Raccoon	up to \$7
Skunk	up to \$1.50
Beeswax, lb.	.30
Gaseng, lb.	\$12.00
Buckwheat, bus.	65 to 70

Butter Market Steady. Montreal, April 20.—There were no new developments in the condition of the butter market to-day, the feeling being about steady, but the volume of business was small, owing to the somewhat limited demand, which would indicate that buyers were not disposed to operate only for immediate requirements, consequently there was some accumulation of stock on spot in first hands. However, prices were unchanged, with sales of odd small lots of Quebec fresh-made fodder creamery at 34 1/2c per lb. for first, and at 32 1/2c per lb. for seconds.

The trade on spot cheese was quiet, but there was a feeling among

the trade that the offerings in the Brockville section should be bought at 15c to 16c per lb., f.o.b. this week, owing to the continued weak advices from over the cable, which to-day noted a further decline in the price of New Zealand cheese in the London market of 12s to 14s per cwt. to 98s per cwt.

The tone of the local egg market was steady, and prices in a wholesale jobbing way were unchanged, but there was an easier feeling in the country on account of more liberal receipts and purchases of some fair-sized lots of straight receipts were made by local jobbers at 28c to 29c per dozen, f.o.b. Ontario shipping points, cases returned. The domestic consumption continues heavy, and in consequence, there was a good demand from grocers and other dealers for supplies, which resulted in a fairly active trade being done in Canadian selected fresh at 36c, straight receipts at 34c, and No. 2 stock at 32c per dozen.

Egg Markets Top-heavy. Ottawa, April 20.—(Dominion Live Stock Branch.)—The belief has been expressed that egg markets are top-heavy, and that a sharp reaction would not be surprising. There is some slight indication of this to-day. The undertone of the Toronto and Montreal markets is easier, and Chicago is 1/2c down. Offers are being received in the East from Winnipeg of extras 20c, firsts 28 1/2c, now cases; seconds, 23 1/2c, used cases, all f.o.b. Winnipeg. Winnipeg firm: receipts light, dealers quoting 24c to 25 1/2c delivered; jobbing extras, 27c to 28c; firsts, 26c to 27c; seconds, 24c to 25c. Saskatchewan dealers quoting country shippers delivered extras, 22c; firsts, 21c; seconds, 17c. Calgary dealers quoting country shippers, extras, 22c to 23c; firsts 20c; seconds, 16c; cracks, 10c. Receipts fairly large, quality good. Several cars reported being packed for shipment. British Columbia unchanged.

Grain and Feeds. Ontario—Barley—Malting, 59c to 61c, according to freights outside. Buckwheat—No. 2, 76c to 78c, according to freights outside. Oats—No. 2 white, 49c to 51c, according to freights outside. Peas—No. 2, \$1.45 to \$1.50, according to freights outside. Rye—No. 2, 79c to 81c, according to freights outside. Wheat—No. 2 winter, \$1.20 to \$1.22, f.o.b. shipping points; No. 3 winter, not quoted. Both quotations for car lots. Western—Barley—C.I.F., bay ports, No. 1 C. W., nominal. Wheat—C.I.F., bay ports, No. 1 northern, \$1.32 1/2; No. 2 northern, not quoted. Corn—American, track, Toronto, No. 2 yellow, 92 1/2c; No. 3 yellow, 93 1/2c.

Millfeed—Carries—delivered. Montreal freight, bags included: Bran, per ton, \$29; shorts \$31; middlings, \$35; feed flour, bag, \$2.15 to \$2.25. Hay—Baled hay, track, Toronto, No. 2 \$14.50 to \$15 per ton; loose hay, No. 1, per ton, \$17 to \$18. Straw—Per ton, in carlots, track, Toronto, \$9.

A NARROW ESCAPE. Two Buggies Were in Collision Just Out of Newburgh. Camden, East, April 19.—Maple syrup is being sold at two dollars per gallon. Despite the cold weather a number of our good housewives are house-cleaning. Miss Helen Williams spent a few days recently with relatives at Harrowsmith. Mrs. Clifford Skinner and two children returned home last week after a two week's visit with her parents and other friends in Toronto. George Histed has purchased Percy Histed's house and lot at the east end of the village and moved in on Monday. Mr. and Mrs. Claude Hinch entertained on Saturday evening last.

What might have been a serious accident occurred on Sunday evening when Victor Edgar ran into Mr. and Mrs. Dickinson as they were driving home from church at Newburgh. Their front wheel was completely smashed but luckily nobody was hurt. Both parties were driving a horse and buggy.

Mr. and Mrs. Ira Salisbury, Colebrook, were at A. Alkenbrack's on Sunday. Jack McGarvey has gone to Strathcona to work in the paper mill. S. Breen has been on the sick list. The Mission Circle met at the home of Mr. and Mrs. Claude Hinch on Monday evening. The officers were re-elected for another year. Last year the Circle raised about one hundred dollars which was exceedingly well for the first year.

The pupils of the school here were examined by the school medical officer and nurse on Monday and Tuesday. The Ladies' Aid met at the home of Mrs. E. Switzer on Tuesday afternoon. The annual election of officers took place. Mrs. T. A. Dunwoody, Newburgh, spent Wednesday, at R. W. Longmore's.

William Hawley has purchased a new Ford car. A concert in aid of the public library is being prepared to be given in the near future. Mr. Beaman has taken the place of Mr. Carlton in the Standard Bank. Several attended the sale of Clark Walker's at Wilson on Wednesday.

Five hundred and twenty-five dollars with costs was the award to Thomas J. Holland, at the close of the action against Belleville corporation and ex-Police Officer George Stitt for damages arising out of an accident in which the police motor and Mr. Holland's truck figured.

### THE MAN ON WATCH

Moscow, being one hundred years old this coming summer, might move in and observe its centenary with Kingston, which will be 250 years of age on the 12th of July.

There are more crazy people than the long-distance dancers. Included among this class are surely those Toronto preachers who declare that the theatre is "hopelessly and incurably immoral." Did you ever hear of such rubbish to talk from a pulpit?

The Drury government has treated Kingston and Queen's University well indeed and it will be kindly remembered even if it does go down to defeat. As an independent voter, the Lampman prefers Drury to Ferguson any and every day.

Will a Kingston candidate for election to the next legislature have the nerve to declare himself in favor of wine and beer licenses? The Lampman says he is convinced that the man who does can win the Kingston seat against all comers.

What do you think of the "big city council" at the legislative buildings at Toronto? The windbags are hard at it.

The principal of Queen's thinks that the breakfast table is a kind of blue place in the morning. Not a bit of it. With toast and eggs and bacon, marmalade and coffee—preceded by family worship—how could anyone but a born groucher feel any way else than happy there?

If Kingston's Coal King manages to solve the hotel riddle for the Limestone city, a public statue of him will surely be erected in one of the parks.

It seems a pity that it is found necessary to use Indiana limestone in the construction of the Royal Military College memorial arch. Something Canadian would have been more appropriate anyway.

Odessa will now be claiming social prestige over Wolfe Island, since a daughter of this Russian-named village has become the wife of a knight. That may be, but it took Wolfe Island to bring the high price of butter down with a smash.

One of the Wolfe Island oldtimers recalls that seventy-five years ago the harbor was icebound until the 20th of April. That is a week later than it was opened this spring, but in '48 the inhabitants of the island probably did not worry so much about the late spring.

The Gananoque town council has just passed bylaws respecting peddlers, dogs, cats and hens, but en-

acts nothing about the "chickens" who wander about the river town at night.

The county magistrate should be on the minimum wage board at Toronto. He has decided that eight dollars a week is sufficient for the keep of a Verona wife and two children neglected by the husband and father. The cost of living must be dropping rapidly.

The Ontario Motor League pathfinder has just found that it is 163.8 miles from Toronto to Kingston by the public highway. For years the Grand Trunk railway markers have shown that it is 161 miles from Toronto to the outer station. Adding two miles to cover the distance from the junction to the city station, you get what the flying pathfinder has just announced. So that the distance by highway and railway is practically the same.

—THE TOWN WATCHMAN

Luxurious Opium Den Raided. Chicago, April 20.—Raiding a luxuriously furnished apartment to-day, police and government agents seized more than \$25,000 worth of morphine, opium and cocaine, and arrested two men. One of these is Frank Grimaldi, restaurant proprietor of New York, who was smoking an opium pipe when the officers burst in.

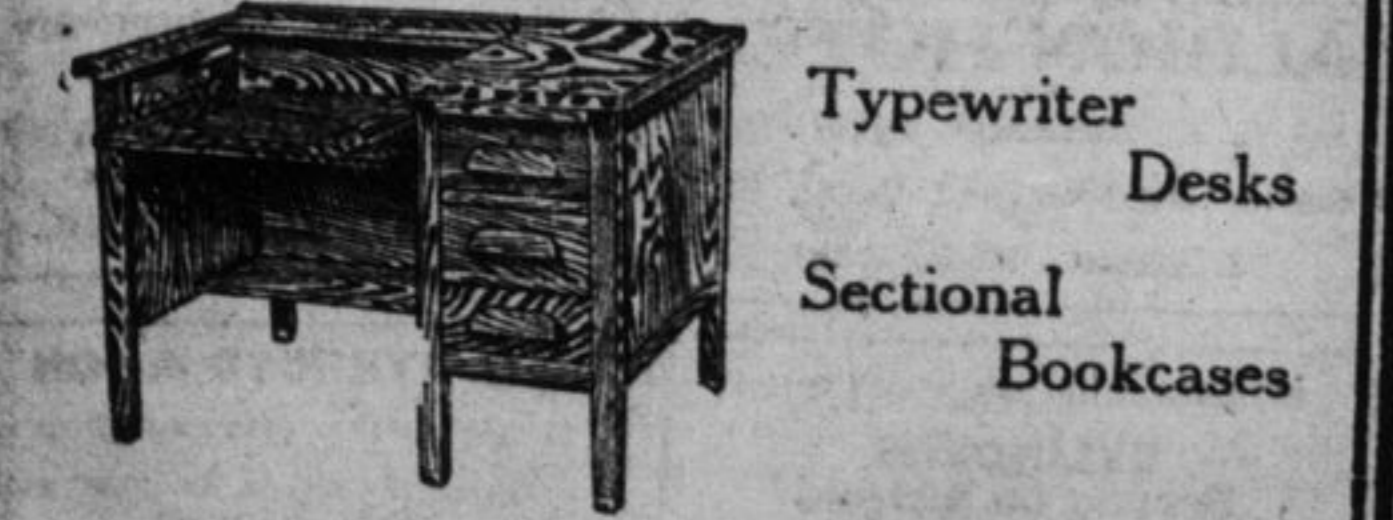

Grimaldi, the police say, is the head of an organized band of dope manufacturers and runners. A railroad ticket for New York and \$3,500 were found in his pockets.

Adam Elliott, Madoc township, where he was engaged in farming operations for many years and who at one time was a miner, died on Thursday in Belleville, where he had been living for about two years and a half. He was ninety years of age.

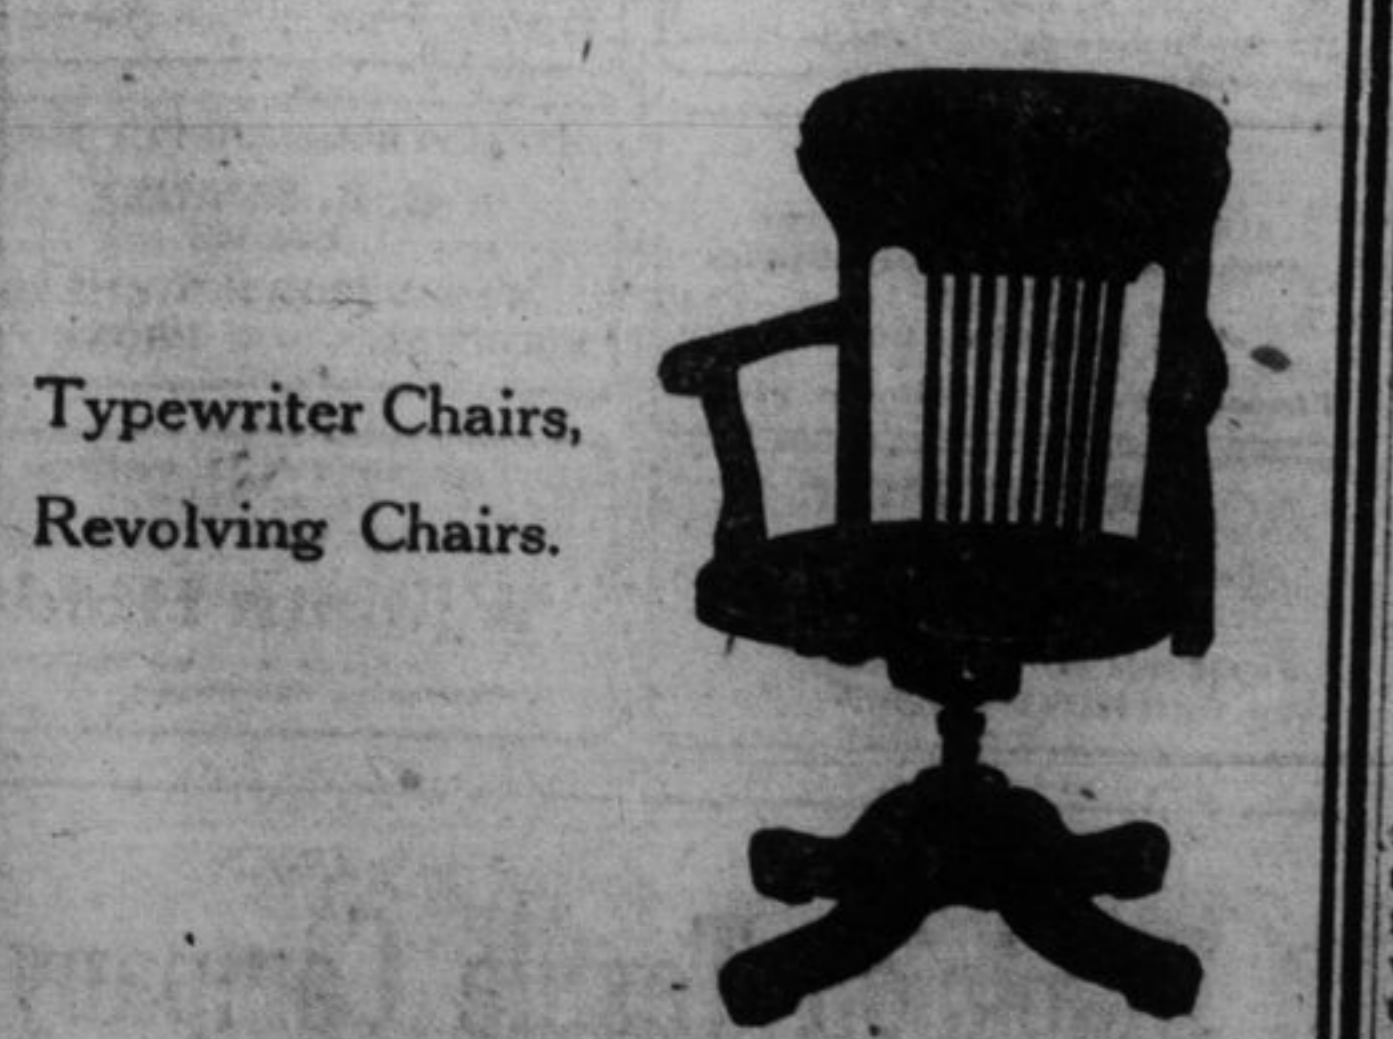

On Tuesday the death occurred in Prescott of an old resident in William Pitt, aged seventy-five years.

Barrett ROOFINGS

Roofing for every kind of Building Steep and Flat Roofs—

S. I. S. (Seventeen Inch Salvage-Edge Roofing)

A Revolutionary Idea in Roll Roofing

Durable, fire-resisting, handsome, and economical—Barrett S. I. S. Roll Roofing is the ideal roofing for all farm buildings and steep-roof industrial structures.

A Double Thickness Roof. As shown in the picture, half the width of the roll is plain surfaced, half mineral-surfaced. In laying, the mineral-surfaced half of the strip entirely overlaps, and is securely cemented to the plain surfaced portion. This gives a double thickness built-up roof throughout, with mineral surface exposed to the weather.

Good Looks. The mineral surface—in permanent, fadeless red or green—never needs painting.

Fire Resisting. Sparks or flying embers cannot ignite the heavy mineral surface of S. I. S.

Durable. The base of S. I. S. is extra-heavy, extra-rugged roofing-felt, thoroughly waterproofed.

Ask for an estimate on a complete roof of S. I. S. Roll-Roofing. The cost is moderate.

MESSRS. JAMES DONEVAN & SON, Gananoque, Ont.

The Barrett Company Offices and Plants at: Montreal, Toronto, St. John, N. B., Halifax, N. S., Winnipeg, Vancouver

Barrett Everlastic Giant Shingles  
Barrett Everlastic Giant Shingles are made and laid 3 to a strip. Mineral-surfaced in red, green, or blue-black. Highly fire-resisting—never need painting or restaining. Base is extra-heavy roofing-felt—thoroughly waterproofed. Can be laid right over the old roof (use 1 1/2 inch galvanized roofing nails).

Everlastic Liquid Roofing Cement  
Gives new durable surface to worn-out "rubber" and other prepared roofs—stops all leaks. Easy to apply, low in cost.

Plastic Elastogum Patching Cement  
Stops leaks in roofs; repairs flashings, gutters, eaves, etc. Sticks to wet or dry surfaces. Easy to apply and economical.

Cresoid  
Fly-Oil and Cow Spray  
An effective, economical fly-oil, lice-destroyer and cow spray. It is safe and easy to use, and gives unflinching results.

Barrett Products are made in Canada by Canadians
