> Was it not simply because he made as their nervous and mental equiphis occupation, never considered very high one, the one big thing of his life, because he studied to learn everything he could about it, and was never satisfied until he had reached the highest place in it. was only a cook, but he made up mind that he would be the best cook in France, and he succeeded, after long years of effort.

What an object lesson there is in

this man's life for people of all classes. Only by doing as he did can success be attained. The great men of the world are not all found in the high positions. There is just mankind every- as much virtue in doing a small task well, as in doing a big one. A man can find greatness in doing the menial things of the world to the full ex-There is no hope of a settlement tent of his ability, just as he can Post. The great men of the world are not always those who are constantly in the limelight. In the humblest walks thousands of men and women who are worthy of the highest honours which can be bestowed on them, because they are doing their allotted -Brandon Sun. tasks well, because they are working to be the best in their own particular line of endeavour. All cannot reach the top, all cannot be entitled to be called the best in their occupation, but all can make every effort to reach the top, and all can O, loud and shrill the rooster crows, become great by giving whole-heartin which they are placed in life. Mourier might have been just as happy as an ordinary cook, but his soul was in his work, and that made Doubtless, within the quiet caves, him great. That is the one essential of greatness, be it in big things or

A TIMELY WARNING.

Is the world going insane? This is the question which is propounded and answered by Dr. A. H. Desloges, the director of asylums for the province of Quebec. The question was not put forward because of the chaotic conditions which have existed in Europe since 1914, nor because of the forces which have been let loose in the fight between capital and labour in some parts of the world, nor does it apply to the results of the Soviet regime in Russia. It is a Conan Doyle says he has quit straightforward question addressed eral mental and physical conditions which Dr. Desloges has found to Many a young hopeful expects his exist in following his profession. ed ly the whole civilized world will have become insane, or will be on Number of aspirants for the dancing the way to becoming insane, unless something is done to stop the rapid increase in mental derangements. This answer is backed up by his statement that the past year has tures in front of him. been a record one for the number of cases of insanity treated, not only in his own province of Quebec, but be of value to business houses in deover the whole world.

There is a strong note of warning in what this noted alienist has to say. Mental derangement is but one of the inevitable results of the ertraordinary conditions of intensity captain," the inventor admitted. and excitement which have existed "But it is possible to tell what a perin the world for the past few years. Ever since the great war threw the world off its balance in 1914, nothing has been normal. Even to-day there is not a normal condition of affairs. Men and women do not vous chap, who sets all balled work or play or do anything in the and the individual who goes at his same way as they used to do.
