The problem of a man's descent is to make it an ascent.

Another aid to longevity is to be some hopeful young man's rich uncle.

Most persons do not cease to love spring because she is a bit flirtatious.

Home is a place where you are forever telling somebody to cut out that noise.

A drive to bring down the price of gas seems absurd. What is needed is a walk.

It is not necessary to examine some family trees very closely to discover the graft.

When you say a modern has one foot in the grave, you mean that he has the other on the accelerator.

If you do house work at \$6 a week, that's domestic service. If you do it for nothing, that's matrimony.

The only thing about the movie hero that we envy is his ability to keep a shirt clean through all adversity.

The growth of cynicism may be due to the fact that "Follies" never are as naughty as they're advertised to be.

A normal wife is one who is surprised when she observes how charmingly polite her husband can be to other women.

Trusting in Providence is commendable, but that isn't all that is required of those who sit behind steering wheels.

As a rule the grafting is done before the fruit appears, but in the case of the political plum the grafting comes later.

It is a little more difficult for the young man to get ahead in business, but there still are villages that have no cash registers.

Correct this sentence: "He prayed much, not to ask for things, but to express his boundless thanks for blessings received."

If the man appeals to your patriotism or local pride, rest assured he is trying to make you pay for the privilege of having it.

That burglar who entered the home of a newspaperman doubtless squared himself with his pals by calling it a slumming expedition.

The shop girl's life has a bright side. After standing on her feet all day, she has a chance to stand on other people's feet going home in the car.

Superstitious Egyptians can see further evidence of Pharaoh's curse in the illness of Carnarvon's co-worker. Still, once upon a time quills a lot of people led by Moses dined Pharaoh's curse and got away with it.

BIBLE THOUGHT FOR TO-DAY OMNIPOTENT CARE:—The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore.—Psalm 121: 5.

GOOD OLD SONGS.

A musical authority announces that a recent poll shows that old songs are held in higher favor than new ones.

A good song, like a good book, is ageless. It holds its freshness in defiance of the backward slipping date of its composition.

THE GERMAN GRIP.

Addressing a convention of the American Chemical Society at New Haven, Conn., a few days ago, Francis P. Garvan presented an American view of the Ruhr invasion that is interesting.

HELP THE RED CROSS.

The ladies of the local Red Cross Society have been engaged all week on active canvass for membership.

LEGATIONS ARE NOT DRY.

"My husband has become intensely interested in foreign questions lately," remarked the statesman's wife.

NATURE NOTE.

"Of course, the dogwood trees," said Miss Clarke.

CAUSE OF MANY ACCIDENTS.

He lost control of his car. He lost control of his temper.

SOME FEEL EXTREMITIES.

The Morotown Commona girls do not mind the cold weather, for they go to school when the mercury is 30 below zero.

FOOL QUESTIONS.

R. M. T. asks: "Does time fly on the wings of the morning?"

HO, HUM!

Blinks: "It says here women artists and sculptors in the United States number nearly 15,000."

IT'S A GAMBLE.

I never knew, I never knew. When I, to cross the street will dare, I never know, I never know.

YOU KNOW IT.

A news item says New York's first policeman was a Hollander. And every one since has come from a place known as the Emerald Isle.

AND MAYBE TASTES JUST AS GOOD, TOO.

A happy home is one where the wife spends as much time fixing up meals as she does fixing up her hair and complexion.—Sam Hill.

NICHES LIKELY.

The man who speeds on life's highway may find he needs much cash to pay.

ALONG LIFE'S DETOUR BY SAM HILL

Away With It. Aaaa! When Spring house cleaning starts

Observations of Oldest Inhabitant. The old-fashioned mother used to spend her evenings darning the family's stockings.

The Ananias Club. "Why sure, John," came her sweet voice over the phone.

Legations Are Not Dry. "My husband has become intensely interested in foreign questions lately,"

Nature Note. "Of course, the dogwood trees," said Miss Clarke.

Cause of Many Accidents. He lost control of his car. He lost control of his temper.

Some Feel Extremities. The Morotown Commona girls do not mind the cold weather,

Fool Questions. R. M. T. asks: "Does time fly on the wings of the morning?"

Ho, Hum! Blinks: "It says here women artists and sculptors in the United States number nearly 15,000."

It's a Gamble. I never knew, I never knew. When I, to cross the street will dare,

You Know It. A news item says New York's first policeman was a Hollander.

And Maybe Tastes Just as Good, Too. A happy home is one where the wife spends as much time fixing up meals

Niches Likely. The man who speeds on life's highway may find he needs much cash to pay.

OUR CANADIAN QUESTION AND ANSWER CORNER

Q. What is Canada's penitentiary population? A. The daily population of the Canadian penitentiaries for the year ending March 31, 1922, was 2,417

Q. When was the Battle of Queenston Heights fought, and with what result? A. The Battle of Queenston Heights fought on October 13, 1812,

Q. What is the Battle of Queenston Heights fought, and with what result? A. The Battle of Queenston Heights fought on October 13, 1812,

PRESS COMMENT

What U.S. Escaped. U.S. people say they got nothing out of the war. But look at what they escaped!

Soviets Like Pagans. We read of Christians turning on red persecutors in Moscow. The Bolsheviks, by their conduct and attitude generally, are endeavoring to destroy religion of every kind.

New Combines Act. The new Combines Act is a move in the right direction, and, of course, depends on its enforcement for its strength.

Understanding Quebec Better. "Even as we have found that Toronto is not so black as certain newspapers have painted that city, so we believe that her population every day in every way is coming to understand us better and better, and to know that French-Canadians have not the slightest idea of imposing their language on Ontario.

April Moods. W. Spencer Leeming. O fitful April, you tantalize, Now with a soft, warm kiss, Then, swift, a flame leaps in your eyes

But yesterday the early flow'rs Peeped boldly, just to see, The splendors of your smiling hours And sipped your golden glee,

Yet, how can we of you complain, Since we, in years of youth, Gave cause for mingled joy and pain

Ere Time revealed a Truth? So, April, we understand your mood And see in you but latent good.

Richer Than King "Tut's" Tomb. An Aztec pool of sacrifices from which have been recovered gold and jewels cast there with human victims long ago.

Death came suddenly on Wednesday to Mrs. Hattie E. McCurdy, wife of J. O. R. McCurdy, jeweller, Belleville.

The unhappy affection of being wiser rather than honest, witty more than good-natured, is the source of many of the ill habits of life.

That Body of Yours By James W. Barton, M.D. Your Clutch. The clutch in the motor car enables you to run free, or in first, second, third or reverse gear. Now what about the clutch in that body of yours? Your clutch is the ability you have to do just as a mechanical clutch. That is, it enables you to run free, or in a forward or reverse direction. Nature put the clutch within your control, and you use it just as you will. When you are asleep your engine is still running, the parts are all warmed up, but a general repair process is going on and your battery (brain) and other parts are being nourished. Then you are in low gear, you make considerable noise, but your progress is slow. In second gear you are up against it as a motor car is with a hill. Your body is encountering heavy work, may be sickness. It is then that you must use all the power of your body mental and physical to get to the top of the hill. In high speed you are using the engine at its best, that is, if you are not travelling too fast. In reverse gear you are backing away or trying to undo some mistake you have made with that body of yours. Now the little lesson for you in all this is to put your body in the right gear for the task at hand. Many people try to run in high gear under all conditions. It is the right speed to aim at all right. But if your body is tired, your brain likewise fatigued, and you have a high hill or job to tackle, why not use the same sense as you would with your car. These brain fagged, neurasthenic people all try to remain in high gear, when they should be in one of the others. An engine clogged with carbon, propelled by poor gasoline up a heavy hill, is really the picture of that body of yours clogged with waste matter, with poor blood coursing through it, as you tackle a hard physical or mental problem. Get your engine cleared out, your blood will then get richer, and your brain will be in condition to know what gear to engage in, when any need arises.
