ITS APPEAL UNIVERSAL.

for the first time in public at Covent Garden, London, on May 8th, 1823, and the English people are preparing to observe the centenary of the event. John Howard Payne, the author of the song, was a native of the United States and at his death in 1853 was that country's consul at Tunis. But "Home, Sweet Home" is as much loved in this country as in the United States or England.

There is a story told of Lord Kitchener which is worth recalling in this connection. Many years ago he was stationed in Egypt. OWNING YOUR OWN HOME.

There is nothing that gives a per son such a feeling of security as The only palm that thrives as well owning one's own home. It has often been said that it is cheaper to rent than to own, but is this saying true? Is it true in the long run when Luxury: Anything you could have everything is considered?

Many a Kingston family in th last few years has had the unpleasant experience of having its home sold over its head by not having the title to the house. Renting means worry; it means moving; moving means expense, often the buying of new things to fit the new home. It means in the end that when a man has reach an age in life when inclined to take things a little easier

that he must keep at the tread mill. Buying one's own home, except in rare instances, puts a sense of responsibility on the man and his family, sacrificing some of the pleasures of the present for comforts and

> IRELAND'S CLEARING SKIES. When the Council of the League

of Nations invites the Free State of Ireland to an international customs conference, along with other members of the league, it can, says the New York World, only be because it recognizes its existence as a separate state. This obviously was Great Britain's purpose in withdrawing from the island and turning over the government to the Irish reople. Politically the status of the Free State has been assured in theory and practice. It has been a question of how the Free State government would emerge from the bitter struggle with its domestic enemies. They alone denied to it the authcrity that the rest of the world wa ready to acknowledge it exercised of right. They, as an irreconcilable WORKERS:-He that minority, were determined at any of costly cable and telegraphic ser-

extermination.

"Home, Sweet Home" was sung of deValera and his confederates. The material damage they have wrought has been immense, the savagery of their method inexcusable. Now, after nine months of guerilla fighting, the irregulars have been reduced to a few detached bands in hiding. None of their leaders of importance except de Valera remains alive or free, and he is more an object of pity than cause of danger. If he were to evade capture it would be a real relief for Ireland.

The skies are at last clearing for Ireland, and peace is in sight through the exhaustion of the rebels. The next pressing task of the Free State government will be to rebuild on the ruins the deValeraites have created. to set the national finances in order and to maintain with firmness and justice an administration calculated to deserve the loyal support of a people long distracted by civil dis-

A young lad named Tabert, whose family resided in North Dakota, was apprehended at Tallahassee for riding on a freight train, and upon pleading guilty was sentenced to a fine of \$25 or three months in jail. On the following day the sheriff delivered him to a lumber company, under a convict labor contract, and received \$20. A few days later he was notified by the post office of the receipt of a registered letter for the prisoner addressed in his care, and instead of forwarding it to the boy. he directed ft returned to the sender, the boy's father, who had sent the money to pay the fine and secure his liberation. Under cross examination the sheriff admitted that he received on the average \$23 for WIFE." every prisoner he delivered over to the convict labor contractor. two years ago. New York was a small city of 312, 000 in that far off day of 1841, a little smaller than the present Indianapolis, just a trifle bigger than is Rochester and about half the size of the present day Toronto. The old Astor House, whose proprietor. the great-grandfather of Lord Astor, used to sit in the rotunda and shake hands with distinguished guests, was Gotham's chief hotel of that period, and the theatres clustered about the old City Hall. Washington Square, which Canadian visitors know as a dingy old neighborhood of weather-beaten houses, was then a fashionable residential locality. Now an immense world centre with a very high ratio of foreign population, New York at the Tribune's birth was just a moderately-sized city with preponderant mercantile and shipping interests homogeneous and American in feel-

Started Tribune With \$1,000. In such a city did Horace Greeley, author-to-be of that famous advice "Go west, young man," found the Tribune with only \$1,000 capital ... and borrowed capital at that. Newspapere were not institutions in Greeley's time. They were vehicles for the expression of the views of one man-the editor. Journalism then almost the sole avenue to publicity, and men of high talent like Greeley were glad to embrace ping-stone to careers in politics high in those days before the advent the special correspondents who efficient and fully licensed before hard time of it. spread themselves in despatches sent operating any car.-Brandon Sun. by mail had ample scope to show

driven through the insensate folly to most Americans who bought and read newspapers during Greeley's regime, which lasted from 1840 to 1870. Most of the readers were men and newspapers carried no sporting news and no department store advertising. Greeley loved politics. He saw that protection was the only way to build up the infant industries of the United States. He wrote high tariff editorials a column and a half in length in small type and lived to see the wonderful success achieved by the adoption of this policy. Slavery he loathed and demanded that it be either limited or abolished.

> Braved Yellow Journalism. The eruption of what is known as 'yellow journalism" came in the late 80's and '90's of the last century. It appealed to the public's lowest tastes. The increased circulation and augmentel wealth from resultant advertising revenue accruing to its exponents hurt the Tribune. But the latter refused to degrade its columns with slime and sensationalism. It withstood such competition by sheer excellence, until by 1913 the "yellow print" had begun to

While the Hearst papers were still howling with delight at every reverse to British arms, the Tribune was one of the few American big newspapers which believed that the German attack on western civilization must be repelled at all costs It had no small part in persuading the United States to do the right thing at long last.

By James W Can You Poison Yourself?

I have emphasized the importance of getting rid of the wasto products of the body so often that my readers may be just a little tired of hearing about it. Now as a matter of fact it would

really be a hard job for you to kill yourself with an accumulation waste matter in the body. Nature is so wonderfully good to you that notwithstanding all your neglect you will continue to eat, drink, sleep, and actually remain alive. It would perhaps be hard to find many cases where the waste matters actually killed a parson. Of course the celebrated case where the skin was covered with a varnish, or in a case where the urine was completely sup-

pressed death followed. But my point is that this waste matter entering as it does into the blood changes the composition of the blood so that when it goes to an organ, say the stomach, to supply it with its natural juice and also keep the organ itself in good repair it is in poor condition to do its work. This means that the stomach for in-Wisdom never enters a man's head stance will not do its work as well. as both its structure and its juice producing mochanism have not had the proper kind of material delivered
