Canadian government. The little fish are now breaking their shells and swimming forth into the troughs made for them, each baby carrying a balloon-like sack near its head, containing substance for its youthful need. As these rations are exhausted the fish sets about collecting its own food.

"My Heart Would Palpitate, I Had Weak Spells"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:—
"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I did not stop until I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."
