WHY?
Try to make yourself a new Hat out of materials that are as common as postage stamps. You spend from \$2 to \$5, spend hours in the making of it and what have you got when it is finished? Something your friends laugh at a block away.
No doubt you have a hat you used to like but are tired of the shape. Let us rebuck it up-to-date. You will have a Hat when it is finished. It won't cost more than \$1.50 and probably less.

The Kingston Hat Cleaners
UPSTAIRS
163 Princess St. Phone 1488.

Kingston and Vicinity

Summer Street Cars.
The well-known open cars of the local street railway company are being overhauled and painted in preparation for the summer season.

Transferred to Ottawa.
Sergt. R. J. Brown, R.C.D., Toronto, formerly of Kingston, has been transferred to the school of musketry at Ottawa for the summer.

With Insurance Company.
D. J. Day, Montreal, a former Queen's student, now with the head office of the Sun Life Assurance Company, is spending a few days in the city.

The Market Augmented.
With the steamer Wolfe Islander making regular trips now, the local market should be greatly augmented by the addition of residents of the island who have produce to sell.

May Flowers Are Out.
Already the May flowers have commenced to shove their heads above the ground. In the course of a couple of days they should be out in large numbers.

P. W. O. R. Training.
The annual spring training of the Princess of Wales' Own Regiment is progressing most favorably, and it is expected that the first march-out of the season will be held shortly.

Fine Weather For Farmers.
The farmers of the surrounding district are in the midst of their usual spring work at the present time, and they are all hoping for another two weeks of good weather at least.

See For Yourself.
We carry a large range of made-to-measure suitings, blue and black serges and English worsted cloth of the best material. We guarantee first class fit and workmanship. Frevost, Brock street.

Hugh Glenn Makes First Trip.
Hugh Glenn, Amherst Island, made his first trip to the city with his boat "Echel" on Wednesday and returned in the afternoon with a large load of freight. George Womp, W. Smith and W. Willard returned with him. Mr. Glenn reports that the ice has disappeared from the en-

trance to the Bay of Quinte. He intends making his semi-weekly trips from now on.

Purchased Plate Glass.
George Boyd, purchased all the plate glass in the buildings on King street, opposite the Whig office, which are being torn down to make way for the new Bank of Montreal building.

Inspector of Construction.
Prof. L. T. Rutledge, of the staff of Queen's school of science, has been appointed inspector of construction in connection with the building of the new Queen's library. John Tomkins, a final year science student, is acting timekeeper.

Getting Plant Ready.
The county good roads plant, which has been stored at Tuttle's Hill during the winter months, is being overhauled and will be taken to the Woodburn road where extensive work will be done during the summer months.

Wants Lots of Help.
Anglin-Norcross Limited, Montreal contractors, who are building the new library building at Queen's university, are giving work to all the men who apply. It is the intention of the company to rush the work along and the best way to do it is to have a big gang of laborers.

Moving Picture Entertainers.
Mr. and Mrs. F. May, Enterprise, moving picture entertainers, spent an enjoyable winter with their daughter and son-in-law, Mr. and Mrs. Edwin Magee, Hay Bay. They leave this week for Athens, to spend a few days visiting friends. From there they will go to Sherbot Lake, to open their summer tour with a two weeks' stand in Community Hall. After that they go to Arden, Tweed, Havelock, Lakeside, then to Toronto to fit out for a tour of western and southern Ontario.

Died at Cape Vincent, N.Y.
William H. Ruttan, one of the best known residents of Cape Vincent, N.Y., died at the home of his sister, Mrs. Frank Gardner. Death was due to hemorrhages. He was sixty-one years of age. Mr. Ruttan was born in Picton, and had lived in Canada much of his life. He was a travelling salesman. There was probably no one in Cape Vincent

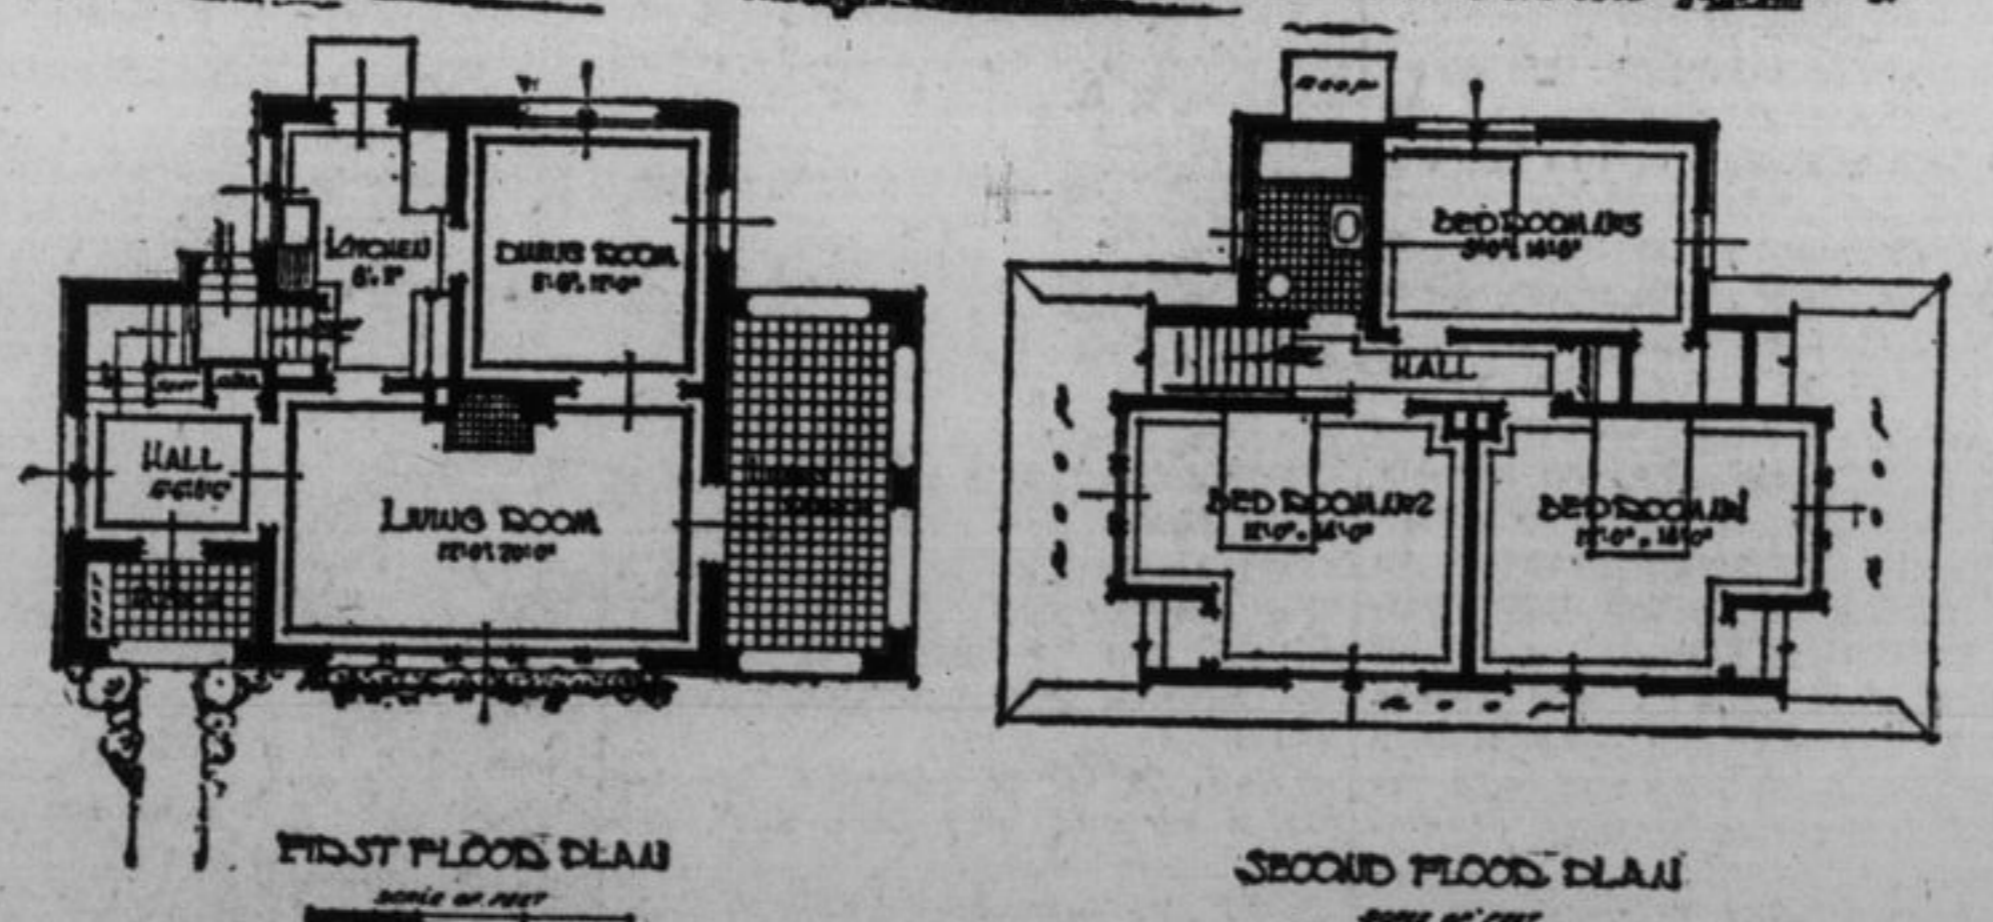

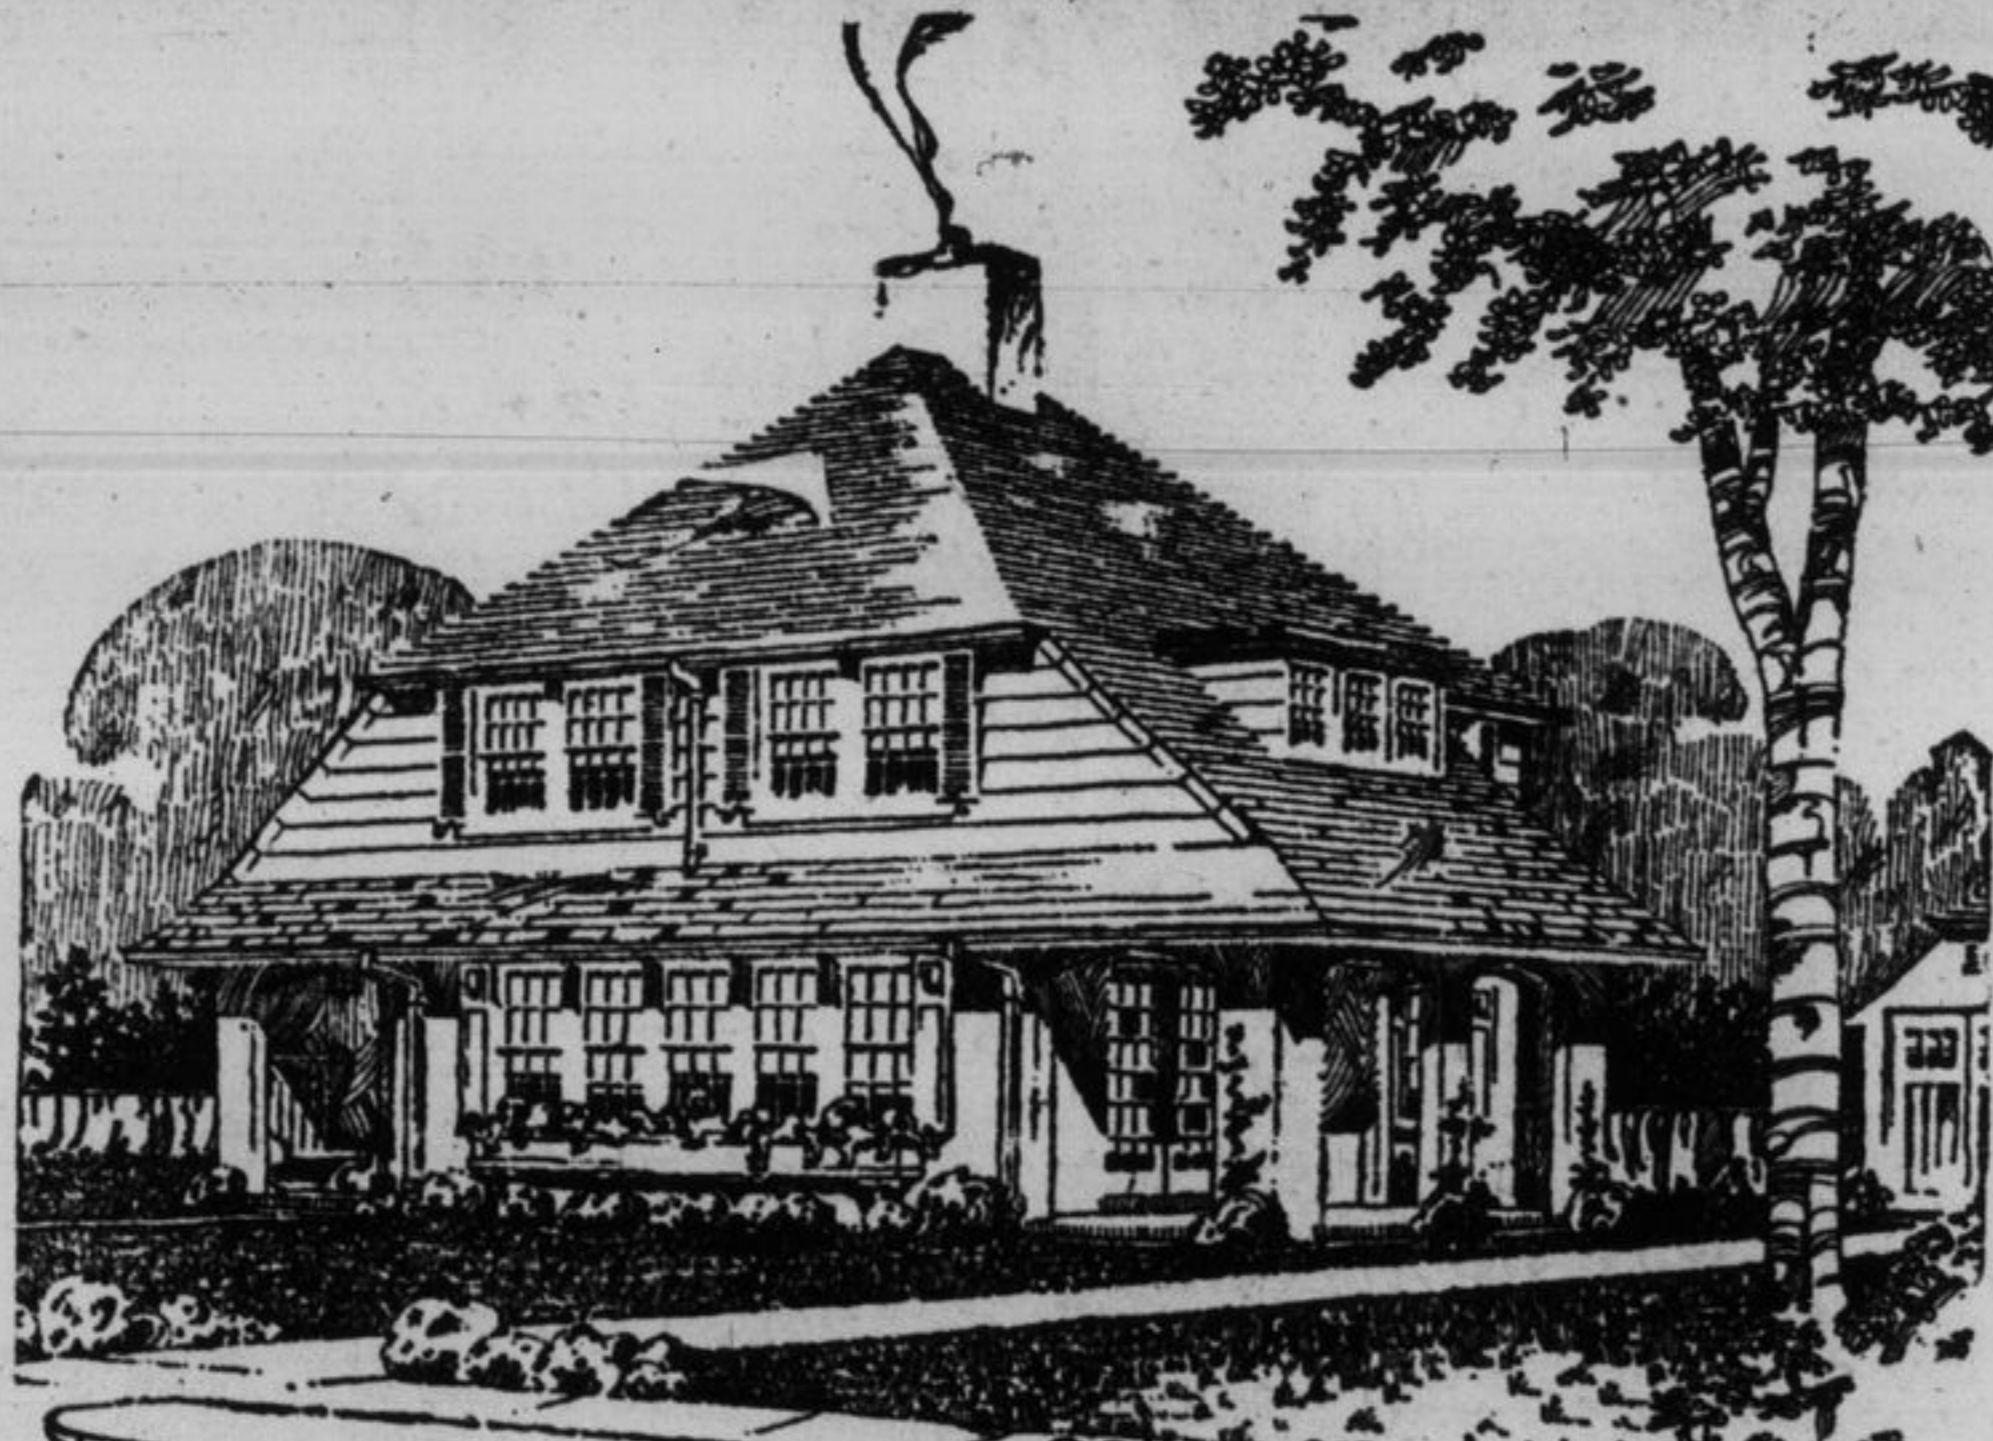

better acquainted with the history of Lake Ontario than Mr. Ruttan. He was a writer of considerable ability.

Died in Alberta Province.
News has reached Athens of the death of a former resident in the person of Mrs. Della Wiltsie, aged eighty-five years, wife of the late Anson Wiltsie, who passed away after a brief illness at the home of her son, J. W. Wiltsie, Lacombe, Alberta. Deceased was Della Boyce and was born near Lyn. She leaves one daughter and one son at Lacombe, Alta.; also one sister, Mrs. Sarah Wilson, who resides in Athens with her son, C. H. Wilson, and who is now in her ninetieth year.

Interested in Oil Strike.
Richard Aykroyd, a cousin of Dr. S. Aykroyd, of this city, organized and is one of the directors of the British Petroleum Company, which has made a big strike in the Fabyan-Wainwright district of Alberta. It has developed a flow of 6,000,000 feet of gas. Samples of the gas are being taken, and will be chemically examined. The dominion government is being asked to make an analysis, and tests will also be made. The well is six miles due north of Wainwright, and about the same distance from the Imperial Oil Company's Fabyan well. Drilling has been going on for several months, and at a depth of 2,015 feet the drill struck the gas vein that geologists have been sure for some time past lies under the Wainwright country.

Millhaven Wharf.
The Millhaven wharf is reported to be well advanced toward completion. The contractor has only to finish the top and it will be ready for service. The residents of Wolfe Island and the mainland are delighted to have this wharf which has been a long-felt necessity, especially to the residents of the island who desire the shortest route to Ernest-town station. John McGee's ferry service is expected to increase and if the passenger traffic warrants it he may put on a larger boat. The people are particularly grateful to Mr. Sexsmith, M.P., for this wharf. Many of the farmers on the island are sending their entire output of cream to Kingston daily by the Bath stage, which picks up passengers and freight at Millhaven.

Small House With Pleasing Roof Lines

The long sloping lines of the roof give this house a pleasing character, and with the hood that extends across the front, just above the first story windows, a strong horizontal effect is obtained that tends to lower the appearance of the house and at the same time to increase the apparent length.
This gives a front of good proportions that is not stilted and in no way suggestive of the four-wall-and-roof "box" that is so often characteristic of small two-story houses.
To further this pleasing horizontal effect the windows are arranged in groups, symmetrically placed. Most striking is the group of five large windows in the first story that centre in the living room, opposite the fireplace, giving a most unusual wall treatment and making the room bright and attractive. A flower box extends the full length under this group of windows, offering a tempting setting for geraniums and hanging vines where they will show to the best advantage, both from within and without.
The first story walls are of stucco on hollow tiles, giving a most effective background for planting and lending variety to the exterior in the contrast of both color and texture the plain wall affords in relation to the single walls and roof above.
A small reception hall, a living, a dining room, kitchen and attractive living porch complete the first floor. This porch has a cement floor and the openings are so arranged that the enclosing of the porch in the winter months is a most simple matter, giving another room and one that is delightful to live in.
On the second floor are three good size bed rooms and a bath. Closet space is not lacking. All of the bed rooms have group windows that given plenty of air and sunshine.
Cost about \$7,300.
Complete working plans and specifications of this house may be obtained for a nominal sum from the Building Editor. Refer to House A-63.
