## RELIEVED FROM DUTY ON L. R. STEEL CASE

### Deputy Attorney-General Sent From Buffalo to Albany Acted Strangely.

Buffalo, N.Y., April 19.—Deputy Attorney-general William Cahill, sent to this city from Albany several weeks ago to investigate the collapse of the L. R. Steel enterprises, was, today, relieved of duty in connection with the case by Attorney-General Carl Sherman and directed to return to Albany. It is rumored that the charges against him are likely to follow his relief. Hugh Reilly, another deputy attorney-general and former army officer, has been assigned to the Steel case to succeed Cahill. Cahill is said to have been strangely missing for more than two weeks and special representatives sent to this city by Attorney-General Sherman are reported to have learned certain details of his conduct while in Buffalo that alone caused them to report to headquarters at Albany. His relief followed. Cahill is said to have informed detectives here that he was robbed of \$250 in an establishment in the business district of the city several days ago, but no action is being taken.

Walter M. Wilkins, who is heading a stockholders' movement to renege the Steel Company has not yet returned from Toronto. He is said to be conferring with big stockholders in that city.

HON. HARRY MILLS, Minister of Mines in the Drury government, who has introduced a bill into the legislature which has for its object preventing any but British subjects taking out trappers' licenses.

### WILL PLACE TABLETS ON FORT WELLINGTON

#### Main Defence Post Between Kingston and Montreal to Be Marked.

Brockville, April 19.—On the recommendation of Hon. George P. Graham, minister of national defence, a portion of old Fort Wellington, at Prescott, which has an interesting literary history, has been transferred to the control of the department of the interior, for preservation as an historic monument, until such time as it may be required for defence purposes.

It is proposed to mark the fort with a tablet containing references to its construction in 1812-13, as the main post for the defense of the communication between Kingston and Montreal, and to the assembling there of the British forces which captured Ogdensburg, N.Y., in 1813, and to the assembling there of the force which repelled the invasion of the Windmill, in 1838. The fort is largely the same as when erected 110 years ago.

As an indirect result of the epidemic of typhoid at Cochrane, North Bay municipality has been temporarily ordered by the Provincial Board of Health to install a chlorinating plant for its water supply.

Hard coal for the Toronto city buildings, delivered into the bins, has been offered to the city by one company at \$14.82, and by another at \$15.50, according to tenders opened.

Lord Birkenhead is to make lecture tour in United States.

### Her Three Children HAD Whooping Cough

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but it is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

### DR. WOOD'S NORWAY PINE SYRUP

is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the congested-up air passages of the mucous and phlegm that has collected, and in this way brings on the "whoop" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. H. W. Mahar, Kentville, N. S., writes: "My three children had whooping cough. I tried every medicine I could think of until an old gentleman told me to try Dr. Wood's Norway Pine Syrup. Before they had one bottle taken the cough seemed better, and after two bottles they were about well. It loosened the cough and relieved them of that hard, distressing and strangling feeling that goes with it." "Dr. Wood's" is 35c. and 60c. a bottle. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

### SAFETY FIRST.

United States secret agents are reported to have discovered a huge plot in Germany to invade France by airplane. —From London Opinion.

### FORD HAS A BALANCE OF OVER \$200,000,000

#### His Enormous Expenditures Did Not Affect the Reserve Fund.

New York, April 19.—Ford Motor Company has a cash balance of more than \$200,000,000, according to an interview with Henry Ford, published by the Wall Street Journal.

An enormous sum of money paid out in the purchase of coal and timber lands, water-power sites and branch plant investments came out of the current earnings and did not affect the cash reserve, Ford was quoted as saying. "As yet we have not thought of borrowing any money," Ford added.

### NEW PARTS NOT AFFECTED.

#### Settlers Too Busy in Opening Up the Country.

Quebec, April 19.—While the old parishes of the province are being affected by the exodus to the United States, Hon. J. E. Perreault, minister of colonization, after conferring with his inspectors, was in a position to state this morning that the colonization centres have not been affected by this movement. He commented on the fact that, evidently in those sections where the settlers were busy engaged in opening a new country, any intention to move away was quite removed from their thoughts.

### Senator's Mother Dead.

Cardinal, April 19.—Mrs. John Reid, of Cardinal, mother of Senator J. D. Reid, died Tuesday evening. Two sons, Senator Reid and George Reid, and four daughters, Mrs. Dr. B. Gow, Calgary; Mrs. Charles Virtue, Montreal; Mrs. Meikle, and Mrs. Dodge, Cardinal, survive.

Mrs. Reid was born in Prescott, Ont., and was eighty-eight years old. Her parents settled in Prescott 119 years ago.

### Woman Fined \$200 at Trenton.

Trenton, April 18.—Mrs. Ethel Mountney, was charged with receiving stolen goods from the cottages of Hugh O'Rourke and Gerald Murdock. She was sentenced by Magistrate O'Rourke to not less than one year and not more than two years less one day in the Ontario reformatory. Sentence was suspended on payment of a fine of \$100 and costs in each case. Restitution is to be deducted from the fine.

Premier Lenine is out of danger and Russia may hope that he will soon return to the leadership, Leo Kamsouff, the acting premier of the Moscow Soviet, informed the Communist Congress.

The Muskoka Indian Reserve, comprising some 13,000 acres of good agricultural land, and situated north of Birch Hills, Sask., is to be opened for sale to settlers.

Tax Rate for Guelph for 1928 will be thirty-eight mills, the largest in the history of the city.

A man who does nothing never has time to do anything.

### CANADIAN CATTLE ARRIVING AT GLASGOW.

For the first time in thirty-one years, when the embargo against Canadian cattle was placed, a shipment of live stock arrived recently at the port of Glasgow. So much interest had been evinced in the event that it took on something of the nature of a civic welcome, with all the town officials in attendance, wearing maple leaves in their button holes.

### MUSIC IN THE HOME.

WANTED.

Repeated Performances of Good Music.

The public likes to hear the music it knows. It likes repeated performances of the compositions that are good enough to bear repetition year after year. Not long since a business man, who is more familiar with the great musical classics than many of even his friends are aware, remarked "the Hungarian Rhapsody No. 2 is the most popular of Liszt's works and one of the most popular orchestra numbers by any composer largely because it is the oftentimes heard."

This gentleman was not in any way belittling that work, but made the remark purely in emphasis of the influence of repetition. That is one reason why the player piano and the phonograph play such an industrial part in musical education because they facilitate the constant repetition of the world's best music. Another phase of this same subject was discussed recently in Musical Opinion by no less a personage than Joseph Holbrooke, who in part said: "A popular notion of music and musicians is that composers write their music; then it is performed; whereupon they lean back, gather in untold fees and royalties, smoke big cigars, and enjoy themselves generally."

"Now, nothing of this kind ever happens. What really does occur is something in this wise, and it is most interesting. Some person or other writes, or tries to write, good music. He fails, or he succeeds; it really does not matter so long as he covers a few sheets of music paper with his notes. Having done this, he sends the manuscript to one of our conductors; and, if the music is sufficiently bad or good, inaccurate or accurate in its context, it is played once or twice. The conductor then stands forth proudly as a pioneer, a seeker after new works, a helper of 'struggling composers,' presenting novelties to the public, and getting many press writers to come and listen and write about them.

"We can assert that in one year alone hundreds of musical novelties are produced in this country. But how many survive? How many are worth a hearing? It is now quite easy for any composer to get his music played, let it be good or bad. Instead of this, however, one would wish for some judgment from conductors as to the merit of any work rehearsed and played? I am afraid there is no judgment. A work which is excellent and receives praise from all quarters is treated in the same way as a work which is childish and which has had no success at all; it is played once or twice, and then given back to the composer.

"The whole evil to British music, and a lot of repeated performance, and nothing else. The publication, the interest of the publisher, and the interest of the public; all follows inevitably when a good work is heard time and again. They are not; so
